

**Item 4 Questions received from members of the public**

**Question 1 Mr Tony Morris**

**To: Councillor Carson Albury, Executive Member for Customer Services**

The changes to sheltered housing are not the ones we had previously thought had been agreed upon, with no consultation on the actual changes implemented, DVD players have already been taken out of the communal lounges. If pensioners wish to keep the services they will be £11 worse off - including a wake up call and installation of alarms. These changes are having a detrimental effect on the Health and sense of security of residents in sheltered housing.

Why are these changes happening without any consultation and can they be reversed?

**Question 2 Mr Letchford**

**To: Councillor Carson Albury, Executive Member for Customer Services**

In view of the growing number of elderly people in this country, what grounds were there for cutting back support services in relation to Sheltered Housing in Adur & Worthing?
