

22 January 2018

Joint Governance Committee 6.30pm on Tuesday 30 January 2018 Gordon Room, Town Hall, Worthing

Adur District Council: Councillors George Barton (Chairman), Kevin Boram (Vice-Chairman), Carol Albury, Ann Bridges, Jim Funnell, Paul Graysmark, Barry Mear and Geoff Patmore

Worthing Borough Council: Councillors Elizabeth Sparkes (Chairman), Lionel Harman (Vice-Chairman), Paul Baker, Callum Buxton, Jane Sim, Bryan Turner, Steve Wills and Mark Withers

Agenda

Page No.

1. Substitute Members

Any substitute members should declare their substitution.

Members and officers must declare any disclosable pecuniary interests in relation to any business on the agenda. Declarations should also be made at any stage such an interest becomes apparent during the meeting.

If in doubt contact the Legal or Democratic Services representative for this meeting.

Declarations of Interest

2.

Minutes	
To approve the minutes of the Joint Governance Committee meeting held on 28 November 2017, copies of which have been previously circulated.	-
Public Question Time	-
To receive any questions from members of the public.	
(Note: Public Question Time will operate for a maximum of 30 minutes.)	
Items Raised Under Urgency Provisions	-
To consider any items the Chairman of the meeting considers to be urgent.	
Audit Planning Reports for 2017/18 for both Adur District Council and Worthing Borough Council	5
To consider a report by the External Auditor, copy attached as item 6.	
Annual Audit Letter for 2016/17	77
To consider a report by the External Auditor, copy attached as item 7.	
Joint Treasury Management Strategy Statement and Annual Investment Strategy 2018/19 to 2020/21, Adur District Council and Worthing Borough Council	125
To consider a report by the Director for Digital & Resources, copy attached as item 8.	
Disaster Recovery Test	177
	To approve the minutes of the Joint Governance Committee meeting held on 28 November 2017, copies of which have been previously circulated. Public Question Time To receive any questions from members of the public. (Note: Public Question Time will operate for a maximum of 30 minutes.) Items Raised Under Urgency Provisions To consider any items the Chairman of the meeting considers to be urgent. Audit Planning Reports for 2017/18 for both Adur District Council and Worthing Borough Council To consider a report by the External Auditor, copy attached as item 6. Annual Audit Letter for 2016/17 To consider a report by the External Auditor, copy attached as item 7. Joint Treasury Management Strategy Statement and Annual Investment Strategy 2018/19 to 2020/21, Adur District Council and Worthing Borough Council To consider a report by the Director for Digital & Resources, copy attached as item 8.

To consider a report by the Director for Digital & Resources, copy attached as item 9.

Part B - Not for Publication - Exempt Reports

None.

Recording of this meeting

The Council will be voice recording the meeting, including public question time. The recording will be available on the Council's website as soon as practicable after the meeting. The Council will not record any discussions in Part B of the agenda where the press and public have been excluded.

Private and Confidential 16 January 2018

Adur District Council Worthing Town Hall Chapel Road Worthing West Sussex BN11 1HA

Dear Joint Governance Committee members

Audit planning report

We are pleased to attach our audit planning report for the forthcoming meeting of the Joint Governance Committee. The purpose of this report is to provide the Joint Governance Committee with a basis to review our proposed audit approach and scope for the 2018 audit, in accordance with the requirements of the auditing standards and other professional requirements, but also to ensure that our audit is aligned with the Committee's service expectations.

This report summarises our assessment of the key issues which drive the development of an effective audit for Adur District Council. We have aligned our audit approach and scope with these.

This report is intended solely for the information and use of the Joint Governance Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

We welcome the opportunity to discuss this report with you as well as understand whether there are other matters which you consider may influence our audit.

Yours faithfully

Paul King

For and on behalf of Ernst & Young LLP

Enc

Contents

In April 2015 Public Sector Audit Appointments Ltd (PSAA) issued the 'Statement of responsibilities of auditors and audited bodies'. It is available from the via the PSAA website (www.PSAA.co.uk). The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas.

The "Terms of Appointment (updated February 2017)" issued by the PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and in legislation, and covers matters of practice and procedure which are of a recurring nature.

This report is made solely to the Joint Governance Committee and management of Adur District Council in accordance with the statement of responsibilities. Our work has been undertaken so that we might state to the Joint Governance Committee, and management of Adur District Council those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Joint Governance Committee and management of Adur District Council for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

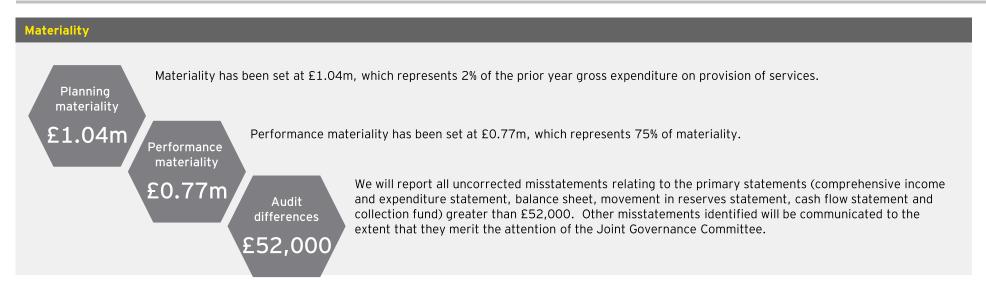

Overview of our 2017/18 audit strategy

The following 'dashboard' summarises the significant accounting and auditing matters outlined in this report. It seeks to provide the Joint Governance Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified in the current year.

Audit risks and areas of focus			
Risk / area of focus	Risk identified	Change from PY	Details
Misstatements due to fraud or error (management override)	Fraud risk	No change in risk or focus	As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.
Valuation of Land and Buildings	Other risk	No change in risk or focus	The fair value of Property, Plant and Equipment (PPE) represents significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.
Pension Liability Valuation	Other risk	No change in risk or focus	The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme administered by West Sussex County Council. The Council's pension fund liability is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the County Council. Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

🔀 Overview of our 2017/18 audit strategy (continued)

Overview of our 2017/18 audit strategy

Audit scope

This Audit Plan covers the work that we plan to perform to provide you with:

- Our audit opinion on whether the financial statements of Adur District Council give a true and fair view of the financial position as at 31 March 2018 and of the income and expenditure for the year then ended; and
- Our conclusion on the Council's arrangements to secure economy, efficiency and effectiveness.

We will also review and report to the National Audit Office (NAO), to the extent and in the form required by them, on the Council's Whole of Government Accounts return.

Our audit will also include the mandatory procedures that we are required to perform in accordance with applicable laws and auditing standards.

When planning the audit we take into account several key inputs:

- Strategic, operational and financial risks relevant to the financial statements;
- Developments in financial reporting and auditing standards;
- The quality of systems and processes;
- Changes in the business and regulatory environment; and,
- Management's views on all of the above.

By considering these inputs, our audit is focused on the areas that matter and our feedback is more likely to be relevant to the Council.

|å Audit risks

Our response to significant risks

We have set out the significant risks (including fraud risks denoted by*) identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

Misstatements due to fraud or error

Financial statement impact

We have assessed that the risk of management override is most likely to affect the estimates in the financial statements, such as your accounting policies and minimum revenue provision. These impact both on the Balance Sheet and Income Statement

What is the risk?

The financial statements as a whole are not free of material misstatements whether caused by fraud or error.

As identified in ISA (UK and Ireland) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. We identify and respond to this fraud risk on every audit engagement.

What will we do?

- Identifying fraud risks during the planning stages.
- Inquiry of management about risks of fraud and the controls put in place to address those risks.
- Understanding the oversight given by those charged with governance of management's processes over fraud.
- Consideration of the effectiveness of management's controls designed to address the risk of fraud.
- Determining an appropriate strategy to address those identified risks of fraud.
- Performing mandatory procedures regardless of specifically identified fraud risks, including testing of journal entries and other adjustments in the preparation of the financial statements.
- Reviewing accounting estimates for evidence of management bias.
- Evaluating the business rationale for significant unusual transactions.

Audit risks

Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

What is the risk/area of focus?

Valuation of Land and Buildings

The fair value of Property, Plant and Equipment (PPE) represents significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.

What will we do?

We will:

- Consider the work performed by the Council's valuers (Wilks, Head & Eve), including the adequacy of the scope of the work performed, their professional capabilities and the results of their work;
- Sample testing key asset information used by the valuers in performing their valuation (e.g. floor plans to support valuations based on price per square metre);
- Consider the annual cycle of valuations to ensure that assets have been valued within a 5 year rolling programme as required by the Code for PPE and annually for IP. We have also considered if there are any specific changes to assets that have occurred and that these have been communicated to the valuer;
- Review assets not subject to valuation in 2017/18 to confirm that the remaining asset base is not materially misstated;
- Consider changes to useful economic lives as a result of the most recent valuation; and
- Test accounting entries have been correctly processed in the financial statements,

Other areas of audit focus (continued)

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

What is the risk/area of focus?

Pension Asset Valuation

The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme administered by West Sussex County Council. The Council's pension fund liability is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. At 31 March 2017 this totalled £35 million.

The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the County Council.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

What will we do?

We will:

- Liaise with the auditors of West Sussex Pension Fund to obtain assurances over the information supplied to the actuary in relation to Adur District Council;
- Assess the work of the Pension Fund actuary (Hymans Robertson) including the assumptions they have used by relying on the work of PwC Consulting Actuaries commissioned by Public Sector Auditor Appointments for all Local Government sector auditors, and considering any relevant reviews by the EY actuarial team; and
- Review and test the accounting entries and disclosures made within the Council's financial statements in relation to IAS19.

Value for Money

Background

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

For 2017/18 this is based on the overall evaluation criterion:

"In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people"

Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- Take informed decisions:
- Deploy resources in a sustainable manner; and
- Work with partners and other third parties.

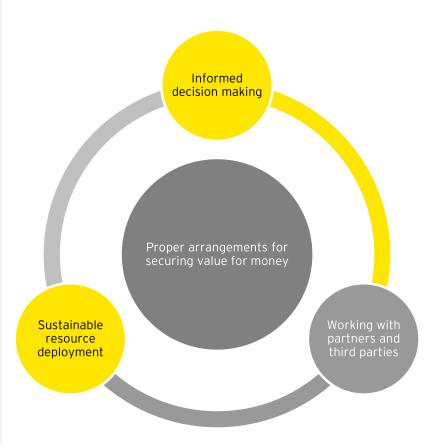

In considering your proper arrangements, we will draw on the requirements of the CIPFA/SOLACE framework for local government to ensure that our assessment is made against a framework that you are already required to have in place and to report on through documents such as your annual governance statement.

We are only required to determine whether there are any risks that we consider significant, which the Code of Audit Practice defines as:

"A matter is significant if, in the auditor's professional view, it is reasonable to conclude that the matter would be of interest to the audited body or the wider public"

Our risk assessment supports the planning of sufficient work to enable us to deliver a safe conclusion on arrangements to secure value for money and enables us to determine the nature and extent of further work that may be required. If we do not identify any significant risks there is no requirement to carry out further work.

Our risk assessment has therefore considered both the potential financial impact of the issues we have identified, and also the likelihood that the issue will be of interest to local taxpayers, the Government and other stakeholders. This has resulted in the identification the significant risk noted on the following page which we view as relevant to our value for money conclusion.

Value for Money

Value for Money Risks

What is the significant value for money risk?	What arrangements does the risk affect?	What will we do?
The Council will not be able to plan its finances effectively to support the sustainable delivery of strategic priorities and maintain statutory functions. The Council continues to face significant financial challenges over the coming years. We concluded last year that the Council's Medium Term Financial Plan was sound and we noted that plans were in place to deliver the 2017/18 budget, and your financial monitoring is suggesting a forecast marginal underspend of £176,000 compared to the budget. We also note that according to the MTFS the Council needs to deliver savings of £4.024 million over the next four years. These savings have not yet been identified. At 31 March 2017, the Council had £1.323 million of usable revenue reserves. This included your General Fund reserve which at the end of the 2016/17 financial year, was just below the minimum level set by the Section 151 Officer. These reserves would not be sufficient to cover any shortfall in savings were they not to be achieved.	Deploy resources in a sustainable manner	Our approach will focus on: ➤ use of PSAA's value for money profile tool to assess Council spending against similar councils; ➤ review and assess the updated assumptions within the Council's 2018/19 budget and medium term financial plan; and, ➤ Review of the outturn position against budget for 2017/18 and the Council's financial position at 31 March 2018. ➤ Monitoring of savings needed in service budgets.

₩ Audit materiality

Materiality

Materiality

For planning purposes, materiality for 2017/18 has been set at £1.04m. This represents 2% of the Council's prior year gross expenditure on provision of services. It will be reassessed throughout the audit process. We have provided supplemental information about audit materiality in Appendix D.

We request that the Joint Governance Committee confirm its understanding of, and agreement to, these materiality and reporting levels.

Key definitions

Planning materiality - the amount over which we anticipate misstatements would influence the economic decisions of a user of the financial statements.

Performance materiality – the amount we use to determine the extent of our audit procedures. We have set performance materiality at $\mathfrak{L}0.77m$ which represents 75% of planning materiality. The rationale for using 75% is based on the anticipation of identifying few or no errors during the audit. This expectation has been built on our experience of the Council in prior years.

Audit difference threshold - we propose that misstatements identified below this threshold are deemed clearly trivial. We will report to you all uncorrected misstatements over this amount relating to the comprehensive income and expenditure statement, balance sheet and collection fund that have an effect on income or that relate to other comprehensive income.

Other uncorrected misstatements, such as reclassifications and misstatements in the cashflow statement and movement in reserves statement or disclosures, and corrected misstatements will be communicated to the extent that they merit the attention of the Joint Governance Committee, or are important from a qualitative perspective.

Specific materiality - We have set a materiality of nil for remuneration disclosures, related party transactions, members' allowances and exit packages which reflects our understanding that an amount less than our materiality would influence the economic decisions of users of the financial statements in relation to this.

Our Audit Process and Strategy

Objective and Scope of our Audit scoping

Under the Code of Audit Practice our principal objectives are to review and report on the Council's financial statements and arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK and Ireland).

We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

Procedures required by standards

- · Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- · Auditor independence.

Procedures required by the Code

- Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance; and
- Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO.

2. Arrangements for securing economy, efficiency and effectiveness (value for money)

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.

Our Audit Process and Strategy (continued)

Audit Process Overview

Our audit involves:

- ▶ Identifying and understanding the key processes and internal controls; and
- Substantive tests of detail of transactions and amounts.

For 2017/18 we plan to follow a fully substantive approach to the audit as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated in view of the implementation of the new financial management system.

Analytics:

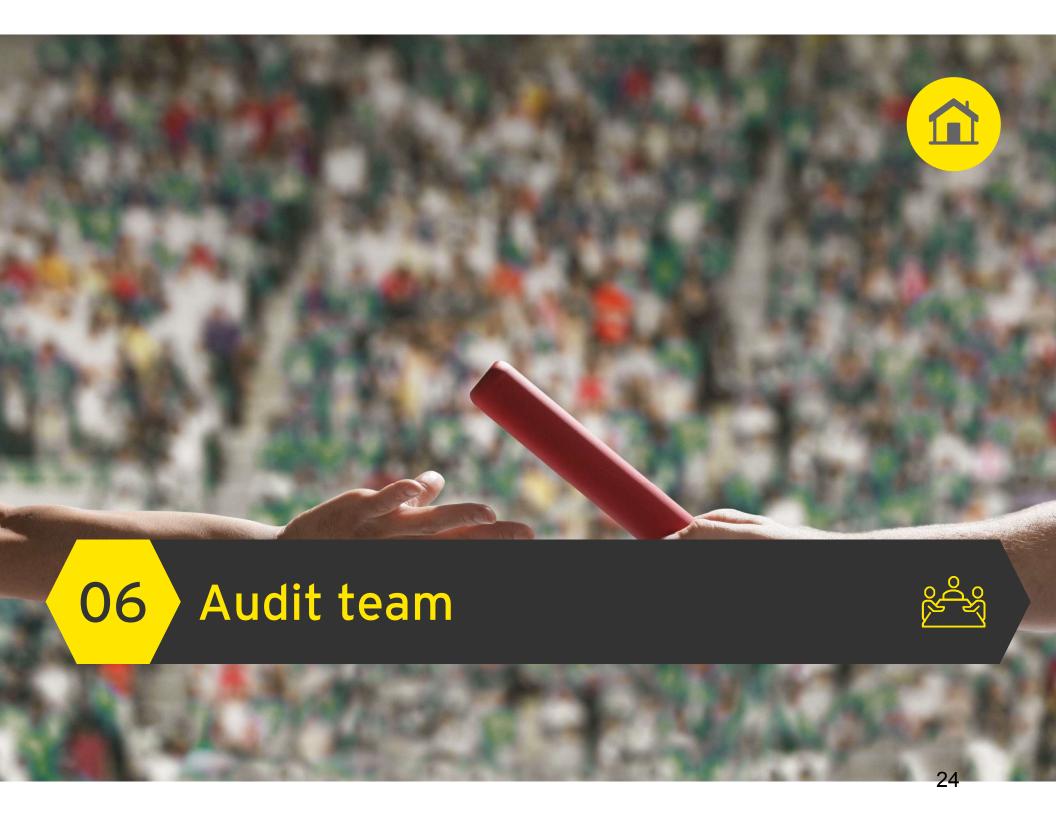

We will use our computer-based analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- ▶ Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Joint Governance Committee.

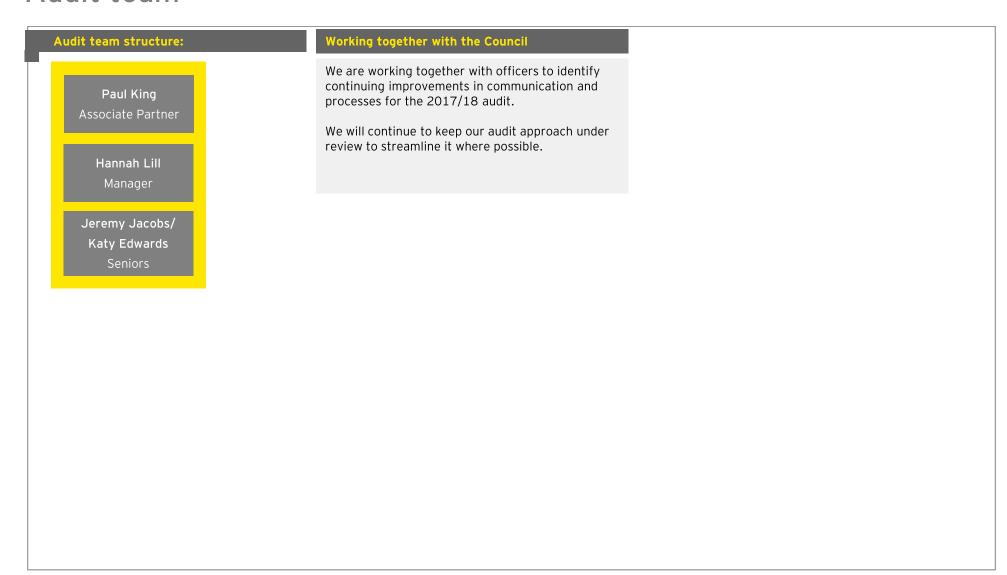

Internal audit:

We will regularly meet with the Head of Internal Audit, and review internal audit plans and the results of their work. We will reflect the findings from these reports, together with reports from any other work completed in the year, in our detailed audit plan, where they raise issues that could have an impact on the financial statements.

Audit team

Use of specialists

When auditing key judgements, we are often required to rely on the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where either EY or third party specialists provide input for the current year audit are:

Area	Specialists
Valuation of Land and Buildings	Wilkes, Head and Eve - RICS Registered Valuers
Pensions disclosure	EY pensions specialists Hymans Robertson - Actuary

In accordance with Auditing Standards, we will evaluate each specialist's professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Council's business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- Assess the reasonableness of the assumptions and methods used;
- Consider the appropriateness of the timing of when the specialist carried out the work; and
- Assess whether the substance of the specialist's findings are properly reflected in the financial statements.

Audit timeline

Timetable of communication and deliverables

Timeline

Below is a timetable showing the key stages of the audit and the deliverables we have agreed to provide to you through the audit cycle in 2017/18.

From time to time matters may arise that require immediate communication with the Joint Governance Committee and we will discuss them with the Joint Governance Committee Chair as appropriate. We will also provide updates on corporate governance and regulatory matters as necessary.

Audit phase	Timetable	Joint Governance Committee timetable	Deliverables
Planning:	October		
Risk assessment and setting of scopes.			
	November

	March		
	April	Joint Governance Committee	Interim audit update
	May		
Year end audit Audit Completion procedures	June		
	July	Joint Governance Committee	Audit Results Report Audit opinions and completion certificates
	August		Annual Audit Letter

Introduction

The FRC Ethical Standard and ISA (UK) 260 "Communication of audit matters with those charged with governance", requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our integrity, objectivity and independence. The Ethical Standard, as revised in June 2016, requires that we communicate formally both at the planning stage and at the conclusion of the audit, as well as during the course of the audit if appropriate. The aim of these communications is to ensure full and fair disclosure by us to those charged with your governance on matters in which you have an interest.

Required communications

Planning stage

- ► The principal threats, if any, to objectivity and independence identified by Ernst & Young (EY) including consideration of all relationships between the you, your affiliates and directors and us;
- The safeguards adopted and the reasons why they are considered to be effective, including any Engagement Quality review;
- ▶ The overall assessment of threats and safeguards;
- ► Information about the general policies and process within EY to maintain objectivity and independence.
- Where EY has determined it is appropriate to apply more restrictive independence rules than permitted under the Ethical Standard [note: additional wording should be included in the communication reflecting the client specific situation]

Final stage

- ▶ In order for you to assess the integrity, objectivity and independence of the firm and each covered person, we are required to provide a written disclosure of relationships (including the provision of non-audit services) that may bear on our integrity, objectivity and independence. This is required to have regard to relationships with the entity, its directors and senior management, its affiliates, and its connected parties and the threats to integrity or objectivity, including those that could compromise independence that these create. We are also required to disclose any safeguards that we have put in place and why they address such threats, together with any other information necessary to enable our objectivity and independence to be assessed;
- ▶ Details of non-audit services provided and the fees charged in relation thereto;
- Written confirmation that the firm and each covered person is independent and, if applicable, that any non-EY firms used in the group audit or external experts used have confirmed their independence to us;
- Written confirmation that all covered persons are independent;
- ▶ Details of any inconsistencies between FRC Ethical Standard and your policy for the supply of non-audit services by EY and any apparent breach of that policy;
- ▶ Details of any contingent fee arrangements for non-audit services provided by us or our network firms; and
- ► An opportunity to discuss auditor independence issues.

In addition, during the course of the audit, we are required to communicate with you whenever any significant judgements are made about threats to objectivity and independence and the appropriateness of safeguards put in place, for example, when accepting an engagement to provide non-audit services.

We also provide information on any contingent fee arrangements, the amounts of any future services that have been contracted, and details of any written proposal to provide non-audit services that has been submitted;

We ensure that the total amount of fees that EY and our network firms have charged to you and your affiliates for the provision of services during the reporting period, analysed in appropriate categories, are disclosed.

Relationships, services and related threats and safeguards

We highlight the following significant facts and matters that may be reasonably considered to bear upon our objectivity and independence, including the principal threats, if any. We have adopted the safeguards noted below to mitigate these threats along with the reasons why they are considered to be effective. However we will only perform non -audit services if the service has been pre-approved in accordance with your policy.

Overall Assessment

Overall, we consider that the safeguards that have been adopted appropriately mitigate the principal threats identified and we therefore confirm that EY is independent and the objectivity and independence of Paul King, your audit engagement partner and the audit engagement team have not been compromised.

Self interest threats

A self interest threat arises when EY has financial or other interests in the Council. Examples include where we receive significant fees in respect of non-audit services; where we need to recover long outstanding fees; or where we enter into a business relationship with you. At the time of writing, there are no long outstanding fees.

We believe that it is appropriate for us to undertake permissible non-audit services and we will comply with the policies that you have approved.

None of the services are prohibited under the FRC's ES or the National Audit Office's Auditor Guidance Note 01 and the services have been approved in accordance with your policy on pre-approval. The ratio of non audit fees to audits fees is not permitted to exceed 70%.

At the time of writing, no non-audit services have been undertaken, therefore the current ratio of non-audit fees to audit fees is zero. No additional safeguards are required.

A self interest threat may also arise if members of our audit engagement team have objectives or are rewarded in relation to sales of non-audit services to you. We confirm that no member of our audit engagement team, including those from other service lines, has objectives or is rewarded in relation to sales to you, in compliance with Ethical Standard part 4.

There are no other self interest threats at the date of this report.

Self review threats

Self review threats arise when the results of a non-audit service performed by EY or others within the EY network are reflected in the amounts included or disclosed in the financial statements.

There are no self review threats at the date of this report.

Management threats

Partners and employees of EY are prohibited from taking decisions on behalf of management of the Council. Management threats may also arise during the provision of a non-audit service in relation to which management is required to make judgements or decision based on that work.

There are no management threats at the date of this report.

Independence

Relationships, services and related threats and safeguards

Other threats

Other threats, such as advocacy, familiarity or intimidation, may arise.

There are no other threats at the date of this report.

Other communications

EY Transparency Report 2017

Ernst & Young (EY) has policies and procedures that instil professional values as part of firm culture and ensure that the highest standards of objectivity, independence and integrity are maintained.

Details of the key policies and processes in place within EY for maintaining objectivity and independence can be found in our annual Transparency Report which the firm is required to publish by law. The most recent version of this Report is for the year ended 1 July 2017 and can be found here:

http://www.ey.com/uk/en/about-us/ey-uk-transparency-report-20167

Appendix A

Fees

The duty to prescribe fees is a statutory function delegated to Public Sector Audit Appointments Ltd (PSAA) by the Secretary of State for Communities and Local Government.

PSAA has published a scale fee for all relevant bodies. This is defined as the fee required by auditors to meet statutory responsibilities under the Local Audit and Accountability Act 2014 in accordance with the NAO Code.

	Planned fee 2017/18	Scale fee 2016/17	Final Fee 2016/17
	£	£	£
Total Fee - Code work	48,122	48,122	48,122
Other non-audit services not covered above (Housing Benefits)	27,019	12,230	12,230
Total fees	75,141	60,352	60,352

All fees exclude VAT

The audit fee covers the:

- Audit of the financial statements
- Value for money conclusion
- Whole of Government accounts.

For Adur District Council our indicative fee is set at the scale fee level. This indicative fee is based on certain assumptions, including:

- The overall level of risk in relation to the audit of the financial statements is not significantly different from that of the prior year
- Officers meeting the agreed timetable of deliverables;
- The operating effectiveness of the internal controls for the key processes identified within our audit strategy;
- Our accounts opinion and value for money conclusion being unqualified;
- Appropriate quality of documentation is provided by the council;
- There is an effective control environment; and
- Prompt responses are provided to our draft reports.

If any of the above assumptions prove to be unfounded, we will seek a variation to the agreed fee. This will be discussed with the Council in advance.

Fees for the auditor's consideration of correspondence from the public and formal objections will be charged in addition to the scale fee.

Appendix B

Regulatory update

In previous reports to the Joint Governance Committee, we highlighted the issue of regulatory developments. The following table summarises progress on implementation:

Earlier deadline for production and	d audit of the financial statements from 2017/18
Proposed effective date	Effective for annual periods beginning on or after 1 April 2017.
Details	The Accounts and Audit Regulations 2015 introduced a significant change in statutory deadlines from the 2017/18 financial year. From that year the timetable for the preparation and approval of accounts will be brought forward with draft accounts needing to be prepared by 31 May and the publication of the audited accounts by 31 July.
Impact on Adur District Council	These changes provide challenges for both the preparers and the auditors of the financial statements.
	We are holding faster close workshops for clients in November and December 2017 and January 2018 to facilitate early discussion and sharing of ideas and good practice.
	We are working with the Council on ideas coming from the workshop, for example:
	Streamlining the Statement of Accounts removing all non-material disclosure notes;
	 Bringing forward the commissioning and production of key externally provided information such as IAS 19 pension information, asset valuations;
	 Providing training to departmental finance staff regarding the requirements and implications of earlier closedown; Re-ordering tasks from year-end to monthly/quarterly timing, reducing year-end pressure; Establishing and agreeing working materiality amounts with the auditors.

Appendix C

Required communications with the Joint Governance Committee

We have detailed the communications that we must provide to the Joint Governance Committee. Our Reporting to you When and where Required communications What is reported? Terms of engagement Confirmation by the Joint Governance Committee of acceptance of terms of engagement as The statement of responsibilities serves as the written in the engagement letter signed by both parties. formal terms of engagement between the PSAA's appointed auditors and audited bodies. Our responsibilities Reminder of our responsibilities as set out in the engagement letter The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies. Planning and audit Communication of the planned scope and timing of the audit, any limitations and the Audit planning report approach significant risks identified. When communicating key audit matters this includes the most significant risks of material misstatement (whether or not due to fraud) including those that have the greatest effect on the overall audit strategy, the allocation of resources in the audit and directing the efforts of the engagement team Significant findings from Our view about the significant qualitative aspects of accounting practices including Audit results report accounting policies, accounting estimates and financial statement disclosures the audit Significant difficulties, if any, encountered during the audit Significant matters, if any, arising from the audit that were discussed with management Written representations that we are seeking Expected modifications to the audit report Other matters if any, significant to the oversight of the financial reporting process

Required communications with the Joint Governance Committee (continued)

		Uur Reporting to you
Required communications	What is reported?	When and where
Going concern	Events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including: ► Whether the events or conditions constitute a material uncertainty ► Whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements ► The adequacy of related disclosures in the financial statements	Audit results report
Misstatements	 Uncorrected misstatements and their effect on our audit opinion, unless prohibited by law or regulation The effect of uncorrected misstatements related to prior periods A request that any uncorrected misstatement be corrected Corrected misstatements that are significant Material misstatements corrected by management 	Audit results report
Fraud	 Enquiries of the Joint Governance Committee to determine whether they have knowledge of any actual, suspected or alleged fraud affecting the entity Any fraud that we have identified or information we have obtained that indicates that a fraud may exist A discussion of any other matters related to fraud 	Audit results report
Related parties	 Significant matters arising during the audit in connection with the entity's related parties including, when applicable: Non-disclosure by management Inappropriate authorisation and approval of transactions Disagreement over disclosures Non-compliance with laws and regulations Difficulty in identifying the party that ultimately controls the entity 	Audit results report

Appendix C

Required communications with the Joint Governance Committee

(continued)		Our Reporting to you
Required communications	What is reported?	When and where
Independence	Communication of all significant facts and matters that bear on EY's, and all individuals involved in the audit, objectivity and independence Communication of key elements of the audit engagement partner's consideration of independence and objectivity such as: The principal threats Safeguards adopted and their effectiveness An overall assessment of threats and safeguards Information about the general policies and process within the firm to maintain objectivity and independence	Audit Planning Report and Audit Results Report
External confirmations	 Management's refusal for us to request confirmations Inability to obtain relevant and reliable audit evidence from other procedures 	Audit results report
Consideration of laws and regulations	 Audit findings regarding non-compliance where the non-compliance is material and believed to be intentional. This communication is subject to compliance with legislation on tipping off Enquiry of the Joint Governance Committee into possible instances of non-compliance with laws and regulations that may have a material effect on the financial statements and that the Joint Governance Committee may be aware of 	Audit results report
Internal controls	► Significant deficiencies in internal controls identified during the audit	Audit results report
Representations	Written representations we are requesting from management and/or those charged with governance	Audit results report
Material inconsistencies and misstatements	Material inconsistencies or misstatements of fact identified in other information which management has refused to revise	Audit results report
Auditors report	 Key audit matters that we will include in our auditor's report Any circumstances identified that affect the form and content of our auditor's report 	Audit results report
Fee Reporting	 Breakdown of fee information when the audit plan is agreed Breakdown of fee information at the completion of the audit Any non-audit work 	Audit planning report and Audit results report
Certification work	Summary of certification work undertaken	Certification report

Appendix D

Additional audit information

Other required procedures during the course of the audit

In addition to the key areas of audit focus outlined in section 2, we have to perform other procedures as required by auditing, ethical and independence standards and other regulations. We outline the procedures below that we will undertake during the course of our audit.

Our responsibilities required by auditing standards

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control.
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Concluding on the appropriateness of management's use of the going concern basis of accounting.
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtaining sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Council to express an opinion on the consolidated financial statements. Reading other information contained in the financial statements, including the board's statement that the annual report is fair, balanced and understandable, the Joint Governance Committee reporting appropriately addresses matters communicated by us to the Joint Governance Committee and reporting whether it is materially inconsistent with our understanding and the financial statements; and
- Maintaining auditor independence.

Purpose and evaluation of materiality

For the purposes of determining whether the accounts are free from material error, we define materiality as the magnitude of an omission or misstatement that, individually or in the aggregate, in light of the surrounding circumstances, could reasonably be expected to influence the economic decisions of the users of the financial statements. Our evaluation of it requires professional judgement and necessarily takes into account qualitative as well as quantitative considerations implicit in the definition. We would be happy to discuss with you your expectations regarding our detection of misstatements in the financial statements.

Materiality determines:

▶ The level of work performed on individual account balances and financial statement disclosures.

The amount we consider material at the end of the audit may differ from our initial determination. At this stage, however, it is not feasible to anticipate all of the circumstances that may ultimately influence our judgement about materiality. At the end of the audit we will form our final opinion by reference to all matters that could be significant to users of the accounts, including the total effect of the audit misstatements we identify, and our evaluation of materiality at that date.

Private and Confidential Worthing Town Hall Chapel Road Worthing West Sussex BN11 1HA

Dear Joint Governance Committee members

Audit planning report

We are pleased to attach our audit planning report for the forthcoming meeting of the Joint Governance Committee. The purpose of this report is to provide the Joint Governance Committee with a basis to review our proposed audit approach and scope for the 2018 audit, in accordance with the requirements of the auditing standards and other professional requirements, but also to ensure that our audit is aligned with the Committee's service expectations.

This report summarises our assessment of the key issues which drive the development of an effective audit for Worthing Borough Council. We have aligned our audit approach and scope with these.

This report is intended solely for the information and use of the Joint Governance Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

We welcome the opportunity to discuss this report with you on 30 January 2018 as well as understand whether there are other matters which you consider may influence our audit.

Yours faithfully

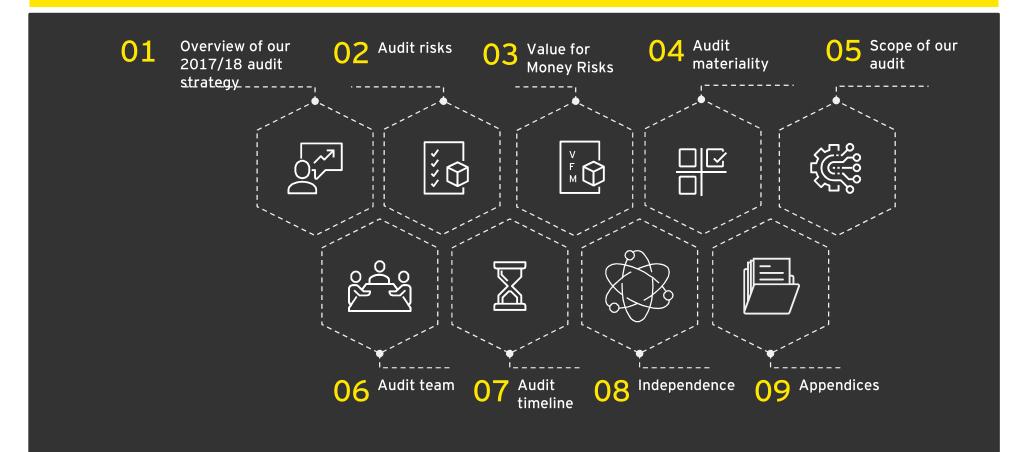

Paul King

For and on behalf of Ernst & Young LLP

Contents

In April 2015 Public Sector Audit Appointments Ltd (PSAA) issued the 'Statement of responsibilities of auditors and audited bodies'. It is available from the via the PSAA website (www.PSAA.co.uk). The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas.

The "Terms of Appointment (updated February 2017)" issued by the PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and in legislation, and covers matters of practice and procedure which are of a recurring nature.

This report is made solely to the Joint Governance Committee and management of Worthing Borough Council in accordance with the statement of responsibilities. Our work has been undertaken so that we might state to the Joint Governance Committee, and management of Worthing Borough Council those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Joint Governance Committee and management of Worthing Borough Council for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

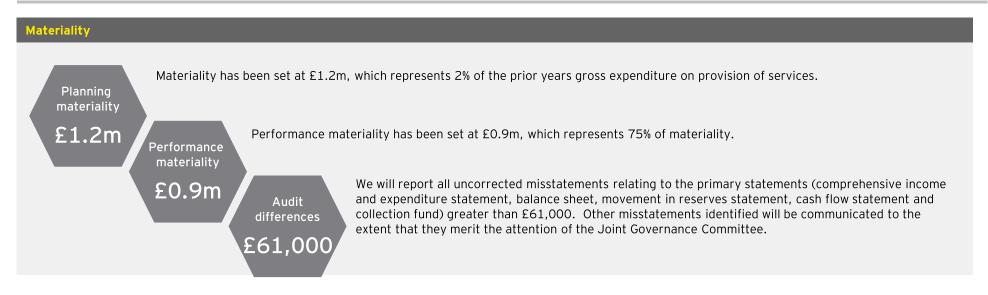

Overview of our 2017/18 audit strategy

The following 'dashboard' summarises the significant accounting and auditing matters outlined in this report. It seeks to provide the Joint Governance Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified in the current year.

Audit risks and areas of focus			
Risk / area of focus	Risk identified	Change from PY	Details
Misstatements due to fraud or error (management override)	Fraud risk	No change in risk or focus	As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.
Valuation of Land and Buildings	Other risk	No change in risk or focus	The fair value of Property, Plant and Equipment (PPE) and Investment Properties (IP) represent significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.
Pension Liability Valuation	Other risk	No change in risk or focus	The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme administered by West Sussex County Council. The Council's pension fund liability is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. At 31 March 2017 this totalled £40 million. The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the County Council. Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

Overview of our 2017/18 audit strategy (continued)

Overview of our 2017/18 audit strategy

Audit scope

This Audit Plan covers the work that we plan to perform to provide you with:

- Our audit opinion on whether the financial statements of Worthing Borough Council give a true and fair view of the financial position as at 31 March 2018 and of the income and expenditure for the year then ended; and
- Our conclusion on the Council's arrangements to secure economy, efficiency and effectiveness.

We will also review and report to the National Audit Office (NAO), to the extent and in the form required by them, on the Council's Whole of Government Accounts return.

Our audit will also include the mandatory procedures that we are required to perform in accordance with applicable laws and auditing standards.

When planning the audit we take into account several key inputs:

- Strategic, operational and financial risks relevant to the financial statements;
- Developments in financial reporting and auditing standards;
- The quality of systems and processes;
- Changes in the business and regulatory environment; and,
- Management's views on all of the above.

By considering these inputs, our audit is focused on the areas that matter and our feedback is more likely to be relevant to the Council.

|å Audit risks

Our response to significant risks

We have set out the significant risks (including fraud risks denoted by*) identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

Misstatements due to fraud or error

Financial statement impact

We have assessed that the risk of management override is most likely to affect the estimates in the financial statements, such as your accounting policies and the minimum revenue provision. These impact both on the Balance Sheet and Income Statement

What is the risk?

The financial statements as a whole are not free of material misstatements whether caused by fraud or error.

As identified in ISA (UK and Ireland) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. We identify and respond to this fraud risk on every audit engagement.

What will we do?

- Identifying fraud risks during the planning stages.
- Inquiry of management about risks of fraud and the controls put in place to address those risks.
- Understanding the oversight given by those charged with governance of management's processes over fraud.
- Consideration of the effectiveness of management's controls designed to address the risk of fraud.
- Determining an appropriate strategy to address those identified risks of fraud.
- Performing mandatory procedures regardless of specifically identified fraud risks, including testing of journal entries and other adjustments in the preparation of the financial statements.
- Reviewing accounting estimates for evidence of management bias.
- Evaluating the business rationale for significant unusual transactions.

Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

What is the risk/area of focus?

Valuation of Land and Buildings

The fair value of Property, Plant and Equipment (PPE) and Investment Properties (IP) represent significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the yearend balances recorded in the balance sheet.

What will we do?

We will:

- Consider the work performed by the Council's valuers (Wilks, Head & Eve), including the adequacy of the scope
 of the work performed, their professional capabilities and the results of their work;
- Sample testing key asset information used by the valuers in performing their valuation (e.g. floor plans to support valuations based on price per square metre);
- Consider the annual cycle of valuations to ensure that assets have been valued within a 5 year rolling programme as required by the Code for PPE and annually for IP. We have also considered if there are any specific changes to assets that have occurred and that these have been communicated to the valuer;
- Review assets not subject to valuation in 2017/18 to confirm that the remaining asset base is not materially misstated;
- Consider changes to useful economic lives as a result of the most recent valuation; and
- Test accounting entries have been correctly processed in the financial statements,

Other areas of audit focus (continued)

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

What is the risk/area of focus?

Pension Asset Valuation

The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme administered by West Sussex County Council. The Council's pension fund liability is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. At 31 March 2017 this totalled £40 million.

The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the County Council.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

What will we do?

We will:

- Liaise with the auditors of West Sussex County Council Pension Fund, to obtain assurances over the information supplied to the actuary in relation to Worthing Borough Council;
- Assess the work of the Pension Fund actuary (Hymans Robertson) including the assumptions they have used by relying on the work of PWC Consulting Actuaries commissioned by Public Sector Auditor Appointments for all Local Government sector auditors, and considering any relevant reviews by the EY actuarial team; and
- Review and test the accounting entries and disclosures made within the Council's financial statements in relation to IAS19.

Value for Money

Background

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

For 2017/18 this is based on the overall evaluation criterion:

"In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people"

Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- Take informed decisions;
- Deploy resources in a sustainable manner; and
- Work with partners and other third parties.

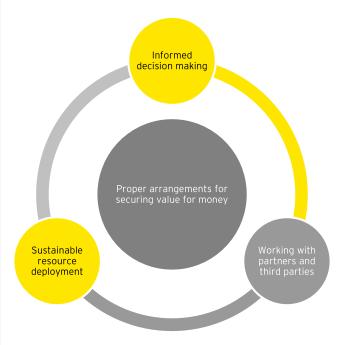

In considering your proper arrangements, we will draw on the requirements of the CIPFA/SOLACE framework for local government to ensure that our assessment is made against a framework that you are already required to have in place and to report on through documents such as your annual governance statement.

We are only required to determine whether there are any risks that we consider significant, which the Code of Audit Practice defines as:

"A matter is significant if, in the auditor's professional view, it is reasonable to conclude that the matter would be of interest to the audited body or the wider public"

Our risk assessment supports the planning of sufficient work to enable us to deliver a safe conclusion on arrangements to secure value for money and enables us to determine the nature and extent of further work that may be required. If we do not identify any significant risks there is no requirement to carry out further work.

Our risk assessment has therefore considered both the potential financial impact of the issues we have identified, and also the likelihood that the issue will be of interest to local taxpayers, the Government and other stakeholders. This has resulted in the identification the significant risks noted on the following page which we view as relevant to our value for money conclusion.

Value for Money

Value for Money Risks

What is the significant value for money risk?	What arrangements does the risk affect?	What will we do?
The Council will not be able to plan its finances effectively to support the sustainable delivery of strategic priorities and maintain statutory functions. The Council continues to face significant financial challenges over the coming years. We concluded last year that the Council's Medium Term Financial Plan was sound and we noted that plans were in place to deliver the 2017/18 budget, and your financial monitoring is suggesting a forecast marginal underspend of £117 thousand compared to the budget. We note that according to the MTFS the Council needs to deliver savings of £3.3 million over the next four years. These savings have not yet been identified. At 31 March 2017, the Council had £3.032 million of usable revenue reserves. This included your General Fund reserve which at the end of the 2016/17 financial year, was just below the minimum level set by the Section 151 Officer. These reserves would not be sufficient to cover any shortfall in savings were they not to be achieved.	Deploy resources in a sustainable manner	Our approach will focus on: ➤ use of PSAA's value for money profile tool to assess Council spending against similar councils; ➤ review and assess the updated assumptions within the Council's 2018/19 budget and medium term financial plan; and, ➤ Review of the outturn position against budget for 2017/18 and the Council's financial position at 31 March 2018. ➤ Monitoring of savings needed in service budgets.

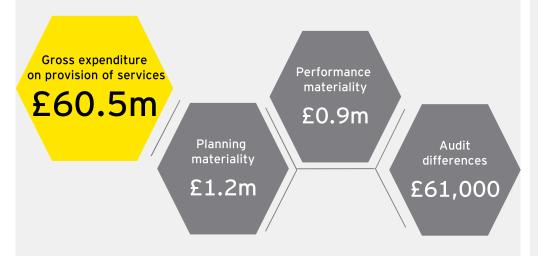

₩ Audit materiality

Materiality

Materiality

For planning purposes, materiality for 2017/18 has been set at £1.2m. This represents 2% of the Council's prior year gross expenditure on provision of services. It will be reassessed throughout the audit process. We have provided supplemental information about audit materiality in Appendix D.

We request that the Joint Governance Committee confirm its understanding of, and agreement to, these materiality and reporting levels.

Key definitions

Planning materiality - the amount over which we anticipate misstatements would influence the economic decisions of a user of the financial statements.

Performance materiality – the amount we use to determine the extent of our audit procedures. We have set performance materiality at £0.9m which represents 75% of planning materiality. The rationale for using 75% is based on the anticipation of identifying few or no errors during the audit. This expectation has been built on our experience of the Council in prior years.

Audit difference threshold - we propose that misstatements identified below this threshold are deemed clearly trivial. We will report to you all uncorrected misstatements over this amount relating to the comprehensive income and expenditure statement, balance sheet and collection fund that have an effect on income or that relate to other comprehensive income.

Other uncorrected misstatements, such as reclassifications and misstatements in the cashflow statement and movement in reserves statement or disclosures, and corrected misstatements will be communicated to the extent that they merit the attention of the Joint Governance Committee, or are important from a qualitative perspective.

Specific materiality - We have set a materiality of nil for remuneration disclosures, related party transactions, members' allowances and exit packages which reflects our understanding that an amount less than our materiality would influence the economic decisions of users of the financial statements in relation to this.

Our Audit Process and Strategy

Objective and Scope of our Audit scoping

Under the Code of Audit Practice our principal objectives are to review and report on the Council's financial statements and arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK and Ireland).

We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

Procedures required by standards

- Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- Auditor independence.

Procedures required by the Code

- Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance; and
- Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO.

2. Arrangements for securing economy, efficiency and effectiveness (value for money)

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.

Our Audit Process and Strategy (continued)

Audit Process Overview

Our audit involves:

- ► Identifying and understanding the key processes and internal controls; and
- Substantive tests of detail of transactions and amounts.

For 2017/18 we plan to follow a fully substantive approach to the audit as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated in view of the implementation of the new financial management system.

Analytics:

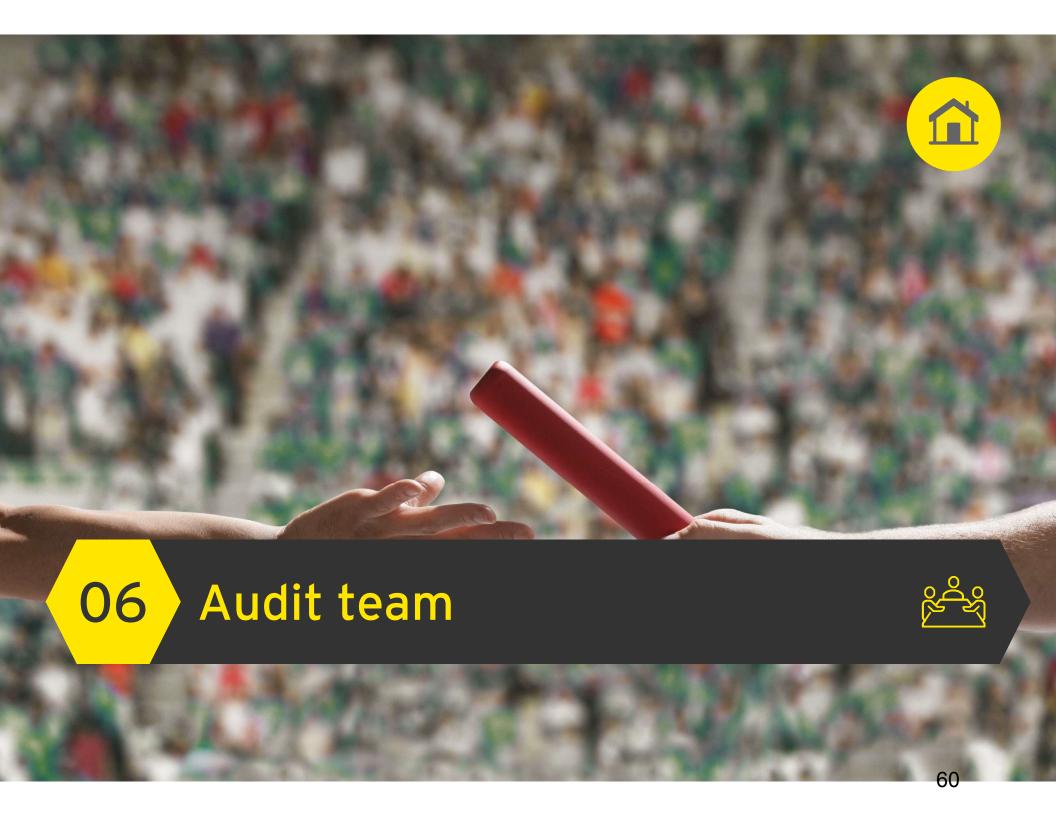

We will use our computer-based analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Joint Governance Committee.

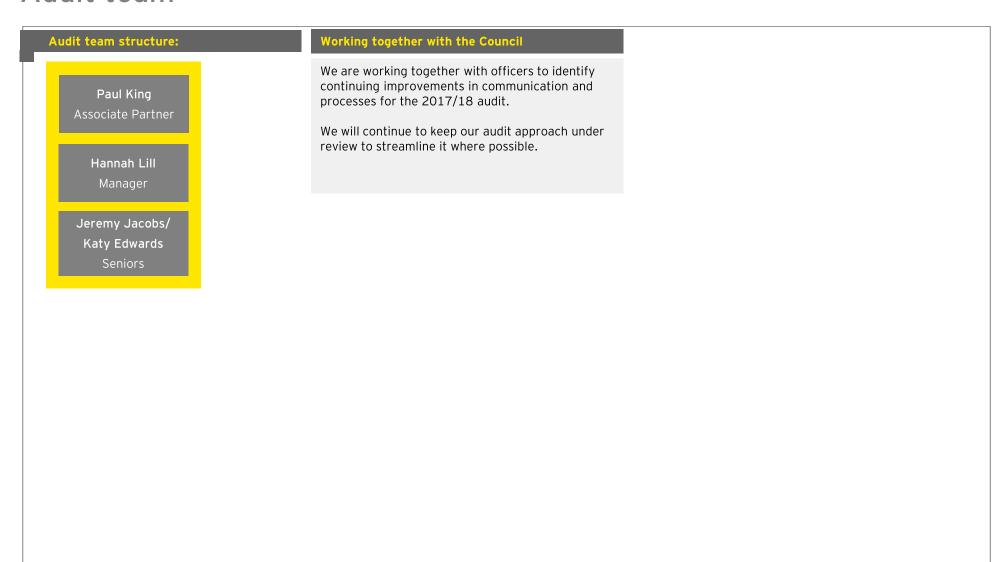

Internal audit:

We will regularly meet with the Head of Internal Audit, and review internal audit plans and the results of their work. We will reflect the findings from these reports, together with reports from any other work completed in the year, in our detailed audit plan, where they raise issues that could have an impact on the financial statements.

Audit team

Use of specialists

When auditing key judgements, we are often required to rely on the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where either EY or third party specialists provide input for the current year audit are:

Area	Specialists
Valuation of Land and Buildings	Wilks, Head and Eve - RICS Registered Valuers
Pensions disclosure	EY pensions specialists Hymans Robertson - Actuary

In accordance with Auditing Standards, we will evaluate each specialist's professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Council's business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- Assess the reasonableness of the assumptions and methods used;
- Consider the appropriateness of the timing of when the specialist carried out the work; and
- Assess whether the substance of the specialist's findings are properly reflected in the financial statements.

Audit timeline

Timetable of communication and deliverables

Timeline

Below is a timetable showing the key stages of the audit and the deliverables we have agreed to provide to you through the audit cycle in 2017/18.

From time to time matters may arise that require immediate communication with the Joint Governance Committee and we will discuss them with the Joint Governance Committee Chair as appropriate. We will also provide updates on corporate governance and regulatory matters as necessary.

Audit phase	Timetable	Joint Governance Committee timetable	Deliverables
Planning:	October		
Risk assessment and setting of scopes.			
	November		
	December	Joint Governance Committee	Audit Planning Report
Walkthrough of key systems and processes	January		
Interim audit testing	February		
	March		
	April	Joint Governance Committee	Interim audit update
	May		
Year end audit Audit Completion procedures	June		
	July	Joint Governance Committee	Audit Results Report Audit opinions and completion certificates
	August		Annual Audit Letter

Introduction

The FRC Ethical Standard and ISA (UK) 260 "Communication of audit matters with those charged with governance", requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our integrity, objectivity and independence. The Ethical Standard, as revised in June 2016, requires that we communicate formally both at the planning stage and at the conclusion of the audit, as well as during the course of the audit if appropriate. The aim of these communications is to ensure full and fair disclosure by us to those charged with your governance on matters in which you have an interest.

Required communications

Planning stage

- ► The principal threats, if any, to objectivity and independence identified by Ernst & Young (EY) including consideration of all relationships between the you, your affiliates and directors and us;
- The safeguards adopted and the reasons why they are considered to be effective, including any Engagement Quality review;
- ▶ The overall assessment of threats and safeguards;
- ► Information about the general policies and process within EY to maintain objectivity and independence.
- Where EY has determined it is appropriate to apply more restrictive independence rules than permitted under the Ethical Standard [note: additional wording should be included in the communication reflecting the client specific situation]

Final stage

- ▶ In order for you to assess the integrity, objectivity and independence of the firm and each covered person, we are required to provide a written disclosure of relationships (including the provision of non-audit services) that may bear on our integrity, objectivity and independence. This is required to have regard to relationships with the entity, its directors and senior management, its affiliates, and its connected parties and the threats to integrity or objectivity, including those that could compromise independence that these create. We are also required to disclose any safeguards that we have put in place and why they address such threats, together with any other information necessary to enable our objectivity and independence to be assessed;
- ▶ Details of non-audit services provided and the fees charged in relation thereto;
- Written confirmation that the firm and each covered person is independent and, if applicable, that any non-EY firms used in the group audit or external experts used have confirmed their independence to us;
- Written confirmation that all covered persons are independent;
- ▶ Details of any inconsistencies between FRC Ethical Standard and your policy for the supply of non-audit services by EY and any apparent breach of that policy;
- ▶ Details of any contingent fee arrangements for non-audit services provided by us or our network firms; and
- ► An opportunity to discuss auditor independence issues.

In addition, during the course of the audit, we are required to communicate with you whenever any significant judgements are made about threats to objectivity and independence and the appropriateness of safeguards put in place, for example, when accepting an engagement to provide non-audit services.

We also provide information on any contingent fee arrangements, the amounts of any future services that have been contracted, and details of any written proposal to provide non-audit services that has been submitted;

We ensure that the total amount of fees that EY and our network firms have charged to you and your affiliates for the provision of services during the reporting period, analysed in appropriate categories, are disclosed.

Relationships, services and related threats and safeguards

We highlight the following significant facts and matters that may be reasonably considered to bear upon our objectivity and independence, including the principal threats, if any. We have adopted the safeguards noted below to mitigate these threats along with the reasons why they are considered to be effective. However we will only perform non -audit services if the service has been pre-approved in accordance with your policy.

Overall Assessment

Overall, we consider that the safeguards that have been adopted appropriately mitigate the principal threats identified and we therefore confirm that EY is independent and the objectivity and independence of Paul King, your audit engagement partner and the audit engagement team have not been compromised.

Self interest threats

A self interest threat arises when EY has financial or other interests in the Council. Examples include where we receive significant fees in respect of non-audit services; where we need to recover long outstanding fees; or where we enter into a business relationship with you. At the time of writing, there are no long outstanding fees.

We believe that it is appropriate for us to undertake permissible non-audit services and we will comply with the policies that you have approved.

None of the services are prohibited under the FRC's ES or the National Audit Office's Auditor Guidance Note 01 and the services have been approved in accordance with your policy on pre-approval. The ratio of non audit fees to audits fees is not permitted to exceed 70%.

At the time of writing, no non-audit services have been undertaken, therefore the current ratio of non-audit fees to audit fees is zero. No additional safeguards are required.

A self interest threat may also arise if members of our audit engagement team have objectives or are rewarded in relation to sales of non-audit services to you. We confirm that no member of our audit engagement team, including those from other service lines, has objectives or is rewarded in relation to sales to you, in compliance with Ethical Standard part 4.

There are no other self interest threats at the date of this report.

Self review threats

Self review threats arise when the results of a non-audit service performed by EY or others within the EY network are reflected in the amounts included or disclosed in the financial statements.

There are no self review threats at the date of this report.

Management threats

Partners and employees of EY are prohibited from taking decisions on behalf of management of the Council. Management threats may also arise during the provision of a non-audit service in relation to which management is required to make judgements or decision based on that work.

There are no management threats at the date of this report.

Relationships, services and related threats and safeguards

Other threats

Other threats, such as advocacy, familiarity or intimidation, may arise.

There are no other threats at the date of this report.

Other communications

EY Transparency Report 2017

Ernst & Young (EY) has policies and procedures that instil professional values as part of firm culture and ensure that the highest standards of objectivity, independence and integrity are maintained.

Details of the key policies and processes in place within EY for maintaining objectivity and independence can be found in our annual Transparency Report which the firm is required to publish by law. The most recent version of this Report is for the year ended 1 July 2017 and can be found here:

http://www.ey.com/uk/en/about-us/ey-uk-transparency-report-20167

Appendix A

Fees

The duty to prescribe fees is a statutory function delegated to Public Sector Audit Appointments Ltd (PSAA) by the Secretary of State for Communities and Local Government.

PSAA has published a scale fee for all relevant bodies. This is defined as the fee required by auditors to meet statutory responsibilities under the Local Audit and Accountability Act 2014 in accordance with the NAO Code.

	Planned fee 2017/18	Scale fee 2016/17	Final Fee 2016/17
	£	£	£
Total Fee - Code work	47,157	47,157	47,157
Other non-audit services not covered above (Housing Benefits)	8,184	6,716	6,716
Total fees	55,341	53,873	53,873

All fees exclude VAT

The audit fee covers the:

- Audit of the financial statements
- Value for money conclusion
- Whole of Government accounts.

For Worthing Borough Council our indicative fee is set at the scale fee level. This indicative fee is based on certain assumptions, including:

- The overall level of risk in relation to the audit of the financial statements is not significantly different from that of the prior year
- Officers meeting the agreed timetable of deliverables;
- The operating effectiveness of the internal controls for the key processes identified within our audit strategy;
- We can rely on the work of internal audit as planned;
- Our accounts opinion and value for money conclusion being unqualified;
- Appropriate quality of documentation is provided by the council;
- There is an effective control environment; and
- Prompt responses are provided to our draft reports.

If any of the above assumptions prove to be unfounded, we will seek a variation to the agreed fee. This will be discussed with the Council in advance.

Fees for the auditor's consideration of correspondence from the public and formal objections will be charged in addition to the scale fee.

Appendix B

Regulatory update

In previous reports to the Joint Governance Committee, we highlighted the issue of regulatory developments. The following table summarises progress on implementation:

Earlier deadline for production an	d audit of the financial statements from 2017/18
Proposed effective date	Effective for annual periods beginning on or after 1 April 2017.
Details	The Accounts and Audit Regulations 2015 introduced a significant change in statutory deadlines from the 2017/18 financial year. From that year the timetable for the preparation and approval of accounts will be brought forward with draft accounts needing to be prepared by 31 May and the publication of the audited accounts by 31 July.
Impact on Worthing Borough Council	These changes provide challenges for both the preparers and the auditors of the financial statements. We are holding faster close workshops for clients in November and December 2017 and January 2018 to facilitate early discussion and sharing of ideas and good practice. We are working with the Council on ideas coming from the workshop, for example: Streamlining the Statement of Accounts removing all non-material disclosure notes; Bringing forward the commissioning and production of key externally provided information such as IAS 19 pension information, asset valuations; Providing training to departmental finance staff regarding the requirements and implications of earlier closedown; Re-ordering tasks from year-end to monthly/quarterly timing, reducing year-end pressure; Establishing and agreeing working materiality amounts with the auditors.

Appendix D

Additional audit information

Other required procedures during the course of the audit

In addition to the key areas of audit focus outlined in section 2, we have to perform other procedures as required by auditing, ethical and independence standards and other regulations. We outline the procedures below that we will undertake during the course of our audit.

Our responsibilities required by auditing standards

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control.
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Concluding on the appropriateness of management's use of the going concern basis of accounting.
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtaining sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Council to express an opinion on the consolidated financial statements. Reading other information contained in the financial statements, including the board's statement that the annual report is fair, balanced and understandable, the Joint Governance Committee reporting appropriately addresses matters communicated by us to the Joint Governance Committee and reporting whether it is materially inconsistent with our understanding and the financial statements; and
- Maintaining auditor independence.

Purpose and evaluation of materiality

For the purposes of determining whether the accounts are free from material error, we define materiality as the magnitude of an omission or misstatement that, individually or in the aggregate, in light of the surrounding circumstances, could reasonably be expected to influence the economic decisions of the users of the financial statements. Our evaluation of it requires professional judgement and necessarily takes into account qualitative as well as quantitative considerations implicit in the definition. We would be happy to discuss with you your expectations regarding our detection of misstatements in the financial statements.

Materiality determines:

▶ The level of work performed on individual account balances and financial statement disclosures.

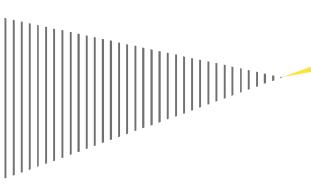

The amount we consider material at the end of the audit may differ from our initial determination. At this stage, however, it is not feasible to anticipate all of the circumstances that may ultimately influence our judgement about materiality. At the end of the audit we will form our final opinion by reference to all matters that could be significant to users of the accounts, including the total effect of the audit misstatements we identify, and our evaluation of materiality at that date.

Adur District Council

Annual Audit Letter for the year ended 31 March 2017

Executive Summary	2
Purpose	
Responsibilities	
Financial Statement Audit	
Value for Money	13
Other Reporting Issues	17
Focused on your future	20

Public Sector Audit Appointments Ltd (PSAA) have issued a "Statement of responsibilities of auditors and audited bodies". It is available from the Chief Executive of each audited body and via the PSAA website (www.psaa.co.uk)

The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas.

The "Terms of Appointment (updated 23 February 2017)" issued by PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and statute, and covers matters of practice and procedure which are of a recurring nature.

This Annual Audit Letter is prepared in the context of the Statement of responsibilities. It is addressed to the Members of the audited body, and is prepared for their sole use. We, as appointed auditor, take no responsibility to any third party.

Our Complaints Procedure – If at any time you would like to discuss with us how our service to you could be improved, or if you are dissatisfied with the service you are receiving, you may take the issue up with your usual partner or director contact. If you prefer an alternative route, please contact Steve Varley, our Managing Partner, 1 More London Place, London SE1 2AF. We undertake to look into any complaint carefully and promptly and to do all we can to explain the position to you. Should you remain dissatisfied with any aspect of our service, you may of course take matters up with our professional institute. We can provide further information on how you may contact our professional institute.

Executive Summary

We are required to issue an annual audit letter to Adur District Council (the Council) following completion of our audit procedures for the year ended 31 March 2017.

Below are the results and conclusions on the significant areas of the audit process.

Area of Work	Conclusion
Opinion on the Council's: ► Financial statements	Unqualified - the financial statements give a true and fair view of the financial position of the Council as at 31 March 2017 and of its expenditure and income for the year then ended.
 Consistency of other information published with the financial statements 	Other information published with the financial statements was consistent with the Annual Accounts.
Concluding on the Council's arrangements for securing economy, efficiency and effectiveness	We concluded that you have put in place proper arrangements to secure value for money in your use of resources.

Area of Work	Conclusion
Reports by exception:	
 Consistency of Governance Statement 	The Governance Statement was consistent with our understanding of the Council.
► Public interest report	We had no matters to report in the public interest.
 Written recommendations to the Council, which should be copied to the Secretary of State 	We had no matters to report.
 Other actions taken in relation to our responsibilities under the Local Audit and Accountability Act 2014 	We had no matters to report.

Area of Work	Conclusion
Reporting to the National Audit Office (NAO) on our review of the Council's Whole of Government Accounts return (WGA).	The Council is below the specified audit threshold of £350 million. Therefore, we did not perform any audit procedures on the consolidation pack.

As a result of the above we have also:

Area of Work	Conclusion
Issued a report to those charged with governance of the Council communicating significant findings resulting from our audit.	Our Audit Results Report was issued on 26 September 2017.
Issued a certificate that we have completed the audit in accordance with the requirements of the Local Audit and Accountability Act 2014 and the National Audit Office's 2015 Code of Audit Practice.	Our certificate was issued on 27 September 2017

In January 2018 we will also issue a report to those charged with governance of the Council summarising the certification work we have undertaken.

We would like to take this opportunity to thank the Council's staff for their assistance during the course of our work.

Paul King

Associate Partner For and on behalf of Ernst & Young LLP

Purpose

The Purpose of this Letter

The purpose of this annual audit letter is to communicate to Members and external stakeholders, including members of the public, the key issues arising from our work, which we consider should be brought to the attention of the Council.

We have already reported the detailed findings from our audit work in our 2016/17 Audit Results Report to the September Joint Governance Committee, representing those charged with governance. We do not repeat those detailed findings in this letter. The matters reported here are the most significant for the Council.

Responsibilities

Responsibilities of the Appointed Auditor

Our 2016/17 audit work has been undertaken in accordance with the Audit Plan that we issued in January 2017 and is conducted in accordance with the National Audit Office's 2015 Code of Audit Practice, International Standards on Auditing (UK and Ireland), and other guidance issued by the National Audit Office.

As auditors we are responsible for:

- Expressing an opinion:
 - ▶ On the 2016/17 financial statements; and
 - ▶ On the consistency of other information published with the financial statements.
- Forming a conclusion on the arrangements the Council has to secure economy, efficiency and effectiveness in its use of resources.
- Reporting by exception:
 - ▶ If the annual governance statement is misleading or not consistent with our understanding of the Council;
 - Any significant matters that are in the public interest;
 - ▶ Any written recommendations to the Council, which should be copied to the Secretary of State; and
 - ▶ If we have discharged our duties and responsibilities as established by thy Local Audit and Accountability Act 2014 and Code of Audit Practice.

Alongside our work on the financial statements, we also review and report to the National Audit Office (NAO) on you Whole of Government Accounts return. The Council is below the specified audit threshold of £350 million. Therefore, we did not perform any audit procedures on the return.

Responsibilities of the Council

The Council is responsible for preparing and publishing its statement of accounts accompanied by an Annual Governance Statement. In the AGS, the Council reports publicly each year on how far it complies with its own code of governance, including how it has monitored and evaluated the effectiveness of its governance arrangements in year, and any changes planned in the coming period.

The Council is also responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

Financial Statement Audit

Key Issues

The Council's Statement of Accounts is an important tool for the Council to show how it has used public money and how it can demonstrate its financial management and financial health.

We audited the Council's Statement of Accounts in line with the National Audit Office's 2015 Code of Audit Practice, International Standards on Auditing (UK and Ireland), and other guidance issued by the National Audit Office and issued an unqualified audit report on 27 September 2017.

Our detailed findings were reported to the 26 September 2017 Joint Governance Committee.

The key issues identified as part of our audit were as follows:

Significant Risk	Conclusion
Management override of controls	
As identified in ISA (UK and Ireland) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by	We obtained a full list of journals posted to the general ledger during the year, and analysed these journals using criteria we set to identify any unusual journal types or amounts. We then tested those journals that met our criteria to supporting documentation. No issues were identified.
overriding controls that otherwise appear to be operating effectively.	We considered the accounting estimates for evidence of management bias. None was identified.
We identify and respond to this fraud risk on every audit engagement. For local authorities, the potential for the incorrect classification of revenue spend as capital is a particular area where there is a risk of management override.	We also reviewed and evaluated the business rationale for significant unusual transactions and reviewed capital expenditure on property, plant and equipment to ensure it meets the relevant accounting requirements to be capitalised. We did not identify any evidence of management override from these procedures.

The Council's Statement of Accounts is an important tool for the Council to show how it has used public money and how it can demonstrate its financial management and financial health.

Our application of materiality

When establishing our overall audit strategy, we determined a magnitude of uncorrected misstatements that we judged would be material for the financial statements as a whole.

Item	Thresholds applied
Planning materiality	We determined planning materiality to be £1.08 million (2015/16: £1.18 million), which is 2% of Gross Revenue Expenditure reported in the accounts of £48.483 million adjusted for several non-cash items.
	We consider Gross Revenue Expenditure to be one of the principal considerations for stakeholders in assessing the financial performance of the Council.
Reporting threshold	We agreed with the Joint Governance Committee that we would report to the Committee all audit differences in excess of £54 thousand (2015/16: £59 thousand)

We also identified the following areas where misstatement at a level lower than our overall materiality level might influence the reader. For these areas we developed an audit strategy specific to these areas.

- · Remuneration disclosures including any severance payments, exit packages and termination benefits; and
- Related party transactions.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations.

Value for Money

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- Take informed decisions;
- · Deploy resources in a sustainable manner; and
- · Work with partners and other third parties.

We identified one significant risks in relation to these arrangements. The tables below present the findings of our work in response to the risk identified and any other significant weaknesses or issues to bring to your attention].

We have performed the procedures outlined in our audit plan. [We did not identify any significant weaknesses in the Council's arrangements

We therefore issued an unqualified value for money conclusion on 27 September 2017

Significant Risk

The Council will not be able to plan its finances effectively to support the sustainable delivery of strategic priorities and maintain statutory functions.

The Council continues to face significant financial challenges over the coming years. Whilst we concluded last year that the Council's Medium Term Financial Plan was sound and we noted that plans were in place to deliver the 2016/17 budget, and your financial monitoring is suggesting a marginal overspend of £40 thousand compared to the forecast. We note the Council needs to deliver savings of £2.433 million for 2017/18. At 31 March 2016, the Council had £1.686 million of useable reserves. This includes your General Fund reserves, which at the end of the 2015/16 financial year, were just below the minimum level set by the Section 151 Officer. These reserves would not be sufficient to cover any shortfall in savings were they not to be achieved.

Conclusion

We reviewed the PSAA's value for money profile tools which compared the Council to its nearest statistical neighbours. This highlighted a number of areas where the Councils expenditure is significantly higher or lower than other similar councils. Many of those areas where the Council is reportedly higher spending result from the specific nature or arrangements at the authority, such as its size (which typically means higher cost per head, as one of the smallest authorities) or partnership working arrangements which result in low administration costs. Further, there are unique demographic and geographical influences on these factors. Spend on Housing Services per head is in the highest 20%, for example, while net spend on Housing Benefit administration is in the lowest 10%. Each of these specific areas are known to the Council and areas of specific focus. The fact these figures are higher than statistical neighbours does not suggest the Council doesn't have proper arrangements in place to achieve economy, efficiency and effectiveness.

We also reviewed the Authority's medium term financial forecast. It demonstrates a cumulative budget gap of around £1.579 million up to the end of 2019/20. The Authority recognises that reserves cannot, and should not, be used to bridge the base budget gap in the absence of longer term plans to make the necessary savings and we note from the Medium Term Financial Strategy that there is no planned future use of reserves to address budget gaps. The assumptions within these plans appear reasonable. At this point, having reviewed the 2016/17 outturn and the Medium Term Financial Strategy, we judge the Authority to be financially resilient for the foreseeable future, and that the measures taken during 2016/17 have been both robust and proportionate. It is important that the Authority continues its track record of delivering its planned budget and savings.

As noted above, delivery of previous saving requirements within service budgets proves the Council's ability to effectively monitor those saving requirements to ensure appropriate delivery. We note that in 2016/17, the Councils monitoring of savings was effective and

resulted saving and additional income being identified of £1.034m. This meant the Council's outturn position was £81,000 surplus compared to budgeted expenditure for the period. We have confirmed that this monitoring process remains in place for 2017/18 and is appropriate to identify any deviation within the saving requirement.

We recognise that the challenge to the Council remains, and while there are no unidentified savings requirements in 2017/18, the budget book notes that further savings of £1,168m are required in 2018/19. The Authority's budget planning cycle for 2018/19 is not yet complete and therefore these savings are currently unidentified in detail. Based on previous experience of the Authority's budget process, whereby the savings required have been detailed in the budget book and through budget monitoring procedures down to service or activity level, we have concluded that the saving requirement will be appropriately identified and monitored. We are also able to take some assurance from the Authority's track record of delivering those savings they identify.

Other Reporting Issues

Whole of Government Accounts

The National Audit Office sets out procedures to be performed on the consolidation pack prepared by the Council for Whole of Government Accounts purposes, subject to a specified audit threshold of £350 million. The Council are below this threshold and therefore, we did not perform any audit procedures on the consolidation pack.

Annual Governance Statement

We are required to consider the completeness of disclosures in the Council's annual governance statement, identify any inconsistencies with the other information of which we are aware from our work, and consider whether it is misleading.

We completed this work and did not identify any areas of concern.

Report in the Public Interest

We have a duty under the Local Audit and Accountability Act 2014 to consider whether, in the public interest, to report on any matter that comes to our attention in the course of the audit in order for it to be considered by the Council or brought to the attention of the public.

We did not identify any issues which required us to issue a report in the public interest.

Written Recommendations

We have a duty under the Local Audit and Accountability Act 2014 to designate any audit recommendation as one that requires the Council to consider it at a public meeting and to decide what action to take in response.

We did not identify any issues which required us to issue a written recommendation.

Objections Received

We did not receive any objections to the 2016/17 financial statements from member of the public.

Other Powers and Duties

We identified no issues during our audit that required us to use our additional powers under the Local Audit and Accountability Act 2014.

Independence

We communicated our assessment of independence in our Audit Results Report to the Joint Governance Committee on 26 September 2017. In our professional judgement the firm is independent and the objectivity of the audit engagement partner and audit staff has not been compromised within the meaning regulatory and professional requirements.

Control Themes and Observations

As part of our work, we obtained an understanding of internal control sufficient to plan our audit and determine the nature, timing and extent of testing performed. Although our audit was not designed to express an opinion on the effectiveness of internal control, we are required to communicate to you significant deficiencies in internal control identified during our audit.

Our audit did not identify any controls issues to bring to the attention of the Joint Governance Committee.

particular area where there is a risk of management override.	We did not identify any evidence of management override from these procedures.

The Council's Statement of Accounts is an important tool for the Council to show how it has used public money and how it can demonstrate its financial management and financial health.

Our application of materiality

When establishing our overall audit strategy, we determined a magnitude of uncorrected misstatements that we judged would be material for the financial statements as a whole.

Item	Thresholds applied
Planning materiality	We determined planning materiality to be £1.228 million (2015/16: £1.355 million), which is 2% of Gross Revenue Expenditure reported in the accounts adjusted for several non-cash items.
	We consider Gross Revenue Expenditure to be one of the principal considerations for stakeholders in assessing the financial performance of the Council.
Reporting threshold	We agreed with the Joint Governance Committee that we would report to the Committee all audit differences in excess of £61 thousand (2015/16: £68 thousand)

We also identified the following areas where misstatement at a level lower than our overall materiality level might influence the reader. For these areas we developed an audit strategy specific to these areas.

- Remuneration disclosures including any severance payments, exit packages and termination benefits; and
- Related party transactions.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations.

Value for Money

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- Take informed decisions;
- · Deploy resources in a sustainable manner; and
- Work with partners and other third parties.

We identified one significant risks in relation to these arrangements. The tables below present the findings of our work in response to the risk identified and any other significant weaknesses or issues to bring to your attention].

We have performed the procedures outlined in our audit plan. [We did not identify any significant weaknesses in the Council's arrangements

We therefore issued an unqualified value for money conclusion on 27 September 2017

Significant Risk

The Council will not be able to plan its finances effectively to support the sustainable delivery of strategic priorities and maintain statutory functions.

The Council continues to faces significant financial management challenges over the coming years. While we concluded last year that the Council's Medium Term Financial Plan was sound and we noted that plans are in place to deliver the 2016/17 budget, and your financial monitoring is suggesting an underspend of £298 thousand compared to the forecast. We note the Council is required to deliver savings of £2.380m for 2017/18. At 31 March 2016, the Council had £3.024m of useable reserves. This includes your General Fund reserves, which are just above the minimum level set by the Section 151 Officer. While this is sufficient to cover the budget gap for 2017/18 should these savings not be made, it does not represent a longer term solution.

Conclusion

We reviewed the PSAA's value for money profile tools which compared the Council to its nearest statistical neighbours. This highlighted a number of areas where the Councils expenditure is significantly higher or lower than other similar councils. Many of those areas where the Council is reportedly higher spending result from the unique demographic of the population within the Council's boundary. Planned spend on Adult Social Care, for example, is within the highest 5% of statistically similar authorities as District and Borough Councils typically do not fund Adult Services. Each of these specific areas are known to the Council and areas of specific focus. The fact these figures are higher than statistical neighbours does not suggest the Council doesn't have proper arrangements in place to achieve economy, efficiency and effectiveness.

We also reviewed the Council's medium term forecast. It demonstrates a cumulative budget gap of around £2.674 million up to the end of 2019/20. The Authority recognises that reserves cannot, and should not, be used to bridge the base budget gap in the absence of longer term plans to make the necessary savings and we note from the Medium Term Financial Strategy that there is no planned future use of reserves to address budget gaps. The assumptions within these plans appear reasonable.

At this point, having reviewed the 2016/17 outturn and the Medium Term Financial Strategy, we judge the Authority to be financially resilient for the foreseeable future and that the measures taken during 2016/17 have been both robust and proportionate. It is important that the Authority continues its track record of delivering its planned budget and savings.

As noted above, delivery of previous saving requirements within service budgets proves the Authority's ability to effectively monitor those saving requirements to ensure appropriate delivery. We note that in 2016/17, the Authority's monitoring of savings was effective and resulted saving and additional income being identified of £1.169m. This meant the Authority's outturn position was £854,000 surplus compared to budgeted expenditure for

the period. We have confirmed that this monitoring process remains in place for 2017/18 and is appropriate to identify any deviation within the saving requirement.

We recognise that the challenge to the Authority remains, and while there are no unidentified savings requirements in 2017/18, the budget book notes that further savings of £1,782m are required in 2018/19. The Authority's budget planning cycle for 2018/19 is not yet complete and therefore these savings are currently unidentified in detail. Based on previous experience of the Authority's budget process, whereby the savings required have been detailed in the budget book and through budget monitoring procedures down to service or activity level, we have concluded that the saving requirement will be appropriately identified and monitored. We are also able to take some assurance from the Authority's track record of delivering those savings they identify.

Other Reporting Issues

Whole of Government Accounts

National Audit Office sets out procedures to be performed on the consolidation pack prepared by the Council for Whole of Government Accounts purposes, subject to a specified audit threshold of £350 million. The Council are below this threshold and therefore, we did not perform any audit procedures on the consolidation pack.

Annual Governance Statement

We are required to consider the completeness of disclosures in the Council's annual governance statement, identify any inconsistencies with the other information of which we are aware from our work, and consider whether it is misleading.

We completed this work and did not identify any areas of concern.

Report in the Public Interest

We have a duty under the Local Audit and Accountability Act 2014 to consider whether, in the public interest, to report on any matter that comes to our attention in the course of the audit in order for it to be considered by the Council or brought to the attention of the public.

We did not identify any issues which required us to issue a report in the public interest.

Written Recommendations

We have a duty under the Local Audit and Accountability Act 2014 to designate any audit recommendation as one that requires the Council to consider it at a public meeting and to decide what action to take in response.

We did not identify any issues which required us to issue a written recommendation.

Objections Received

We did not receive any objections to the 2016/17 financial statements from member of the public.

Other Powers and Duties

We identified no issues during our audit that required us to use our additional powers under the Local Audit and Accountability Act 2014.

Independence

We communicated our assessment of independence in our Audit Results Report to the Joint Governance Committee on 26 September 2017. In our professional judgement the firm is independent and the objectivity of the audit engagement partner and audit staff has not been compromised within the meaning regulatory and professional requirements.

Control Themes and Observations

As part of our work, we obtained an understanding of internal control sufficient to plan our audit and determine the nature, timing and extent of testing performed. Although our audit was not designed to express an opinion on the effectiveness of internal control, we are required to communicate to you significant deficiencies in internal control identified during our audit.

Our audit did not identify any controls issues to bring to the attention of the Joint Governance Committee.

Focused on your future

Area	Issue	Impact
Earlier deadline for production and audit of the financial statements from 2017/18	The Accounts and Audit Regulations 2015 introduced a significant change in statutory deadlines from the 2017/18 financial year. From that year the timetable for the preparation and approval of accounts will be brought forward with draft accounts needing to be prepared by 31 May and the publication of the audited accounts by 31 July.	These changes provide challenges for both the preparers and the auditors of the financial statements. To prepare for this change the Authority has revised its accounts production process which to achieve draft accounts production by mid-June for 2016/17. The Authority intends to refine this further for 2017/18. As auditors, nationally we have: Issued a thought piece on early closedown As part of the strategic Alliance with CIPFA jointly presented accounts closedown workshops across England, Scotland and Wales Presented at CIPFA early closedown events and on the subject at the Local Government Accounting Conferences in July 2017
		 Undertaken substantive procedures in Spring 2017 in order to reduce the work required at the post-statement stage of the audit. Brought forward the audit of 2016/17 June 2017 and plan to bring the audit of 2017/18 to June 2018 Together with the Authority, we are in the process of agreeing further areas for early work which can be completed early. These include testing of major income and expenditure streams at month 9 and

Area	Issue	Impact
		discussing and agreeing material estimation procedures by month 9.

Ward(s) Affected:

JOINT TREASURY MANAGEMENT STRATEGY STATEMENT AND ANNUAL INVESTMENT STRATEGY 2018/19 to 2020/21, ADUR DISTRICT COUNCIL AND WORTHING BOROUGH COUNCIL

REPORT BY THE DIRECTOR FOR DIGITAL AND RESOURCES

EXECUTIVE SUMMARY

1. PURPOSE

1.1 This report asks Members to approve and adopt the contents of the Treasury Management Strategy Statement and Annual Investment Strategy for 2018/19 to 2020/21 for Adur and Worthing Councils, as required by regulations issued under the Local Government Act 2003.

2. **RECOMMENDATIONS**

2.1 Recommendation One

The Joint Governance Committee is recommended to note the report (including the Prudential Indicators and Limits, and MRP Statements) for 2018/19 to 2020/21.

2.2 Recommendation Two

The Joint Governance Committee is recommended to refer any comments or suggestions to the next meeting of the Joint Strategic Committee on 1st February 2018.

2.3 Recommendation Three

The Joint Strategic Committee is recommended to approve and adopt the TMSS and AIS for 2018/19 to 2020/21, incorporating the Prudential Indicators and Limits, and MRP Statements.

2.4 Recommendation Four

The Joint Strategic Committee is recommended to forward the Prudential Indicators and Limits, and MRP Statements of the report for approval by Worthing Council at its meeting on 20 February 2018, and by Adur Council at its meeting on 22 February 2018.

3. CONTEXT

INTRODUCTION

3.1 **Background**

The Councils are required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in high quality counterparties or instruments commensurate with the Councils' low risk appetite, providing adequate liquidity initially, before considering investment return. This is consistent with national guidance which promotes security and liquidity above yield.

The second main function of the treasury management service is the funding of the Councils' capital plans. These capital plans provide a guide to the borrowing need of the Councils, essentially the longer term cash flow planning, to ensure that the Councils can meet their capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion any debt previously drawn may be restructured to meet Councils' risk or cost objectives.

CIPFA defines treasury management as:

"The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

3.2 Reporting requirements

The Councils are required to receive and approve, as a minimum, three main reports each year, which incorporate a variety of policies, estimates and actuals.

Prudential and treasury indicators and treasury strategy (this report), to be approved by the Joint Strategic Committee (JSC) and by the Councils - the first, and most important report covers:

- the capital plans (including prudential indicators);
- a minimum revenue provision (MRP) policy (how residual capital expenditure is charged to revenue over time);
- the treasury management strategy (how the investments and borrowings are to be organised) including treasury indicators; and
- an investment strategy (the parameters on how investments are to be managed).

3. CONTEXT

INTRODUCTION

3.2 Reporting requirements

A mid year treasury management report – This will update members with the progress of the capital position, amending prudential indicators as necessary, and noting whether any policies require revision.

An annual treasury report – This provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.

Scrutiny - The above reports are required to be scrutinised by the Joint Governance Committee (JGC) which may make recommendations to the JSC regarding any aspects of Treasury Management policy and practices it considers appropriate in fulfilment of its scrutiny role. Such recommendations as may be made shall be incorporated within the above named reports and submitted to meetings of the JSC for consideration as soon after the meetings of the JGC as practically possible. The reports are approved by the JSC and recommended to the Councils for approval.

Capital Strategy

In December 2017, CIPFA issued revised Prudential and Treasury Management Codes. As from 2019/20, all local authorities will be required to prepare an additional report, a Capital Strategy report, which is intended to provide the following:

- a high-level overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
- an overview of how the associated risk is managed
- the implications for future financial sustainability

The aim of this report is to ensure that all elected Members on the full councils fully understand the overall strategy, governance procedures and risk appetite entailed by this Strategy. The Capital Strategy will include capital expenditure, investments and liabilities and treasury management in sufficient detail to allow all Members to understand how stewardship, value for money, prudence, sustainability and affordability will be secured.

The Councils already prepare a Capital Strategy but this will need to be extended to cover the new requirements.

3.3 Treasury Management Strategy for 2018/19

The strategy for 2018/19 covers two main areas:

Capital issues

- the capital plans and the prudential indicators;
- the minimum revenue provision (MRP) policy.

3. CONTEXT

INTRODUCTION

3.3 Treasury Management Strategy for 2018/19

Treasury management issues

- the current treasury position;
- treasury indicators which limit the treasury risk and activities of the Councils;
- prospects for interest rates;
- the borrowing strategy;
- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- the policy on use of external service providers

These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential Code, CLG MRP Guidance, the CIPFA Treasury Management Code and CLG Investment Guidance.

3.4 **Training**

The CIPFA Code requires the responsible officer to ensure that Members with responsibility for treasury management receive adequate training in treasury management. This especially applies to members responsible for scrutiny. Training for Members was provided by Capita Asset Services (now Link Asset Services) in June 2017 and further training will take place on 19 June 2018.

The training needs of treasury management officers are periodically reviewed and officers attend courses provided by appropriate trainers such as Link and CIPFA.

3.5 Treasury management consultants

The Councils last undertook a joint re-tender for treasury management consultancy services in 2017. This culminated in the re-appointment of the Councils' incumbent consultants, Link Asset Services (formerly Capita) on similar terms for 3 years from 1 April 2017.

The Councils recognise that responsibility for treasury management decisions remains with the organisations at all times and will ensure that undue reliance is not placed upon our external service providers.

They also recognise that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Councils will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.

4. RECENT DEVELOPMENTS IN TREASURY MANAGEMENT

4.1 Markets in Financial Instruments Directive (MIFID II) Reforms

From 3 January 2018, under the EU issued MIFID II regulations, all institutions which invest in MIFID II products are required to opt up from retail investor status to professional status. Although the Councils currently do not invest in MIFID II products, many of the financial institutions that we deal with do not have authorisation to transact with retail clients. Consequently the Councils were required to opt up to professional status in order to be able to continue to invest with many of our counterparties. Appendix B lists these counterparties. The main implications are that the financial institutions are entitled to assume that the Councils have the expertise to make the relevant investments and that the information provided may not be as comprehensive as for retail clients. As the Councils currently invest only in fixed term deposits in high quality counterparties, this does not present a risk to the security of our funds.

4.2 Money Market Funds

The EU approved Money Market Fund Regulation comes into force on 21 July 2018. Only funds that invest 99.5% of their assets into government debt instruments and similar instruments will be permitted to maintain a Constant Net Asset Value (CNAV) fund. The CNAV funds that the Councils currently use will be re-classified as Low Volatility NAV (LVNAV) funds and will be permitted to maintain a constant dealing NAV provided that they meet more stringent criteria than at present. Consequently our approved investment schedules have been amended to include reference to appropriate LVNAV funds.

5. THE CAPITAL PRUDENTIAL INDICATORS 2018/19 - 2020/21

The Councils' capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist Members' overview and confirm capital expenditure plans.

5.1 Capital expenditure

This prudential indicator is a summary of the Councils' capital expenditure plans, both those agreed previously, and those forming part of this budget cycle. Members are asked to approve the capital expenditure forecasts.

The tables below summarise the capital expenditure plans and how these plans are being financed by capital or revenue resources. Any shortfall of resources results in a funding borrowing need. The financing need excludes other long term liabilities, such as leasing arrangements which already include borrowing instruments.

5.1 Capital expenditure

ADUR DISTRICT COUNCIL

Capital expenditure	2016/17	2017/18	2018/19	2019/20	2020/21
	Actual	Estimate	Estimate	Estimate	Estimate
	£m	£m	£m	£m	£m
Non-HRA	2.203	*36.541	*38.007	*30.940	*28.512
HRA	2.826	6.205	7.006	5.800	6.400
TOTAL	5.029	42.746	45.013	36.740	34.912
Financed by: Capital receipts Capital grants and contributions Revenue Reserves & contributions	0.648	2.095	0.764	1.870	2.006
	1.142	5.280	0.699	1.490	0.588
	2.443	4.569	6.187	4.482	4.482
Net financing need for the year	0.796	30.802	37.363	28.898	27.836

^{*} The capital expenditure includes £25m allocated to the Strategic Property Fund for 2017/18 and each of the following years.

WORTHING BOROUGH COUNCIL

Capital expenditure	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	£m	£m	£m	£m	£m
Non-HRA	5.637	*54.932	*34.565	*32.220	*29.929
Financed by:					
Capital receipts	1.123	5.912	0.192	1.000	1.000
Capital grants and contributions	4.329	1.515	0.858	1.706	0.767
Revenue Reserves	0.185	0.455	0.199	0.210	0.199
& contributions					
Net financing needed for the year	0.000	47.050	33.316	29.304	27.963

^{*} The capital expenditure includes a £10m loan to a local Registered Social Landlord in 2017/18 and the amounts allocated to the Strategic Property Fund - £30.3m in 2017/18 and £25m in each of the following years.

5.2 The Councils' borrowing need (the Capital Financing Requirement)

The second prudential indicator is the Councils' Capital Financing Requirement (CFR). The CFR is simply the total historical outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the Councils' underlying borrowing need. Any capital expenditure above, which has not immediately been paid for, will increase the CFR.

The CFR does not increase indefinitely, as the minimum revenue provision (MRP) is a statutory annual revenue charge which broadly reduces the borrowing need in line with each asset's life, and so charges the economic consumption of capital assets as they are used. The CFR includes any other long term liabilities (e.g. finance leases). Whilst these increase the CFR, and therefore the Councils' borrowing requirement, these types of scheme include a borrowing facility and so the Councils are not required to separately borrow for these schemes. The Councils currently do not have any such schemes within the CFR.

The Councils are asked to approve the CFR projections below:

ADUR DISTRICT COUNCIL

	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	£m	£m	£m	£m	£m
Capital Financing Requirement					
CFR – non-HRA CFR – HRA	14.909 60.103	43.865 61.237	79.785 61.474	106.536 62.010	131.128 63.010
Total CFR	75.012	105.102	141.259	168.546	194.138
Movement in CFR	(1.810)	30.090	36.157	27.287	25.592
Movement in CFR represented by Net financing need for the year (above)	0.796	30.802	37.363	28.898	27.836
Less: MRP/VRP and other financing movements	(2.606)	(0.712)	(1.206)	(1.611)	(2.244)
Movement in CFR	(1.810)	30.090	36.157	27.287	25.592

5.2 The Councils' borrowing need (the Capital Financing Requirement)

WORTHING BOROUGH COUNCIL

	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	£m	£m	£m	£m	£m
Capital Financing Requirement					
CFR – non housing	22.384	68.625	100.445	127.692	153.215
Movement in CFR	(0.977)	46.241	31.820	27.247	25.523
Movement in CFR represented by Net financing need for the year (above) Less MRP/VRP and other financing movements	0.000 (0.977)	47.050 (0.809)	33.315 (1.495)	29.304 (2.057)	27.962 (2.439)
Movement in CFR	(0.977)	46.241	31.820	27.247	25.523

5.3 Minimum revenue provision (MRP) policy statement

The Councils are required to pay off an element of the accumulated General Fund capital spend each year (the CFR) through a revenue charge (the minimum revenue provision - MRP), although they are also allowed to undertake additional voluntary payments (voluntary revenue provision - VRP). CLG regulations require the full Councils to approve an MRP Statement in advance of each year. The CLG intends to issue new MRP guidance which will include maximum useful economic lives for land (50 years) and other assets (40 years). The 2017/18 MRP Statements were approved by Adur Council on 23rd February 2017 and by Worthing Council on 21st February 2017.

For both Councils, MRP relating to built assets under construction will be set aside once the asset is completed.

A variety of options are provided to councils, so long as there is a prudent provision. The Councils are recommended to approve the following MRP Statements:

ADUR DISTRICT COUNCIL

For Adur District Council it was approved by JSC on 2 June 2016 that for capital expenditure incurred before 1st April 2008, the MRP will be set aside in equal instalments over the life of the associated debt. No such policy was required by Worthing Borough Council who had no debt as at 1 April 2008.

5.3 Minimum revenue provision (MRP) policy statement

ADUR DISTRICT COUNCIL

5.3.1 General Fund

For non-HRA capital expenditure after 1st April 2008 the MRP will be calculated as the annual amount required to repay borrowing based on the annuity method: equal annual payments of principal and interest are calculated, with the interest element reducing and the principal element increasing as the principal is repaid. The interest is based on the rate available to the Council at the beginning of the year in which payments start and the MRP is calculated as the amount of principal, so that by the end of the asset's estimated life the principal is fully repaid. The option remains to use additional revenue contributions or capital receipts to repay debt earlier (the Asset Life Method).

An exception was agreed in the 2015/16 Treasury Management Strategy Statement: the Chief Financial Officer has discretion to defer MRP relating to debt arising from loans to Registered Social Landlords (RSLs) to match the profile of debt repayments from the RSL. RSLs normally prefer a maturity type loan as it matches the onset of income streams emanating from capital investment with the timing of the principal debt repayment. The deferral of MRP to the maturity date would therefore mean that MRP is matched at the same point as the debt is repaid, and is therefore cash (and revenue cost) neutral to the Council.

If concerns arise about the ability of the RSL to repay the loan, the Chief Financial Officer will use the approved discretion to make MRP as a "prudent provision" from the earliest point to ensure that sufficient funds are set aside from revenue to repay the debt at maturity if the RSL defaults.

It is proposed to use the same policy for 2018/19.

5.3.2 Housing Revenue Account

Unlike the General Fund, the HRA is not required to set aside funds to repay debt. The Adur HRA debt at the beginning of 2012/13 was close to the Government's imposed debt limit of £68.912m. The Council is not permitted to borrow in excess of this amount for HRA purposes.

The Council's MRP policy previously applied the financially prudent option of voluntary MRP for the repayment of HRA debt, to facilitate new borrowing in future for capital investment. However in order to provide additional capital funding to address the maintenance backlog identified by the condition survey, the payment of voluntary MRP was suspended for a period of 9 years from 2017/18 whilst the Council invests in its current housing stock and manages the impact of rent limitation.

5.3 Minimum revenue provision (MRP) policy statement

WORTHING BOROUGH COUNCIL

5.3.3 Worthing applies the same MRP policy as Adur for unfunded capital expenditure from 1 April 2008. Worthing has the same discretion as Adur Council in the application of MRP in respect of loans to RSLs. It is proposed to retain this policy for 2018/19.

If any finance leases are entered into the repayments are applied as MRP.

5.4 Affordability prudential indicators

Prudential indicators are required to assess the affordability of the capital investment plans. These provide an indication of the impact of the capital investment plans on the Councils' overall finances. The Councils are asked to approve the following indicators:

5.4.1 Ratio of financing costs to net revenue stream

This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the net revenue stream. The net revenue stream is defined in the Prudential Code as "taxation and non-specific grant income." This ratio was appropriate when most of the Councils' income derived from Government funding, but as the Councils increase their income from other sources, the ratio becomes distorted. The projected financing costs (interest on borrowing and Minimum Revenue Provision) for both Councils will increase in line with the planned investment in properties. However rental income from the properties does not form part of the net revenue stream as defined. Consequently the non-HRA ratio of financing costs to net revenue stream will increase significantly, although in practise the rental income will cover both the interest and MRP costs.

The HRA ratio for Adur reduces for 2017/18 and future years due to the revised Minimum Revenue Provision policy, which suspended voluntary provision whilst the backlog of maintenance is addressed.

ADUR DISTRICT COUNCIL

	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	%	%	%	%	%
Non-HRA	15.44	12.58	30.55	45.99	63.18
HRA	40.80	17.88	25.01	25.37	25.55

5.4.1 Ratio of financing costs to net revenue stream

WORTHING BOROUGH COUNCIL

	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	%	%	%	%	%
Non-HRA	8.26	8.68	18.65	26.70	38.31

The estimates of financing costs include current commitments and the proposals in this budget report.

5.4.2 Incremental impact of capital investment decisions on Council Tax

This indicator identifies the revenue costs associated with proposed changes to the three year capital programme recommended in this budget report compared to the Councils' existing approved commitments and current plans. The assumptions are based on the budget, but will invariably include some estimates, such as the level of increase in Council Tax. The income from strategic property purchases will generate savings in the indicator.

Council Tax - Band D	3.54	(10.69)	(12.22)	(9.82)	(13.46)

5.7 Estimates of the incremental impact of capital investment decisions on housing rent levels

Similar to the Council Tax calculation, this indicator identifies the trend in the cost of proposed changes in the housing capital programme recommended in this budget report compared to the Adur District Council's existing commitments and current plans, expressed as a discrete impact on weekly rent levels.

Incremental impact of capital investment decisions on housing rent levels:

ADUR DISTRICT COUNCIL

	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	£	£	£	£	£
Weekly housing rent levels	(0.55)	(14.07)	0.10	(0.38)	(0.10)

This indicator shows the revenue impact on any newly proposed changes, although any discrete impact will be constrained by rent controls. The reduction for 2017/8 is due to the suspension of VRP.

6. BORROWING

The capital expenditure plans set out above provide details of the service activity of the Councils. The treasury management function ensures that the Councils' cash is organised in accordance with the the relevant professional codes, so that sufficient cash is available to meet this service activity. This will involve both the organisation of the cash flow and, where capital plans require, the organisation of appropriate borrowing facilities. The strategy covers the relevant treasury / prudential indicators, the current and projected debt positions and the annual investment strategy.

6.1 **Current portfolio position**

The Councils' treasury portfolio positions at 31 March 2017, with forward projections are summarised below. The tables show the actual external debt (the treasury management operations), against the underlying capital borrowing need (the Capital Financing Requirement - CFR), highlighting any over or under borrowing.

ADUR DISTRICT COUNCIL

The increase in debt includes £25m in 2017/18 and the following years for investment in the Strategic Property Fund.

6.1 Current portfolio position

ADUR DISTRICT COUNCIL

	2016/17 Actual	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	£m	£m	£m	£m	£m
External Debt

borrowing					

6.1 Current portfolio position

Within the prudential indicators there are a number of key indicators to ensure that the Councils operate their activities within well-defined limits. One of these is that the Councils need to ensure that their gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2018/19 and the following two financial years. This allows some flexibility for limited early borrowing for future years, but ensures that borrowing is not undertaken for revenue or speculative purposes.

The Chief Financial Officer reports that the Councils complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and the proposals in this budget report.

6.2 Treasury Indicators: limits to borrowing activity

The operational boundary - This is the limit which external debt is not normally expected to exceed. In most cases, this would be a similar figure to the CFR, but may be lower or higher depending on the levels of actual debt and the ability to fund under-borrowing by other cash resources.

ADUR DISTRICT COUNCIL

Operational boundary	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate	
	£m	£m	£m	£m	
Debt	105.0	140.0	163.0	185.0	
Other long term liabilities	1.0	1.0	1.0	1.0	
Total	106.0	141.0	164.0	186.0	

WORTHING BOROUGH COUNCIL

Operational boundary	2017/18 Approved	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate	
	£m	£m	£m	£m	
Debt re Worthing Homes	10.0	10.0	10.0	10.0	
Other Debt	55.0	90.0	115.0	135.0	
Other long term liabilities	1.0	1.0	1.0	1.0	
Total	66.0	101.0	126.0	146.0	

The authorised limit for external debt - A further key prudential indicator represents a control on the maximum level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by the full Councils. It reflects the level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the longer term.

WORTHING BOROUGH COUNCIL

6.2 Treasury Indicators: limits to borrowing activity

- 1. This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all councils' plans, or those of a specific council, although this power has not yet been exercised.
- 2. The Councils are asked to approve the following authorised limits:

ADUR DISTRICT COUNCIL

Authorised limit	2017/18	2018/19	2019/20	2020/21
	Estimate	Estimate	Estimate	Estimate
Debt	£m	£m	£m	£m
Other long term	110.0	145.0	170.0	190.0
liabilities	1.0	1.0	1.0	1.0
Total	111.0	146.0	171.0	191.0

WORTHING BOROUGH COUNCIL

Authorised limit	2017/18 Estimate				
	£m	£m	£m	£m	
Debt re Worthing Homes	10.0	10.0	10.0	10.0	
Other Debt	60.0	95.0	120.0	140.0	
Other long term liabilities	1.0	1.0	1.0	1.0	
Total	71.0	106.0	131.0	151.0	

Separately, Adur District Council is also limited to a maximum HRA CFR through the HRA self-financing regime. This limit is currently:

HRA Debt Limit	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate
	£m	£m	£m	£m
HRA debt cap	68.912	68.912	68.912	68.912
HRA CFR	61.237	61.474	62.010	63.010
HRA headroom	7.675	7.438	6.902	5.902

6.3 **Prospects for interest rates**

The Councils have appointed Link Asset Services as their treasury advisor and part of their service is to assist the Council to formulate a view on interest rates. The following table gives their central view.

	Dec-17	Mar-18	Jun-18	Sep-18	Dec-18	Mar-19	Jun-19	Sep-19	Dec-19	Mar-20	Jun-20	Sep-20	Dec-20	Mar-21
Bank Rate	0.50%	0.50%	0.50%	0.50%	0.75%	0.75%	0.75%	0.75%	1.00%	1.00%	1.00%	1.25%	1.25%	1.25%
5yr PWLB Rate	1.50%	1.60%	1.60%	1.70%	1.80%	1.80%	1.90%	1.90%	2.00%	2.10%	2.10%	2.20%	2.30%	2.30%
10yr PWLB View	2.10%	2.20%	2.30%	2.40%	2.40%	2.50%	2.60%	2.60%	2.70%	2.70%	2.80%	2.90%	2.90%	3.00%
25yr PWLB View	2.80%	2.90%	3.00%	3.00%	3.10%	3.10%	3.20%	3.20%	3.30%	3.40%	3.50%	3.50%	3.60%	3.60%
50yr PWLB Rate	2.50%	2.60%	2.70%	2.80%	2.90%	2.90%	3.00%	3.00%	3.10%	3.20%	3.30%	3.30%	3.40%	3.40%

As expected, the Monetary Policy Committee (MPC) delivered a 0.25% increase in Bank Rate at its meeting on 2 November. This removed the emergency cut in August 2016 after the EU referendum. The MPC also gave forward guidance that they expected to increase Bank rate only twice more by 0.25% by 2020 to end at 1.00%. The Link Asset Services forecast as above includes increases in Bank Rate of 0.25% in November 2018, November 2019 and August 2020.

The overall longer run trend is for gilt yields and PWLB rates to rise, albeit gently. It has long been expected, that at some point, there would be a more protracted move from bonds to equities after a historic long-term trend, over about the last 25 years, of falling bond yields. The action of central banks since the financial crash of 2008, in implementing substantial Quantitative Easing, added further impetus to this downward trend in bond yields and rising bond prices. Quantitative Easing has also directly led to a rise in equity values as investors searched for higher returns and took on riskier assets. The sharp rise in bond yields since the US Presidential election in November 2016 has called into question whether the previous trend may go into reverse, especially now the Fed. has taken the lead in reversing monetary policy by starting, in October 2017, a policy of not fully reinvesting proceeds from bonds that it holds when they mature.

Until 2015, monetary policy was focused on providing stimulus to economic growth but has since started to refocus on countering the threat of rising inflationary pressures as stronger economic growth becomes more firmly established. The Fed. has started raising interest rates and this trend is expected to continue during 2018 and 2019. These increases will make holding US bonds much less attractive and cause their prices to fall, and therefore bond yields to rise. Rising bond yields in the US are likely to exert some upward pressure on bond yields in the UK and other developed economies. However, the degree of that upward pressure is likely to be dampened by how strong or weak the prospects for economic growth and rising inflation are in each country, and on the degree of progress towards the reversal of monetary policy away from quantitative easing and other credit stimulus measures. From time to time, gilt yields — and therefore PWLB rates - can be subject to exceptional levels of volatility due to geo-political, sovereign debt crisis and emerging market developments. Such volatility could occur at any time during the forecast period.

6.3 **Prospects for interest rates**

Economic and interest rate forecasting remains difficult with so many external influences weighing on the UK. The above forecasts (and MPC decisions) will be liable to further amendment depending on how economic data and developments in financial markets transpire over the next year. Geopolitical developments, especially in the EU, could also have a major impact. Forecasts for average investment earnings beyond the three-year time horizon will be heavily dependent on economic and political developments.

The overall balance of risks to economic recovery in the UK is probably to the downside, particularly with the current level of uncertainty over the final terms of Brexit.

Downside risks to current forecasts for UK gilt yields and PWLB rates currently include:

- Bank of England monetary policy takes action too quickly over the next three
 years to raise Bank Rate and causes UK economic growth, and increases in
 inflation, to be weaker than we currently anticipate.
- Geopolitical risks, especially North Korea, but also in Europe and the Middle East, which could lead to increasing safe haven flows.
- A resurgence of the Eurozone sovereign debt crisis, possibly Italy, due to its high level of government debt, low rate of economic growth and vulnerable banking system.
- Weak capitalisation of some European banks.
- Germany is still without an effective government after the inconclusive result of the general election in October. In addition, Italy is to hold a general election on 4 March and the anti EU populist Five Star party is currently in the lead in the polls, although it is unlikely to get a working majority on its own. Both situations could pose major challenges to the overall leadership and direction of the EU as a whole and of the individual respective countries. Hungary will hold a general election in April 2018.
- Rising protectionism under President Trump
- A sharp Chinese downturn and its impact on emerging market countries
- The potential for upside risks to current forecasts for UK gilt yields and PWLB rates, especially for longer term PWLB rates include: -
 - The Bank of England is too slow in its pace and strength of increases in Bank Rate and, therefore, allows inflation pressures to build up too strongly within the UK economy, which then necessitates a later rapid series of increases in Bank Rate faster than we currently expect.

6.3 **Prospects for interest rates**

- UK inflation returning to sustained significantly higher levels causing an increase in the inflation premium inherent to gilt yields.
- The Fed causing a sudden shock in financial markets through misjudging the pace and strength of increases in its Fed. Funds Rate and in the pace and strength of reversal of Quantitative Easing, which then leads to a fundamental reassessment by investors of the relative risks of holding bonds, as opposed to equities. This could lead to a major flight from bonds to equities and a sharp increase in bond yields in the US, which could then spill over into impacting bond yields around the world.

Investment and borrowing rates:

- Investment returns are likely to remain low during 2018/19 but to be on a gently rising trend over the next few years.
- Borrowing interest rates increased sharply after the result of the general election in June and then also after the September MPC meeting when financial markets reacted by accelerating their expectations for the timing of Bank Rate increases. Since then, borrowing rates have eased back again somewhat. Apart from that, there has been little general trend in rates during the current financial year. The policy of avoiding new borrowing by running down spare cash balances has served well over the last few years. However, this needs to be carefully reviewed to avoid incurring higher borrowing costs in the future when authorities may not be able to avoid new borrowing to finance capital expenditure and/or the refinancing of maturing debt;

There will remain a cost of carry to any new long-term borrowing that causes a temporary increase in cash balances as this position will, most likely, incur a revenue cost – the difference between borrowing costs and investment returns.

6.4 **Borrowing Strategy**

The Councils are both currently maintaining an under-borrowed position. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with loan debt, as cash supporting the Councils' reserves, balances and cash flow has been used as a temporary measure. This strategy is prudent as investment returns are currently low and counterparty risk is still an issue that needs to be considered.

6.4 **Borrowing Strategy**

Against this background and the risks within the economic forecast, caution will be adopted with the 2018/19 treasury operations. The Chief Financial Officer will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances:

- if it was felt that there was a significant risk of a sharp FALL in long and short term rates (e.g. due to a marked increase of risks around relapse into recession or of risks of deflation), then long term borrowings will be postponed, and potential rescheduling from fixed rate funding into short term borrowing will be considered;
- if it was felt that there was a significant risk of a much sharper RISE in long and short term rates than that currently forecast, perhaps arising from an acceleration in the start date and in the rate of increase in central rates in the USA and UK, an increase in world economic activity or a sudden increase in inflation risks, then the portfolio position will be re-appraised. Fixed rate funding probably will be drawn whilst interest rates are still lower than they are projected to be in the next few years.

Any decisions will be reported to the appropriate decision making body at the next available opportunity.

6.5 Both Councils will refer in the first instance to the Public Works Loan Board (PWLB) for sourcing their borrowing needs, given that they are eligible to access the PWLB "Certainty" rate of interest, being 20 basis points below the normal prevailing PWLB rates. However, borrowing from other sources, including other Councils and the Local Government Association Municipal Bonds Agency, may from time to time offer options to borrow more cheaply than from the PWLB, and therefore will be considered.

Given the expected under borrowing position of the Councils, the borrowing strategy will give consideration to new borrowing in the following order of priority:-

- i) Internal borrowing, by running down cash balances and foregoing interest earned at historically low rates, as this is the cheapest form of borrowing:
- ii) Weighing the short term advantage of internal borrowing against potential long term borrowing costs, in view of the overall forecast for long term borrowing rates to increase over the next few years;
- iii) PWLB fixed rate loans for up to 20 years;
- iv) Long term fixed rate market loans at rates significantly below PWLB rates for the equivalent maturity period (where available) and to maintaining an appropriate balance between PWLB, market debt and loans from other councils in the debt portfolio;

- v) PWLB borrowing for periods under 5 years where rates are expected to be significantly lower than rates for longer periods. This offers a range of options for new borrowing which will spread debt maturities away from a concentration in longer dated debt.
- vi) Short term loans from other Councils where appropriate.
- 6.6 Preference will be given to PWLB borrowing by annuity and EIP loans instead of maturity loans, as this may result in lower interest payments over the life of the loans.

6.7 Treasury management limits on activity

There are three debt related treasury activity limits. The purpose of these are to restrain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of any adverse movement in interest rates. However, if these are set to be too restrictive they will impair the opportunities to reduce costs / improve performance. The indicators are:

- Upper limits on variable interest rate exposure. This identifies a maximum limit for variable interest rates based upon the debt position net of investments
- Upper limits on fixed interest rate exposure. This is similar to the previous indicator and covers a maximum limit on fixed interest rates;
- Maturity structure of borrowing. These gross limits are set to reduce the Councils' exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

The Councils are asked to approve the following treasury indicators and limits:

ADUR DISTRICT COUNCIL

Interest rate exposures	2018/19	2019/20	2020/21
	Upper %	Upper %	Upper %
Limits on fixed interest rates – debt only	100	100	100
Limits on fixed interest rates – Investments only	100	100	100
Limit on fixed interest rates on net debt	100	100	100
Limits on variable interest rates – debt only	25	25	25
Limits on variable interest rates - Investments only	100	100	100

6. BORROWING

10 years to 20 years 0% 75%				
20 years to 30 years	0%	75%		

6. BORROWING

6.8 Policy on borrowing in advance of need

The Councils will not borrow more than or in advance of their needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Councils can ensure the security of such funds.

Risks associated with any borrowing in advance activity will be subject to prior appraisal and subsequent reporting through the mid-year or annual reporting mechanism.

6.9 **Debt rescheduling**

As short term borrowing rates will be considerably cheaper than longer term fixed interest rates, there may be potential opportunities to generate savings by switching from long term debt to short term debt. However, these savings will need to be considered in the light of the current treasury position and the size of the cost of debt repayment (premiums incurred).

The reasons for any rescheduling to take place will include:

- the generation of cash savings and/or discounted cash flow savings;
- helping to fulfil the treasury strategy;
- enhancement of the balance of the portfolio (amend the maturity profile and/or the balance of volatility).

Consideration will also be given to identifying any residual potential for making savings by running down investment balances to repay debt prematurely as short term rates on investments are likely to be lower than rates paid on current debt.

Adur's debt portfolio includes a large proportion of long term loans with a duration of over 10 years left to run, and at rates above prevailing market rates for equivalent loans. The cost to redeem these loans early would incur a large debt premium, making this an unaffordable option.

By contrast, Worthing's existing fixed rate debt portfolio is at or below current interest rates, so options for early settlement do not really apply.

All rescheduling will be reported to the Councils at the earliest meeting following its action.

6.10 Municipal Bond Agency

The Municipal Bond Agency intends to offer loans to local authorities in the future. It is hoped that the borrowing rates will be lower than those offered by the Public Works Loan Board (PWLB). These Authorities intends to make use of this new source of borrowing as and when appropriate.

Background - Investment Policy

- 7.1 The Councils' investment policy has regard to the CLG's Guidance on Local Government Investments ("the Guidance") and the revised CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes ("the CIPFA TM Code"). The Councils' investment priorities will be security first, liquidity second, then return.
- 7.2 The CLG's revised Guidance on investments reiterates security and liquidity as the primary objectives of a prudent investment policy. The speculative procedure of borrowing purely in order to invest is unlawful.
- 7.3 Investments are categorised as 'Specified' or 'Non Specified' investments based on the criteria in the CLG Guidance. Potential instruments for the Councils' use within its investment strategy are contained in Appendix A.
- 7.4 The credit crisis has refocused attention on the treasury management priority of security of capital monies invested. The Councils will continue to maintain a counterparty list based on the approved criteria and will monitor and update the credit standing of the institutions on a regular basis. This assessment will include credit ratings and other alternative assessments of credit strength as outlined in paragraphs below.

Creditworthiness Policy

- 7.5 The primary principle governing the Councils' joint treasury management service investment criteria is the security of investments, although the yield or return on the investment is also a key consideration. After this main principle, the service will ensure that:
 - It maintains a policy covering the categories of investment types it will invest
 in, criteria for choosing investment counterparties with adequate security, and
 monitoring their security. This is set out in the specified and non-specified
 investment sections below; and
 - It has sufficient liquidity in its investments. For this purpose it will set out procedures for determining the maximum periods for which funds may prudently be committed. These procedures also apply to the Councils' prudential indicators covering the maximum principal sums invested.

The Chief Financial Officer will maintain a counterparty list in compliance with the following criteria and will revise the criteria and submit them to Councils for approval as necessary. These criteria are separate to that which determines which types of investment instrument are either specified or non-specified as it provides an overall pool of counterparties considered high quality which the service may use, rather than defining what types of investment instruments are to be used.

Creditworthiness Policy

- 7.6 The Councils use the creditworthiness service provided by Link Asset Services Limited. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies Fitch, Moody's and Standard and Poor's. However, it does not rely solely on the current credit ratings of counterparties but also uses the following as overlays:
 - credit watches and credit outlooks from credit rating agencies
 - Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings
 - sovereign ratings to select counterparties from only the most creditworthy countries
- 7.7 The modelling approach combines credit ratings, credit watches and credit outlooks in a weighted scoring system which is combined with an overlay of CDS spreads. The result is a series of colour code bands for counterparties indicating the relative creditworthiness of each as they are categorised by durational bands. These bands are used by the Councils to form a view of the duration for investments by each counterparty. The Councils are satisfied that this service gives a robust level of analysis for determining the security of its investments. It is also a service which the Councils would not be able to replicate using its own in-house resources.
- 7.8 The selection of counterparties with a high level of creditworthiness will be achieved by reference to the minimum durational band proposed by Capita's weekly credit list of worldwide potential counterparties. The Councils will consider, but not necessarily adhere rigidly to, the categorised counterparties within the following durational bands: -
 - Yellow (Y) 5 years (UK Government debt or its equivalent)
 - Dark pink (Pi1) 5 years for Ultra Short Dated Bond Funds with a credit score of 1.25
 - Light pink (Pi2) 5 years for Ultra Short Dated Bond Funds with a credit score of 1.5
 - Purple (P) 2 years
 - Blue (B) 1 year (only applies to nationalised or semi nationalised UK Banks)
 - Orange (O) 1 year
 - Red (R) 6 months
 - Green (G) 100 days
 - No colour (N/C) not to be used

Creditworthiness Policy

- 7.9 Although the Link creditworthiness service does use ratings from all three agencies, the practice of using a risk weighted scoring system eliminates any tendency to give undue preponderance to just one agency's ratings.
- 7.10 Using Link's ratings service, potential counterparty ratings are monitored on a real time basis with knowledge of any changes notified electronically as the agencies notify modifications. The effect of a change in ratings may prompt the following responses:
 - If a downgrade results in the counterparty/investment scheme no longer meeting the Councils' minimum criteria, its further use as a new investment will be withdrawn immediately.
 - In addition to the use of Credit Ratings the Councils will be advised by Link of movements in Credit Default Swaps and other market data on a weekly basis.
 Extreme market movements may result in downgrade of an institution or removal from the Councils' lending lists.
- 7.11 The Councils' officers recognise that ratings should not be the sole determinant of the quality of an institution and that it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets, the government support for banks, and the credit ratings of that government support.
- 7.12 Accordingly, the Councils may exercise discretion to deviate from Link's suggested durational bands for counterparties where sudden changes in financial markets, the banking sector, or other circumstances warrant a more flexible approach being taken.

The Councils' Minimum Investment Creditworthiness Criteria

7.13 The minimum credit ratings criteria used by the Councils generally will be a short term rating (Fitch or equivalents) of F1, and long term rating A-. There may be occasions when the counterparty ratings from one or more of the three Ratings Agencies are marginally lower than the minimum requirements of F1 Short term, A-Long term (or equivalent). Where this arises, the counterparties to which the ratings apply may still be used with discretion, but in these instances consideration will be given to the whole range of topical market information available, not just ratings.

The Councils' Minimum Investment Creditworthiness Criteria

7.14 The Councils include the top five **building society** names in the specified investments. It is recognised that they may carry a lower credit rating than the Councils' other counterparties, therefore the lending limits for the building societies shall be £2m each, excepting that for Nationwide (the top building society) the lending limit shall be £4m

Country Limits and Proposed Monitoring Arrangements

7.15 Due care will be taken to consider the country, group and sector exposure of the Councils' investments.

The Councils have determined that they will only use approved counterparties from countries with a minimum sovereign credit rating of AA- from Fitch Ratings (or equivalent from other agencies if Fitch does not provide one). The list of countries that qualify using these credit criteria as at the date of this report is reflected in the counterparty approved lending list shown at Appendix A. This list will be added to, or deducted from, by officers should ratings change, in accordance with this policy. No more than 25% of investments shall be placed in non-UK financial institutions for more than 7 days.

- 7.16 The monitoring of the Councils' exposure to non-UK institutions is especially important in the present climate, particularly in respect of sovereign debt issues within Eurozone countries.
- 7.17 Although the Councils can control the foreign exposure for fixed term deposits via the choice of counterparties, the ability to do this for instant access Money Market Funds (MMFs) is more difficult, as the assets which comprise the funds generally consist of loans to other financial institutions (UK and worldwide).
- 7.18 Recognising the present financial climate, and that any investment is only as good as the underlying assets, the Councils shall use a Money Market Fund Portal for placing and redeeming transactions. This will allow access to information on the underlying composition of the MMFs, including the geographic spread of the underlying assets.

Investment Strategy

7.19 The Councils will avoid locking into longer term investments beyond 1 year duration while investment rates are down at historically low levels, unless attractive rates are available with counterparties of particularly high creditworthiness which make longer term deals worthwhile and within the risk parameters set by the Councils.

Investment Strategy

7.20 **Investment returns expectations** - Bank Rate is forecast to stay flat at 0.50% until quarter 4 2018 and not to rise above 1.25% by quarter 1 2021. Bank Rate forecasts for financial year ends (March) are:

2017/18	0.50%
2018/19	0.75%
2019/20	1.00%
2020/21	1.25%

7.21 The suggested budgeted investment earnings rates for returns on investments placed for periods up to about three months during each financial year for the current year and the next three years are as follows:

2017/18	0.40%
2018/19	0.60%
2019/20	0.90%
2020/21	1.25%

The overall balance of risks to these forecasts is currently skewed to the upside and are dependent on how strong GDP growth turns out, how quickly inflation pressures rise and how quickly the Brexit negotiations move forward positively.

7.22 **Investment treasury indicator and limit** - total principal funds invested for greater than 365 days. These limits are set with regard to the Councils' liquidity requirements and to reduce the need for early sale of an investment, and are based on the availability of funds.

The Councils are asked to approve the treasury indicators and limits:

ADUR DISTRICT COUNCIL

MAXIMUM PROPORTION OF PRINCIPAL SUMS INVESTED > 365 DAYS					
	2018/19 2019/20 2020/21				
Principal sums invested > 365 days	50%	50%	50%		

Investment Strategy

WORTHING BOROUGH COUNCIL

MAXIMUM PROPORTION OF PRINCIPAL SUMS INVESTED > 365 DAYS					
	2018/19 2019/20 2020/21				
Principal sums invested > 365 days	50%	50%	50%		

Investments managed in-house

- 7.23 In-house funds Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months). For its cash flow generated balances, the Councils will seek to utilise business reserve accounts and notice accounts, money market funds, and short-dated deposits (overnight to three months) in order to benefit from the compounding of interest.
- 7.24 The Chief Financial Officer, under delegated powers, will undertake the most appropriate form of investments in keeping with the investment objectives, income and risk management requirements and Prudential Indicators. Decisions taken on the core investment portfolio will be reported to the meetings of the JGC and JSC in accordance with the reporting arrangements contained in the Treasury Management Practices Statement.
- 7.25 In any sustained period of significant stress in the financial markets, the default position is for investments to be placed with The Debt Management Account Deposit Facility of the Debt Management Office (DMO) of the UK central government. The rates of interest are below equivalent money market rates, however, the returns are an acceptable trade-off for the guarantee that the Councils' capital is secure.
- 7.26 The Councils' proposed investment activity for placing cash deposits in 2018/19 will be amended to use:
 - AAA-rated Money Market Funds with a Constant Net Asset Value (CNAV) and their replacement Low Volatility Net Asset Value (LVNAV) funds under the new money market fund regulations
 - other local authorities
 - business reserve accounts and term deposits. These are primarily restricted to UK institutions that are rated at least A- long term.
 - the top five building societies by asset size

Other Options for Longer Term Investments

- 7.27 To provide the Councils with options to enhance returns above those available for short term durations, it is proposed to retain the option to use the following for longer term investments, as an alternative to cash deposits:
 - a) Supranational bonds greater than 1 year to maturity
 - (i) <u>Multilateral development bank bonds</u> These are bonds defined as an international financial institution having as one of its objects economic development, either generally or in any region of the world (e.g. European Reconstruction and Development Bank etc.).
 - (ii) A financial institution that is guaranteed by the United Kingdom Government (e.g. National Rail, The Guaranteed Export Finance Company {GEFCO})

The security of interest and principal on maturity is on a par with the Government and so very secure. These bonds usually provide returns above equivalent gilt edged securities. However the value of the bond may rise or fall before maturity and losses may accrue if the bond is sold before maturity.

- b) **Gilt edged securities** with a maturity of greater than one year. These are Government bonds and so provide the highest security of interest and the repayment of principal on maturity. Similar to category (a) above, the value of the bond may rise or fall before maturity and losses may accrue if the bond is sold before maturity.
- c) Building societies not meeting the basic security requirements under the specified investments. The operation of some building societies does not require a credit rating, although in every other respect the security of the society would match similarly sized societies with ratings. The Council may use the top five building societies by asset size up to £2m, (£4m Nationwide).
- d) Any bank or building society that has a minimum long term credit rating of A- for deposits with a maturity of greater than one year (including forward deals in excess of one year from inception to repayment).
- e) Any **non-rated subsidiary** of a credit rated institution included in the specified investment category. These institutions will be included as an investment category subject to a guarantee from the parent company, and exposure up to the limit applicable to the parent.

Other Options for Longer Term Investments

- f) Registered Social Landlords (Housing Associations) subject to confirming the Councils have appropriate powers, consideration will be given to lending to Registered Social Landlords. Such lending may either be as an investment for treasury management purposes, or for the provision of "social policy or service investment", that would not normally feature within the Treasury Management Strategy.
- g) **Property Investment Funds** for example the Local Authority Property Fund. The Councils will consult the Treasury Management Advisors and undertake appropriate due diligence before investment of this type is undertaken. Some of these funds are deemed capital expenditure the Councils will seek guidance on the status of any fund considered for investment.
- h) **Share capital** in a body corporate The use of these instruments will be deemed to be capital expenditure, and as such will be an application (spending) of capital resources. Revenue resources will not be invested in corporate bodies.
- i) **Loan capital** in a body corporate.

(Note: For (h) and (i) above the Councils will seek further advice on the appropriateness and associated risks with investments in these categories as and when an opportunity presents itself).

- 7.28 **The accounting treatment** may differ from the underlying cash transactions arising from investment decisions made by the Councils. To ensure that the Councils are protected from any adverse revenue impact, which may arise from these differences, the accounting implications of new transactions will be reviewed before they are undertaken.
- 7.29 The Councils will not transact in any investment that may be deemed to constitute capital expenditure (e.g. Share Capital, or pooled investment funds other than Money Market Funds), without the resource implications being approved as part of the consideration of the Capital Programme or other appropriate Committee report.
- 7.30 **Investment risk benchmarking** the Councils will subscribe to Link's Investment Benchmarking Club to review the investment performance and risk of the portfolios.

8. OTHER MATTERS

8.1 **Balanced budget requirement** - the Councils comply with the provisions of S32 of the Local Government Finance Act 1992 to set a balanced budget.

8. OTHER MATTERS

8.2 **Worthing Leisure Trust** - the arrangements for establishing The Worthing Leisure Trust include provision for Worthing Council to provide the Trust with temporary cash flow advances (if required) up to a maximum of £500k to assist it in the early start-up years. Such advances as may be made shall be repayable as soon as practical and attract a rate of interest for the loan term of Bank Base Rate plus 5%.

9. ENGAGEMENT AND COMMUNICATION

- 9.1 The Adur and Worthing Councils' treasury management team provides treasury services to Mid Sussex District Council through a shared services arrangement (SSA). The SSA is provided under a Service Level Agreement that was renewed from 18th October 2016, and which defines the respective roles of the client and provider authorities for a period of three years.
- 9.2 Information and advice is supplied throughout the year by Link Asset Services Ltd, the professional consultants for the Councils' shared treasury management service.

10. FINANCIAL IMPLICATIONS

10.1 This report has no quantifiable additional financial implications to those outlined above. Interest payable and interest receivable arising from treasury management operations, and annual revenue provisions for repayment of debt, form part of the revenue budget.

Finance Officer: Sarah Gobey Date: 18th January 2018

11. LEGAL IMPLICATIONS

11.1 The approval and adoption of the Treasury Management Strategy Statement, Annual Investment Strategy, Minimum Revenue Provision Policy and Prudential Indicators is required by regulations issued under the Local Government Act 2003.

Legal Officer: Susan Sale **Date**: 18th January 2018

SUSTAINABILITY & RISK ASSESSMENT

1. ECONOMIC

The treasury management function ensures that the Councils have sufficient liquidity to finance their day to day operations. Borrowing is arranged as required to fund the capital programmes. Available funds are invested according to the specified criteria to ensure security of the funds, liquidity and, after these considerations, to maximise the rate of return.

2. SOCIAL

2.1 Social Value

Matter considered and no issues identified.

2.2 Equality Issues

Matter considered and no issues identified.

2.3 Community Safety Issues (Section 17)

Matter considered and no issues identified.

2.4 Human Rights Issues

Matter considered and no issues identified.

3. ENVIRONMENTAL

Matter considered and no issues identified.

4. GOVERNANCE

- 4.1 The Councils' Treasury Management Strategy and Annual Investment Strategy place the security of investments as foremost in considering all treasury management dealing. By so doing it contributes towards the Council priorities contained in Platforms for our Places.
- 4.2 The operation of the treasury management function is as approved by the Councils' Treasury Management Strategy and Annual Investment Strategy 2018/19 2020/21, submitted and approved before the commencement of the 2018/19 financial year.
- 4.3 In the current economic climate the security of investments is paramount, the management of which includes regular monitoring of the credit ratings and other incidental information relating to credit worthiness of the Councils' investment counterparties.

SPECIFIED AND NON SPECIFIED INVESTMENTS

SPECIFIED AND NON SPECIFIED INVESTMENTS

Specified Investments identified for use by the Councils

Specified Investments will be those that meet the criteria in the CLG Guidance, i.e. the investment

- is sterling denominated
- has a maximum maturity of 1 year
- meets the "high" credit criteria as determined by the Councils or is made with the UK government or is made with a local authority in England, Wales and Scotland.
- the making of which is not defined as capital expenditure under section 25(1)(d) in SI 2003 No 3146 (i.e. the investment is not loan capital or share capital in a body corporate).

"Specified" Investments identified for the Councils' use are:

- Deposits in the DMO's Debt Management Account Deposit Facility
- Deposits with UK local authorities
- Deposits with banks and building societies
- *Certificates of deposit with banks and building societies
- *Gilts: (bonds issued by the UK government)
- *Bonds issued by multilateral development banks
- AAA-rated Money Market Funds with a Constant Net Asset Value (Constant NAV) or appropriate Low Volatility Net Asset Value (LVNAV) under the new regulations.
- Other Money Market Funds and Collective Investment Schemes

 i.e. credit rated funds which meet the definition of a collective investment scheme as defined in SI 2004 No 534 and SI 2007 No 573.
 - * Investments in these instruments will be on advice from the Councils' treasury advisor.

For credit rated counterparties, the minimum criteria, excepting for the Councils' own banker and the specified building societies, (see below) will be the short-term / long-term ratings assigned by various agencies which may include Moody's Investors Services, Standard and Poor's, Fitch Ratings, being:

Long-term investments (365 days or more): minimum: A- (Fitch) or equivalent Or

Short-term investments (365 days or less): minimum F1 (Fitch) or equivalent

For all investments the Councils will also take into account information on corporate developments of, and market sentiment towards, investment counterparties.

ADUR DISTRICT COUNCIL - SPECIFIED AND NON SPECIFIED INVESTMENTS

Specified Investments identified for use by the Council New specified investments will be made within the following limits:

Instrument	Country and Sovereign Rating	Counterparty	Maximum Exposure Limit £m
Term Deposits	UK – AA	DMADF, DMO	No limit

Term Deposits/Call Accounts	UK – AA	Royal Bank of Scotland Group	£4m
Term Deposits /Call / Overnight Accounts	UK – AA	Close Brothers Limited	£4m
Term Deposits/Call Accounts	Germany – AAA	Deutsche Bank AG	£3m
Term Deposits/Call Accounts	Australia – AAA	National Australia Bank	£3m
Term Deposits/Call Accounts	US – AAA	JP Morgan Chase Bank	£3m
Term Deposits/Call Accounts	UK – AA	Goldman Sachs International Bank	£3m
Gilts	UK – AA	Debt Management office (DMO)	£3m or 25% of funds
Bonds	EU	European Investment Bank/Council of Europe	£3m or 25% of funds

ADUR DISTRICT COUNCIL SPECIFIED AND NON SPECIFIED INVESTMENTS

Specified Investments identified for use by the Council

New specified investments will be made within the following limits:

Instrument	Country and Sovereign Rating	Counterparty	Maximum Exposure Limit £m
AAA Rated Money Market Funds	UK/Ireland incorporated	Constant Net Asset Value or appropriate replacement LVNAV MMFs	£5m or 30% of funds
Other MMFs and CIS	UK – AA	Collective Investment Schemes	25%
Term Deposits	UK – AA	Nationwide BS	£4m
Term Deposits	UK – AA	Yorkshire BS	£2m
Term Deposits	UK – AA	Coventry BS	£2m
Term Deposits	UK – AA	Skipton BS	£2m
Term Deposits	UK – AA	Leeds BS	£2m
Share Capital	n/a	Local Capital Finance Company.	£0.05m
Share Capital/Loans	n/a	West Sussex Credit Union	£0.025k Share Capital

NB Any existing deposits outside of the current criteria will be reinvested with the above criteria on maturity.

NB No more than 25% of funds shall be invested in Non-UK financial institutions whether by term deposits, call accounts or Money Market Funds, or any combination thereof, except that this limit may be breached for liquidity purposes for up to 1 week at any time.

NB Investments in AAA rated Money Market Funds are limited to £5m or 30% of funds except that this limit may be breached for liquidity purposes for up to 1 week at any time.

ADUR DISTRICT COUNCIL NON-SPECIFIED INVESTMENTS DETERMINED FOR USE BY THE COUNCIL:

Having considered the rationale and risk associated with Non-Specified Investments, the following have been determined for the Council's use.

	In-house use	Use by Fund Managers	Maximum Maturity	Maximum % of portfolio or £m	Capital Expenditure?
 Deposits with banks and building societies Certificates of deposit with banks and building societies 	√ √	V	5 years	The higher of £8m or 50% of funds, maximum of £2m per institution	No
Gilts and Bonds: Gilts Bonds issued by multilateral development banks Bonds issued by financial institutions guaranteed by the UK government Sterling denominated bonds by non-UK sovereign governments	√ √ (on advice from treasury advisor)	\ \ \	5 years	The higher of £3m or 25% of funds	No
Money Market Funds and Collective Investment Schemes (pooled funds which meet the definition of a collective investment scheme as defined in SI 2004 No. 534 and SI 2007, No. 573), but which are not credit rated.	√ (on advice from treasury advisor)	\checkmark	These funds do not have a defined maturity date.	The higher of £5m or 30% of funds, maximum of £3m per fund	No
Government guaranteed bonds and debt instruments (e.g. floating rate notes) issued by corporate bodies	√ (on advice from treasury advisor)	V	5 years	The higher of £2m or 10% of funds	Yes

SPECIFIED AND NON SPECIFIED INVESTMENTS

ADUR DISTRICT COUNCIL NON-SPECIFIED INVESTMENTS DETERMINED FOR USE BY THE COUNCIL:

	In-house use	Use by Fund Managers	Maximum Maturity	Maximum % of portfolio or £m	Capital Expenditure?
Non-guaranteed bonds and debt instruments (e.g. floating rate notes) issued by corporate bodies	√ (on advice from treasury advisor)	V	5 years	The higher of £2m or 10% of funds	Yes
Property Funds approved by HM Treasury and operated by managers regulated by the Financial Conduct Authority, such as the Local Authorities' Property Fund	√ (on advice from treasury advisor)	V	These funds do not have a defined maturity date	The higher of £2m or 10% of funds	To be confirmed
Collective Investment Schemes (pooled funds) which do not meet the definition of collective investment schemes in SI 2004 No. 534 or SI 2007, No. 573.	√ (on advice from treasury advisor)	V	These funds do not have a defined maturity date	The higher of £2m or 20% of funds	Yes

- 1. In determining the period to maturity of an investment, the investment should be regarded as commencing on the date of the commitment of the investment rather than the date on which funds are paid over to the counterparty.
- 2. The use of the above instruments by the Council's fund manager(s) will be by reference to the fund guidelines contained in the agreement between the Council and the individual manager.

WORTHING BOROUGH COUNCIL SPECIFIED AND NON SPECIFIED INVESTMENTS

- 1. In determining the period to maturity of an investment, the investment should be regarded as commencing on the date of the commitment of the investment rather than the date on which funds are paid over to the counterparty.
- 2. The use of the above instruments by the Council's fund manager(s) will be by reference to the fund guidelines contained in the agreement between the Council and the individual manager.

COUNTERPARTIES WHERE THE COUNCILS HAVE OPTED UP TO PROFESSONAL INVESTOR STATUS

(i) Money Market Funds

Invesco Federated Investors CCLA

(ii) Building Societies

Skipton Building Society Coventry Building Society

(iii) Brokers

BGC (Sterling) Tradition ICAP

(iv) Other

ICD (Portal used for money market fund investments) Link Asset Services

These arrangements will be regularly reviewed as appropriate.

TREASURY MANAGEMENT SCHEME OF DELEGATION

(i) Full Council

- receiving and reviewing reports on treasury management policies, practices and activities
- approval of annual Treasury Management Strategy Statement and Annual Investment Strategy
- approval of MRP Statement

(ii) Joint Strategic Committee

- approval of/amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices
- budget consideration and approval
- approval of the division of responsibilities
- receiving and reviewing regular monitoring reports and acting on recommendations
- approving the selection of external service providers and agreeing terms of appointment.

(iii) Joint Governance Committee

Receiving and reviewing the following, and making recommendations to the Joint Strategic Committee

• regular monitoring reports on compliance with the Treasury Management Strategy, practices and procedures.

(iv) The S151 (responsible) officer

- recommending clauses, treasury management policy/practices for approval, reviewing the same regularly, and monitoring compliance
- submitting regular treasury management policy reports
- submitting budgets and budget variations
- receiving and reviewing management information reports
- reviewing the performance of the treasury management function
- ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function
- ensuring the adequacy of internal audit, and liaising with external audit
- recommending the appointment of external service providers.

TREASURY MANAGEMENT SCHEME OF DELEGATION

The revised CIPFA Treasury Management and Prudential Codes has extended the functions of the S151 role in respect of non-financial investments. Guidance notes giving specific information will follow, but additional responsibilities are likely to include:

- preparation of a capital strategy to include capital expenditure, capital financing, non-financial investments and treasury management
- ensuring that the capital strategy is prudent, sustainable and affordable in the long term and provides value for money
- ensuring that due diligence has been carried out on all treasury and nonfinancial investments and is in accordance with the risk appetite of the authorities
- ensuring that the authority has appropriate legal powers to undertake expenditure on non-financial assets and their financing
- ensuring the proportionality of all investments so that the authority does not undertake a level of investing which exposes the authority to an excessive level of risk compared to its financial resources
- ensuring that an adequate governance process is in place for the approval, monitoring and ongoing risk management of all non-financial investments and long term liabilities
- provision to members of a schedule of all non-treasury investments including material investments in subsidiaries, joint ventures, loans and financial guarantees
- ensuring that members are adequately informed and understand the risk exposures taken on by an authority
- ensuring that the authority has adequate expertise, either in house or externally provided, to carry out the above
- creation of Treasury Management Practices which specifically deal with how non treasury investments will be carried out and managed

ECONOMIC BACKGROUND

GLOBAL OUTLOOK. World growth looks to be on an encouraging trend of stronger performance, rising earnings and falling levels of unemployment. In October, the IMF upgraded its forecast for world growth from 3.2% to 3.6% for 2017 and 3.7% for 2018.

In addition, inflation prospects are generally muted and it is particularly notable that wage inflation has been subdued despite unemployment falling to historically very low levels in the UK and US. This has led to many comments by economists that there appears to have been a fundamental shift downwards in the Phillips curve (this plots the correlation between levels of unemployment and inflation e.g. if the former is low the latter tends to be high). In turn, this raises the question of what has caused this? The likely answers probably lay in a combination of a shift towards flexible working, self-employment, falling union membership and a consequent reduction in union power and influence in the economy, and increasing globalisation and specialisation of individual countries, which has meant that labour in one country is in competition with labour in other countries which may be offering lower wage rates, increased productivity or a combination of the two. In addition, technology is probably also exerting downward pressure on wage rates and this is likely to grow with an accelerating movement towards automation, robots and artificial intelligence, leading to many repetitive tasks being taken over by machines or computers. Indeed, this is now being labelled as being the start of the fourth industrial revolution.

KEY RISKS - central bank monetary policy measures

Looking back on nearly ten years since the financial crash of 2008 when liquidity suddenly dried up in financial markets, it can be assessed that central banks' monetary policy measures to counter the sharp world recession were successful. The key monetary policy measures they used were a combination of lowering central interest rates and flooding financial markets with liquidity, particularly through unconventional means such as Quantitative Easing (QE), where central banks bought large amounts of central government debt and smaller sums of other debt.

The key issue now is that that period of stimulating economic recovery and warding off the threat of deflation is coming towards its close and a new period has already started in the US, and more recently in the UK, on reversing those measures i.e. by raising central rates and (for the US) reducing central banks' holdings of government and other debt. These measures are now required in order to stop the trend of an on-going reduction in spare capacity in the economy, and of unemployment falling to such low levels that the reemergence of inflation is viewed as a major risk. It is, therefore, crucial that central banks get their timing right and do not cause shocks to market expectations that could destabilise financial markets. In particular, a key risk is that because QE-driven purchases of bonds drove up the price of government debt, and therefore caused a sharp drop in income yields, this then also encouraged investors into a search for yield and into investing in riskier assets such as equities.

ECONOMIC BACKGROUND

This resulted in bond markets and equity market prices both rising to historically high valuation levels simultaneously. This, therefore, makes both asset categories vulnerable to a sharp correction. It is important, therefore, that central banks only gradually unwind their holdings of bonds in order to prevent destabilising the financial markets. It is also likely that the timeframe for central banks unwinding their holdings of QE debt purchases will be over several years. They need to balance their timing to neither squash economic recovery by taking too rapid and too strong action, or, alternatively, let

inflation run away by taking action that was too slow and/or too weak. The potential for central banks to get this timing and strength of action wrong are now key risks.

There is also a potential key question over whether economic growth has become too dependent on strong central bank stimulus and whether it will maintain its momentum against a backdrop of rising interest rates and the reversal of QE. In the UK, a key vulnerability is the low level of productivity growth, which may be the main driver for increases in wages; and decreasing consumer disposable income, which is important in the context of consumer expenditure primarily underpinning UK GDP growth.

A further question that has come to the fore is whether an inflation target for central banks of 2%, is now realistic given the shift down in inflation pressures from internally generated inflation, (i.e. wage inflation feeding through into the national economy), given the above mentioned shift down in the Phillips curve.

- Some economists favour a shift to a lower inflation target of 1% to emphasise the need to keep the lid on inflation. Alternatively, it is possible that a central bank could simply 'look through' tepid wage inflation, (i.e. ignore the overall 2% inflation target), in order to take action in raising rates sooner than might otherwise be expected.
- However, other economists would argue for a shift UP in the inflation target to 3% in order to ensure that central banks place the emphasis on maintaining economic growth through adopting a slower pace of withdrawal of stimulus.
- In addition, there is a strong argument that central banks should target financial market stability. As mentioned previously, bond markets and equity markets could be vulnerable to a sharp correction. There has been much commentary, that since 2008, QE has caused massive distortions, imbalances and bubbles in asset prices, both financial and non-financial. Consequently, there are widespread concerns at the potential for such bubbles to be burst by exuberant central bank action. On the other hand, too slow or weak action would allow these imbalances and distortions to continue or to even inflate them further.

ECONOMIC BACKGROUND

• Consumer debt levels are also at historically high levels due to the prolonged period of low cost of borrowing since the financial crash. In turn, this cheap borrowing has meant that other non-financial asset prices, particularly house prices, have been driven up to very high levels, especially compared to income levels. Any sharp downturn in the availability of credit, or increase in the cost of credit, could potentially destabilise the housing market and generate a sharp downturn in house prices. This could then have a destabilising effect on consumer confidence, consumer expenditure and GDP growth. However, no central bank would accept that it ought to have responsibility for specifically targeting house prices.

UK. After the UK surprised on the upside with strong economic growth in 2016, growth in 2017 has been disappointingly weak; quarter 1 came in at only +0.3% (+1.8% y/y), quarter 2 was +0.3% (+1.5% y/y) and quarter 3 was +0.4% (+1.5% y/y). The main reason for this has been the sharp increase in inflation, caused by the devaluation of sterling after the EU referendum, feeding increases in the cost of imports into the economy. This has caused, in turn, a reduction in consumer disposable income and spending power and so the services sector of the economy, accounting for around 80% of GDP, has seen weak growth as consumers cut back on their expenditure. However, more recently there have been encouraging statistics from the manufacturing sector which is seeing strong growth, particularly as a result of increased demand for exports. It has helped that growth in the EU, our main trading partner, has improved significantly over the last year while robust world growth has also been supportive. However, this sector only accounts for around 10% of GDP so expansion in this sector will have a much more muted effect on the overall GDP growth figure for the UK economy as a whole.

While the Bank of England is expected to give forward guidance to prepare financial markets for gradual changes in policy, the Monetary Policy Committee, (MPC), meeting of 14 September 2017 managed to shock financial markets and forecasters by suddenly switching to a much more aggressive tone in terms of its words around warning that Bank Rate will need to rise soon. The Bank of England Inflation Reports during 2017 have clearly flagged up that it expected CPI inflation to peak at just under 3% in 2017, before falling back to near to its target rate of 2% in two years' time. The Bank revised its forecast for the peak to just over 3% at the 14 September meeting. (Inflation actually came in at 3.0% in both September and October so that might prove now to be the peak.) This marginal revision in the Bank's forecast can hardly justify why the MPC became so aggressive with its wording; rather, the focus was on an emerging view that with unemployment having already fallen to only 4.3%, the lowest level since 1975, and improvements in productivity being so weak, that the amount of spare capacity in the economy was significantly diminishing towards a point at which they now needed to take action. In addition, the MPC took a more tolerant view of low wage inflation as this now looks like a common factor in nearly all western economies as a result of automation and globalisation. However, the Bank was also concerned that the withdrawal of the UK from the EU would effectively lead to a decrease in such globalisation pressures in the UK, and so this would cause additional inflationary pressure over the next few years.

ECONOMIC BACKGROUND

At Its 2 November meeting, the MPC duly delivered a 0.25% increase in Bank Rate. It also gave forward guidance that they expected to increase Bank Rate only twice more in the next three years to reach 1.0% by 2020. This is, therefore, not quite the 'one and done' scenario but is, nevertheless, a very relaxed rate of increase prediction in Bank Rate in line with previous statements that Bank Rate would only go up very gradually and to a limited extent.

However, some forecasters are flagging up that they expect growth to accelerate significantly towards the end of 2017 and then into 2018. This view is based primarily on the coming fall in inflation, (as the effect of the effective devaluation of sterling after the EU referendum drops out of the CPI statistics), which will bring to an end the negative impact on consumer spending power. In addition, a strong export performance will compensate for weak services sector growth. If this scenario was indeed to materialise, then the MPC would be likely to accelerate its pace of increases in Bank Rate during 2018 and onwards.

It is also worth noting the contradiction within the Bank of England between action in 2016 and in 2017 by two of its committees. After the shock result of the EU referendum, the Monetary Policy Committee (MPC) voted in August 2016 for emergency action to cut Bank Rate from 0.50% to 0.25%, restarting £70bn of QE purchases, and also providing UK banks with £100bn of cheap financing. The aim of this was to lower borrowing costs, stimulate demand for borrowing and thereby increase expenditure and demand in the economy. The MPC felt this was necessary in order to ward off their expectation that there would be a sharp slowdown in economic growth. Instead, the economy grew robustly, although the Governor of the Bank of England strongly maintained that this was because the MPC took that action. However, other commentators regard this emergency action by the MPC as being proven by events to be a mistake. Then in 2017, we had the Financial Policy Committee (FPC) of the Bank of England taking action in June and September over its concerns that cheap borrowing rates, and easy availability of consumer credit, had resulted in too rapid a rate of growth in consumer borrowing and in the size of total borrowing, especially of unsecured borrowing. It, therefore, took punitive action to clamp down on the ability of the main banks to extend such credit! Indeed, a PWC report in October 2017 warned that credit card, car and personal loans and student debt will hit the equivalent of an average of £12,500 per household by 2020. However, averages belie wide variations in levels of debt with much higher exposure being biased towards younger people, especially the 25 -34 year old band, reflecting their lower levels of real income and asset ownership.

One key area of risk is that consumers may have become used to cheap rates since 2008 for borrowing, especially for mortgages. It is a major concern that some consumers may have over extended their borrowing and have become complacent about interest rates going up after Bank Rate had been unchanged at 0.50% since March 2009 until falling further to 0.25% in August 2016. This is why forward guidance from the Bank of England continues to emphasise slow and gradual increases in Bank Rate in the coming years.

ECONOMIC BACKGROUND

However, consumer borrowing is a particularly vulnerable area in terms of the Monetary Policy Committee getting the pace and strength of Bank Rate increases right - without causing a sudden shock to consumer demand, confidence and thereby to the pace of economic growth.

Moreover, while there is so much uncertainty around the Brexit negotiations, consumer confidence, and business confidence to spend on investing, it is far too early to be confident about how the next two to three years will actually pan out.

EZ. Economic growth in the eurozone (EZ), (the UK's biggest trading partner), had been lack lustre for several years after the financial crisis despite the ECB eventually cutting its main rate to -0.4% and embarking on a massive programme of QE. However, growth picked up in 2016 and has now gathered substantial strength and momentum thanks to this stimulus. GDP growth was 0.6% in quarter 1 (2.0% y/y), 0.7% in quarter 2 (2.3% y/y) and +0.6% in quarter 3 (2.5% y/y). However, despite providing massive monetary stimulus, the European Central Bank is still struggling to get inflation up to its 2% target and in November inflation was 1.5%. It is therefore unlikely to start on an upswing in rates until possibly 2019. It has, however, announced that it will slow down its monthly QE purchases of debt from €60bn to €30bn from January 2018 and continue to at least September 2018.

USA. Growth in the American economy was notably erratic and volatile in 2015 and 2016. 2017 is following that path again with quarter 1 coming in at only 1.2% but quarter 2 rebounding to 3.1% and quarter 3 coming in at 3.32%. Unemployment in the US has also fallen to the lowest level for many years, reaching 4.1%, while wage inflation pressures, and inflationary pressures in general, have been building. The Fed has started on a gradual upswing in rates with four increases in all and three increases since December 2016; and there could be one more rate rise in 2017, which would then lift the central rate to 1.25 – 1.50%. There could then be another four increases in 2018. At its September meeting, the Fed said it would start in October to gradually unwind its \$4.5 trillion balance sheet holdings of bonds and mortgage backed securities by reducing its reinvestment of maturing holdings.

CHINA. Economic growth has been weakening over successive years, despite repeated rounds of central bank stimulus; medium term risks are increasing. Major progress still needs to be made to eliminate excess industrial capacity and the stock of unsold property, and to address the level of non-performing loans in the banking and credit systems.

JAPAN. GDP growth has been gradually improving during 2017 to reach an annual figure of 2.1% in quarter 3. However it has still been struggling to stimulate consistent significant growth and to get inflation up to its target of 2.1%, despite huge monetary and fiscal stimulus. It is also making little progress on fundamental reform of the economy.

LINK ASSET SERVICES COMMENTARY ON THE GLOBAL ECONOMY ECONOMIC BACKGROUND

Brexit timetable and process

- March 2017: UK government notifies the European Council of its intention to leave under the Treaty on European Union Article 50
- March 2019: initial two-year negotiation period on the terms of exit. In her Florence speech in September 2017, the Prime Minister proposed a two year transitional period after March 2019.
- UK continues as a full EU member until March 2019 with access to the single market and tariff free trade between the EU and UK. Different sectors of the UK economy will leave the single market and tariff free trade at different times during the two year transitional period.
- The UK and EU would attempt to negotiate, among other agreements, a bi-lateral trade agreement over that period.
- The UK would aim for a negotiated agreed withdrawal from the EU, although the UK could also exit without any such agreements in the event of a breakdown of negotiations.
- If the UK exits without an agreed deal with the EU, World Trade Organisation rules and tariffs could apply to trade between the UK and EU but this is not certain.
- On full exit from the EU: the UK parliament would repeal the 1972 European Communities Act.
- The UK will then no longer participate in matters reserved for EU members, such as changes to the EU's budget, voting allocations and policies.

Joint Governance Committee 30 January 2018 Agenda Item 9

Ward: [n/a]

Disaster Recovery Test

Report by the Director for Digital & Resources

1.0 Summary

1.1 This document provides an overview of the proposed Information Technology (IT) Disaster Recovery (DR) test, which is scheduled for the weekend of the 16th and 17th June 2018. The following weekend (23rd/24th June) has also been booked in as a contingency in the event that the earlier proposed date has to be cancelled due to unforseen circumstances.

2.0 Background

- 2.1 An IT DR test, to demonstrate we can recover and run systems in the event of a mains power outage, was previously scheduled for 14th October 2017 but was postponed the day before due to a major incident that occured on the Academy Revenue & Benefits system, which had just been brought back in-house.
- 2.2 The database associated with revenues and benefits system was considered as unstable by the supplier (Capita) and the DR test therefore posed too greater risk to the system, operational activities, and the council's reputation. Furthermore, the DR test would have drawn on resources required to resolve the major incident and restore normal service.
- 2.3 The need to execute the DR test still exists; the cancellation referenced above was not the first cancellation and this specific test has not been carried out in recent years.

3.0 Proposals

3.1 It is proposed to carry out a DR test over the weekend of the 16th and 17th June 2018. This test will follow the nature of the previous plan, which was to invoke a mains power failure to demonstrate systems can be safely and automatically shut down by the data centre power systems and can be brought back online with full functionality whilst running on generator power.

- 3.2 At this point, the date has been agreed with Facilities Management and measures are in place to prevent the booking of public events at the Town Hall over the selected weekend. Over the chosen weekend, there are events booked in the evening at the Assembly Rooms, but the risk of the DR test affecting those events is extremely low i.e. the risk is not being able to restore power. This will be mitigated by having electrical contractors onsite for the duration of the switch between mains and generator power. Following Cllr Barton's suggestion, the following weekend (23rd and 24th) June has been booked in as a fall back date in the event that the earlier weekend has to be postponed due to unforseen circumstances.
- 3.3 Wider Disaster Recovery/ Business Continuity Controls
- 3.4 It should be noted that this DR test one of a number of measures forming part of the Councils overall resilience and business continuity plans. The council employs a Business Continuity Manager who works with services to maintain their preparedness plans for unforseen events.
- 3.5 The Councils have a Strategic Duty Officer on call every day (consisting of a member of CLT or a Head of Service) who are trained to provide leadership in an emergency situation. The Strategic Duty Officer is supported by key technical officers from relevant disciplines including ICT and Digital.
- 3.6 In relation to ICT resilience there is an in-flight project to move the underpinning infrastructure services to a cloud-hosting provider (the Infrastructure as a Service laaS project). The successful delivery of this 'cloud hosting' project (through 2018) will start the process of removing the reliance on the Town Hall for the operation of IT services used by the councils and their customers.
- 3.7 It should also be noted that a number of key services have already been moved to off-site, resilient cloud-hosting, such as the email service (via Google), waste management operations, housing register, Adur Homes housing repairs (in progress) and contact centre CRM. Planning and building control services are also due to follow shortly. All of these services run independently of the Councils' data centre and can be accessed securely via the internet from any location or device.
- 3.8 Whilst the DR test outlined in this report will provide greater assurances in terms of dealing with an unplanned power outage, it does not address the risks associated with the potential loss of the Town Hall (eg due to flooding or fire damage). The migration of servers to the cloud as part of laaS will reduce these risks as well as improving the resilience and flexibility of the service.
- 3.9 The Councils have also invested in technology which will enable the establishment of an emergency control room or contact centre in the event of Portland House or the Town Hall not being available and to act as a control centre in the event of a disaster. This technology will be put through further testing in the coming months.

4.0 Legal

4.1 Section 111 Local Government Act 1972 provides that the Council shall have the power to do anything (whether or not involving expenditure, borrowing, or lending of money or the acquisition or disposal of any property or right) which is calculated to facilitate, or is conducive or incidental to the discharge of any of their functions.

5.0 Financial implications

5.1 It is recommended that a budget of £6K is allocated for the DR test. This budget will cover the cost of the generator hire and other external specialists that will be required on site to support the tests and mitigate risks e.g. electrical engineers and support for the fire suppression facilities in the data centre.

6.0 Recommendation

6.1 The Committee is asked to note the proposals for the DR test in May 2018.

Local Government Act 1972 Background Papers:

None.

Robert Wood - Interim ICT & Digital Manager robert.wood@adur-worthing.gov.uk
Tel

Schedule of Other Matters

1.0 Council Priority

1.1 The resilience of the Council's ICT and Digital Infrastructure is critical to our ability to deliver our services. This DR test will provide assurance regarding the ability of our services to recover from an unplanned power outage.

2.0 Specific Action Plans

2.1 Matter considered and no issues identified.

3.0 Sustainability Issues

3.1 Matter considered and no issues identified.

4.0 Equality Issues

4.1 Matter considered and no issues identified.

5.0 Community Safety Issues (Section 17)

5.1 Matter considered and no issues identified.

6.0 Human Rights Issues

6.1 Matter considered and no issues identified.

7.0 Reputation

7.1 Not having robust DR procedures in place can adversely affect the reputation of the council

8.0 Consultations

8.1 Key officers have been consulted on the proposlas.

9.0 Risk Assessment

- 9.1 There were several risks identified in the previous DR test planning exercise and these risks will be reviewed and managed accordingly.
- 9.2 The most significant risk is that the IT systems encounter issues when power is restored, which is because there has not been a complete power-down scenario for many years. This will be mitigated by ensuring the data centre power facilities are configured to shut down systems in a safe and controlled manner, and that full systems backups are completed prior to the test.

9.3 There are risks associated with not carrying out the DR test because the risks highlighted in 9.2 (IT systems encountering issues when being powered on) are likely to carry a greater impact if there was a real scenario involving power loss. The DR test will demonstrate the the integrity of the systems can be maintained under these circumstances and facilitate learning to repond in the best possible way in a real scenario.

10.0 Health & Safety Issues

10.1 Matter considered and no issues identified.

11.0 Procurement Strategy

11.1 Matter considered and no issues identified.

12.0 Partnership Working

12.1 Matter considered and no issues identified.
