

WORTHING BOROUGH
COUNCIL

29 January 2024

Worthing Cabinet	
Date:	6 February 2024
Time:	6.30 pm
Venue:	Worthing Football Club (Stand Bar), Woodside Road, Worthing BN14 7HQ

Committee Membership: Councillors Dr Beccy Cooper (Chairman), Carl Walker (Vice-Chair), Caroline Baxter, Sophie Cox, Rita Garner, Emma Taylor-Beal, John Turley, Vicki Wells and Rosey Whorlow

Agenda

Part A

1. Declarations of Interest

Members and officers must declare any disclosable pecuniary interests in relation to any business on the agenda. Declarations should also be made at any stage such an interest becomes apparent during the meeting.

If in doubt contact the Legal or Democratic Services representative for this meeting.

2. Public Questions

To receive any questions from members of the public.

Questions should be submitted by noon on Thursday 1 February 2024 to Democratic Services, democratic.services@adur-worthing.gov.uk

(Note: Public Question Time will operate for a maximum of 30 minutes)

3. Members Questions

Pre-submitted Members questions are pursuant to rule 12 of the Council & Committee Procedure Rules.

Questions should be submitted by noon on Thursday 1 February 2024 to Democratic Services, democratic.services@adur-worthing.gov.uk

(Note: Member Question Time will operate for a maximum of 30 minutes)

4. Items raised under urgency Provisions

To consider any items the Chairman of the meeting considers to be urgent.

5. A report to determine the level of Council Tax Premiums and Discounts for Empty Properties and Second Homes (Pages 3 - 18)

To consider a report from the Director for Housing and Communities a copy is attached as item 5

6. Budget Estimates 2024/25 and setting of the 2024/25 Council Tax (Pages 19 - 88)

To consider a report from the Director for Sustainability & Resources, a copy is attached as item 6.

7. Investing in our Places - Capital Programme 2024/25 to 2026/27 (Pages 89 - 150)

To consider a report by the Director for Sustainability and Resources, copy attached as item 7

Recording of this meeting

Please note that this meeting is being live streamed and a recording of the meeting will be available on the Council's website. This meeting will remain on our website for one year and will be deleted after that period. The Council will not be recording any discussions in Part B of the agenda (where the press and public have been excluded).

For Democratic Services enquiries relating to this meeting please contact:	For Legal Services enquiries relating to this meeting please contact:
Chris Cadman-Dando Senior Democratic Services Officer 01903 221364 chris.cadman-dando@adur-worthing.gov.uk	Joanne Lee Assistant Director Legal and Democratic Services and Monitoring Officer joanne.lee@adur-worthing.gov.uk

Duration of the Meeting: Three hours after the commencement of the meeting the Chairperson will adjourn the meeting to consider if it wishes to continue. A vote will be taken and a simple majority in favour will be necessary for the meeting to continue.

Sue Large - Revenues & Benefits Operations Manager

sue.large@adur-worthing.gov.uk

01903 221111

Executive Summary

1. Purpose

- 1.1. The report identifies decisions to be made by Full Council and makes recommendations to change the council's approach in respect of certain discretionary areas within council tax legislation. If agreed, changes to Empty Property premiums will take effect from 1 April 2024 and changes to Dwellings Occupied Periodically (Second Homes) shall take place from 1st April 2025. These changes arise from the The Levelling-up and Regeneration Act 2023 which enables councils to make further amendments to the levying of council tax premiums within the Borough.
- 1.2. To reduce the number of empty homes within the District in line with the Council's Empty Homes Strategy and to encourage the use of premises as main residence by local residents rather than as second homes.

2. Recommendations

Members of this committee are asked to recommended to Full Council the approval and implementation of the following:-

- 2.1. That from 1 April 2024 to continue to levy the maximum level of premium for empty properties as follows noting the change for empty homes after 1 year:-
 - Premium of 100% for dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) after 1 years up to 5 years of becoming empty;
 - Premium of 200% for dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) between 5 years and up to 10 years; and
 - Premium of 300% for dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) for 10 years or more.
- 2.2. From 1 April 2025 to approve the application of a premium for second homes (Second Homes Premium) of 100% for all dwellings that are no persons' sole or main residence and which are substantially furnished.
- 2.3. (Exceptions to premiums) that mindful of the current consultation by government which recommends exceptions in certain circumstances, to the second homes premium to be charged, and subject to the outcome of that consultation, it is recommended that the Section 151 Officer is given delegated authority to implement this Council's policy on premiums in line with statute and any following guidance issued by the Secretary of State.
- 2.4. Recommend no changes to existing Council Tax Discounts.

3. Introduction

- 3.1. The Levelling-up and Regeneration Act enables the council to make further amendments to the levying of council tax premiums within the borough with effect from 1 April 2024 and 1 April 2025.

- 3.2. A large part of the council tax legislation is mandatory on all billing authorities within England. Discounts (such as Single Person Discounts), disregards and exemptions are set by statute with very little discretion allowed. However, there are a number of areas where each council may determine the type and levels of charge to be made.
- 3.3. The main discretionary areas in place currently are as follows:
- (a) Second homes (premises which are no-one's sole or main residence but are furnished);
 - (b) Unoccupied and substantially unfurnished premises;
 - (c) Unoccupied and substantially unfurnished premises which require or are undergoing structural repairs; and
 - (d) Currently, premiums where premises have been unoccupied and substantially unfurnished for a period exceeding 2 years.
- 3.4. When determining its policy, each billing authority has to decide the level of discount (if any) to be granted and the amount (percentage) of any premium by 31 March prior to the financial year in which it wants to introduce the changes.
- 3.5. The report identifies decisions required by Full Council and makes recommendations to change the council's approach in respect of certain discretionary areas within council tax legislation. Once determined, any resolution of the council will be published in a local newspaper(s) within 21 days of the decision.

4. Context

4.1. Empty Properties

As at the date of writing this report there are 392 Long term empty properties and 486 second homes within the borough and the council has adopted the following level of premiums.

	Current Policy
Premium - Dwellings which are unoccupied and substantially unfurnished (Empty Homes premium) After 2 years and up to 5 years of becoming empty.	100% Premium
Premium - Dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) Dwellings empty between 5 years and up to 10	200% Premium

years	
Premium - Dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) Dwellings empty for 10 years or more	300% Premium
Unoccupied and substantially unfurnished premises	0% Discount
Unoccupied and substantially unfurnished premises which require or are undergoing structural repairs	0% Discount

4.2. Premiums were introduced by the government in 2013 with a view to encouraging homeowners to occupy homes and not leave them vacant in the long term. Initially premiums could only be charged at 50% but current legislation has now changed to allow a progressive charge to be made as follows:

- Dwellings left unoccupied and substantially unfurnished for 2 years or more, up to 100%;
- Dwellings left unoccupied and substantially unfurnished for 5 years or more, up to 200%; and
- Dwellings left unoccupied and substantially unfurnished for 10 years or more, up to 300%.

4.3. It should be noted that premiums are charged in addition to the 100% council tax payable on empty premises.

4.4. Government, together with local authorities has unfortunately seen a rise in the number of empty homes together with a growth in second homes. This is particularly challenging given the significant demand for housing and the rise in housing need and homelessness. In addition, there are also issues with properties that remain unoccupied around safety and decency. This policy change would therefore aim to:

- a) Reduce the number of empty homes within the district in line with the council's Empty Homes Strategy
- b) Encourage the use of premises as main residences by local residents rather than second homes.
- c) Mitigate the rising costs of homelessness

4.5. Inconsistencies in the legislation have also been identified whereby a premium can be avoided by the taxpayer merely furnishing an empty premises, when it would become a 'second home' which currently has

a maximum charge of 100%. The council has previously identified this and, for a number of years, has proposed changes in the legislation to avoid this 'loophole'.

- 4.6. By amending the Local Government Finance Act 1992, the recently enacted Levelling-up and Regeneration Act 2023 ('the 2023 Act') addresses these inconsistencies and also brings more dwellings into use. This report makes recommendations to change the discounts currently being granted by the council and also to introduce changes to the regimes for charging premiums as allowed within the legislation.

5. Changes to empty homes premiums (From 1 April 2024)

- 5.1. Section 79(1)(b) of the 2023 Act will permit billing authorities in England to impose an empty homes premium after one year instead of two. This gives effect to a commitment made by the Government in the [Levelling Up White Paper](#) .
- 5.2. Section 79(1)(a) of the 2023 Act provides that billing authorities must have regard to any guidance issued by the Secretary of State when deciding whether to implement an empty homes premium and it is expected that the current guidance drafted by the government in 2013 will be updated. This change to guidance will come into effect from the 2024/25 financial year.
- 5.3. Sections 79(2) of the 2023 Act provides that from 1 April 2024, a property can be charged an empty homes premium at 100% after one year, and it does not matter whether the period mentioned in s11B(8) of the Local Government Finance Act 1992 begins before Section 79 came into force.

6. Introduction of premiums for second homes (From 1 April 2025)

- 6.1. At present, English billing authorities may only impose an empty homes premium on properties that are 'unoccupied and substantially unfurnished'. This term is defined via case law, not in legislation. However, it does not cover dwellings that are no one's sole or main residence but are furnished. An empty homes premium could, therefore, not be imposed on properties that are maintained as second homes for regular use by their owners.

- 6.2. Section 80 of the Levelling-up and Regeneration Act 2023 (Dwellings Occupied Periodically) provides for a new section 11C in the Local Government Finance Act 1992. This permits billing authorities to apply a premium to properties that have no resident and are “substantially furnished”. The maximum council tax charge in these cases would be a standard 100% charge plus, if the recommendations are accepted by the council, a premium of 100% making a total council tax charge of 200%.
- 6.3. There would be no requirement for a property to have been used as a second home for a fixed period of time before the premium can apply.
- 6.4. As with other changes introduced by the Act, section 11C (3) requires that the first decision to impose this class of premium must be taken at least 12 months before the financial year to which it would apply. In effect this means that premiums for second homes will not take effect until the 2025/26 financial year at the earliest. However, it is essential that a decision is made by the council before 31 March 2024 to give the required one year notice.
- 6.5. The Act provides that a dwelling cannot be subject to both a second homes premium and an empty homes premium imposed under section 11B of the 1992 Act, and that an existing empty homes premium would cease to apply to a property which became subject to a second homes premium.

Premiums – generally

- 6.6. In line with all similar legislation, any decision made by the council must be published in at least one local newspaper, within 21 days of its being taken.
- 6.7. Should the council at any time wish to vary or revoke a decision to impose any type of premium, this can be done at any time before the beginning of the financial year to which it would apply.
- 6.8. The Secretary of State has the power to prescribe certain classes of property that will not be subject to an empty homes premium. Currently these are homes that are empty due to the occupant living in armed forces accommodation for job related purposes, or annexes being used as part of a main property.

- 6.9. In line with that, a consultation has also been issued by the government on proposals to delay the application of premiums and it is expected that the areas included in the consultation will form either guidance or regulations which authorities will be required to adhere to.

Changes proposed from 1st April 2024

- 6.10. The continued pressure on local authority finances (both the borough council and the major preceptors) together with the need to encourage all owners of domestic premises to bring them back into use, makes it essential that the council changes its approach to empty homes.
- 6.11. From 1 April 2024, the council has the opportunity to make changes to both its discretionary discounts and also to the current premium regime in order to maximise its income and that of the major preceptors (in proportion to their share of the council tax). In view of this, it is recommended that the council adopt the following change with effect from 1 April 2024 as follows:

	Proposed Policy
Premium - Dwellings which are unoccupied and substantially unfurnished (Empty Homes premium) <u>After 1 year</u> and up to 5 years of becoming empty.	100% Premium
Premium - Dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) Dwellings empty between 5 years and up to 10 years	200% Premium
Premium - Dwellings which are unoccupied and substantially unfurnished (Empty Homes Premium) Dwellings empty for 10 years or more	300% Premium
Unoccupied and substantially unfurnished premises	0% Discount (No change)
Unoccupied and substantially unfurnished premises which require or are undergoing structural repairs	0% Discount (No Change)

Changes proposed to be effective from 1st April 2025

- 6.12. From 1 April 2025, the new legislation will allow all English billing authorities to charge a premium of up to 100% on second homes (no one's sole or main residence and which is substantially furnished).

- 6.13. The intention of the legislation change is to close the current loophole in relation of empty homes premium and also encourage the use of second homes as primary residences.
- 6.14. As noted above, the challenges around access to housing for many of our residents mean that this council needs to consider all of its policy levers that will enable more homes to become available homes for those that require them. It is recommended that the council resolves to apply a premium of 100% on second homes with effect from 1 April 2025. The legislation requires that the authority gives at least one year's notice from the date of a Full Council resolution and the change can only be effective from the commencement of a financial year, the earliest being 1 April 2025.
- 6.15. In line with the legislation, the council must be mindful of guidance issued by the Secretary of State and any application of the premiums must take account of any exceptions laid down within regulation. Once determined, any resolution of the council will be published in a local newspaper(s) within 21 days of the decision.

Exceptions from the premiums (empty homes premiums and second homes premium)

- 6.16. For information, the government has released a consultation paper entitled Consultation on proposals to exempt categories of dwellings from the council tax premiums in England - GOV.UK (www.gov.uk). The consultation (which has now ended), sought views on possible categories of dwellings which should be dealt with as exceptions to the council tax premiums. It covers the empty homes premium, and also the second homes premium, provisions for which are included within the Levelling-up and Regeneration Act.
- 6.17. The consultation proposes that there will be circumstances where either premiums will either not apply or be deferred for a defined period of time. These are as follows:
- **Properties undergoing probate** - the government proposes that these properties should be exceptions to both the second homes and empty homes premiums for 12 months. The exception would start once probate or letters of administration is granted. This does not affect the Class F exemption or the

ability for billing authorities to charge the normal rate of council tax following the expiry of the Class F exemption;

- **Properties that are being actively marketed for sale or rent** - the government proposes that this exception would apply for up to a maximum of 6 months from the date that active marketing commenced, or until the property has been sold or rented, whichever is sooner. It will be essential that the council will need to determine in its policy, what evidence will be required to support any exception;
- **Empty properties undergoing major repairs** - time limited to 6 months - the government proposes that empty properties undergoing major repair works or structural alterations should be an exception to the premium for up to 6 months once the exception has been applied or when the work has been completed, whichever is sooner. The exception could be applied at any time after the property has been empty for at least 12 months, so long as the council is satisfied that the necessary repair work is being undertaken;
- **Annexes forming part of, or being treated as, part of the main dwelling** - the government proposes that such annexes should be an exception to the council tax premium on second homes;
- **Job related dwellings** - currently, there is a council tax discount of up to 50% for properties which are unoccupied because the owner is required to live elsewhere for employment purposes. The discount applies where the dwelling is provided for the better performance of the duties of the employment, and it is one of the kinds of employment in the case of which it is customary for employers to provide dwellings for employees. The government proposes that the dwelling should also be an exception to the second homes premium. The exception will not apply to cases where someone chooses to have an additional property to be closer to work while having a family home elsewhere or where an individual is posted to a new location but maintain their previous address;
- **Occupied caravan pitches and houseboat moorings** - the government proposes that these caravans and boats should be an exception to the council tax premium on second homes; and
- **Seasonal homes where year-round or permanent occupation is prohibited or has been specified for use as holiday accommodation or prevents occupancy as a person's sole or main residence** - the government proposes that properties that have restrictions or conditions preventing occupancy for a continuous period of at least 28 days in any 12-month period, or specifies its use as a holiday let, or prevents occupancy as a person's sole or main residence, should be an exception to the second homes premium.

- 6.18. It is understood that regulations or guidance (which has to be followed in accordance with the Levelling-up and Regeneration Act) will be in line with the government's proposal. In view of this, the council will need to ensure that any charging policy is in line with legislation. It is therefore recommended that the council's Section 151 Officer be granted delegated powers to amend the council's policy of premiums in line with legislative or government requirements.

Outcome expected and 'safety net'.

- 6.19. The expected outcomes of the recommendations are as follows:
- (a) Taxpayers will be encouraged, through the changes in discounts and the implementation of the premiums, to bring empty properties into use and to revert the use of second homes to primary residences;
 - (b) The reduction of empty homes and second homes within the district in line with the council's Empty Property Strategy; and
 - (c) Increased council tax income from empty homes and second homes.
- 6.20. There may be circumstances where the implementation of these changes (percentage increases in the level of premiums) may cause exceptional hardship to a taxpayer. In such cases, the council will consider applications for a reduction in liability under its Section 13A (1)(C) of the Local Government Finance Act 1992 - Reduction in Council Tax liability policy.
- 6.21. Where such an application is received, it will be considered on an individual case basis taking into account the circumstances of the taxpayer and the situation regarding the level of council tax charged. Should the taxpayer be aggrieved by any decision of the council a further right of appeal will be with the independent Valuation Tribunal.
- 6.22. Should the council decide not to accept the recommendations, the existing premiums will remain in place.

7. Engagement and Communication

- 7.1. There is no statutory requirement to consult on any matters contained within this report. However, a resolution must be passed by Full Council on or before 31 March 2024 in order for the changes to be implemented with effect from 1 April 2024. In the case of second

homes premium, a resolution made on or before 31 March 2024 will allow the premium to come into force from 1 April 2025 (its earliest commencement date).

8. Financial Implications

- 8.1. Should the recommendations be accepted; any additional income would be shared with both the council and the major preceptors in proportion to their share of the collection fund. Based on current modelling, the potential increase in council tax is estimated to be as follows:

2024/25

Band	Number of Properties	Value
A	133	£189,147.28
B	112	£185,829.28
C	69	£130,838.49
D	38	£81,063.12
E	23	£59,967.67
F	7	£21,569.45
G	7	£35,554.00
H	0	£0.00
Total		£703,969.29

2025/26

	Current Policy	Recommendation	Estimated Income per annum
Second Homes Premium No one's sole or main residence and which is substantially furnished. Premium of 100%	N/A	100% Premium	£973,705.43

is charged in addition to the second home council tax charge of 100%			
--	--	--	--

- 8.2. The award of any S13A(1)(C) (reduction in liability) is a general fund expense and would normally be met in full by the council. In view of the fact that the additional funds from the changes in discounts and premiums proposed in this report are shared with the major preceptors, it is proposed that the cost of any award is met from the collection fund.

9. Legal Implications

- 9.1. Sections 11A (discounts: special provision for England); Section 11B (higher amount for long-term empty dwellings: England) and section 13A(1)(c) (reductions by billing authority) of the Local Government Finance Act 1992 are relevant to this Report. In addition, Section 80 of the Regeneration and Levelling Up Act 2023 which came into force in October 2023 inserts a new section 11C into the Local Government Finance Act 1992 which is applicable to Dwellings Occupied Periodically (premiums for second homes).
- 9.2. Section 80 of the Regeneration and Levelling Up Act 2023 inserts a new section 11D into the Local Government Finance Act 1992 which enables the Secretary of State to make regulations or issue guidance on the application of the premiums and Full Council is asked to delegate authority to the s151 Officer to implement further changes are prescribed by the Secretary of State.
- 9.3. A resolution by the Full Council arising from the recommendations in this report should be published in the local newspaper within 21 days of the resolution being made.
- 9.4. Under Section 111 of the Local Government Act 1972, the council has the power to do anything that is calculated to facilitate, or which is conducive or incidental to, the discharge of any of their functions.
- 9.5. Section 3(1) of the Local Government Act 1999 (LGA 1999) contains a general duty on a best value authority to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness

Background Papers

- [Levelling Up White Paper](#)
- [Levelling-up and Regeneration Act 2023 - Parliamentary Bills - UK Parliament](#)
- [Consultation on proposals to exempt categories of dwelling from the council tax premiums in England](#)

Sustainability & Risk Assessment

The recommendations are directly in line with the council's Our Plan - by enabling communities to thrive. The recommendations are designed to bring empty homes back into use and to encourage second home owners to ensure that the dwellings are used as a primary residence.

The main risk associated with the implication of the recommendations will be the increase in non-compliance, with some taxpayers actively trying to avoid the new charges by providing incorrect information to the council.

The council already has processes and procedures in place in order to ensure that all charges are applied correctly. Further compliance procedures will be established to ensure that the new second homes premium is applied in accordance with the legislation and the council's requirement.

1. Economic

- The additional income from the changes to premiums will be shared, as part of the collection fund, with both the council and the major preceptors in accordance with their share of the council tax.

2. Social

2.1 Social Value

- There are no anticipated impacts on protected characteristics associated with this report. The proposals do, however, include the potential generating of positive outcomes for local people who are struggling to secure sustainable accommodation in the borough, and may subsequently ease current inequalities around access to local homes.

2.2 Equality Issues

- There are no anticipated impacts on protected characteristics associated with this report. The proposals do, however, include the potential generating of positive outcomes for local people who are struggling to secure sustainable accommodation in the borough, and may subsequently ease current inequalities around access to local homes.

2.3 Community Safety Issues (Section 17)

- The anticipated benefits would be around reducing the number of empty homes in the borough and there are associated safer communities benefits.

2.4 Human Rights Issues

- Matter considered and no issues identified.

3. Environmental

- Matter considered and no issues identified.

4. Governance

- Matter considered and no issues identified.

Key Decision [~~Yes~~/No]

Ward(s) Affected: All

Budget Estimates 2024/25 and setting of the 2024/25 Council Tax

Report by the Director for Sustainability & Resources

Officer Contact Details

Emma Thomas, Chief financial officer

Executive Summary

1. Purpose

1.1 This report is the final budget report of the year, the culmination of the annual budgeting exercise, and asks members to consider:

- The final revenue estimates for 2024/25 including adjustments arising from settlement.
- An updated outline 5-year forecast.
- The provisional level of council tax for 2024/25, prior to its submission to the Full Council for approval on the 20th February 2024; this will be subject to any proposals to change the draft revenue budget following consideration of the budget by the Executive.

1.2 This report outlines the Worthing Cabinet specific decisions to be made with respect to areas such as fees and charges and the setting of council tax. It also includes the Worthing Cabinet decisions on the shared services which are reported to the JSC for review at its meeting on 8th February as part of the Joint Services Budget.

1.3 The report outlines the medium term financial challenge through to 2028/29 and describes the key risks and assumptions which underpin this medium term financial view.

1.4 These budget estimates reflect the council's priorities for 2024/25 and its focus on three key areas which underpin the council's vision of fair, green

and local for Worthing:

- Clean, green, fair borough
- Social housing
- Town centre & seafront regeneration

1.5 The major points raised within the report include:

- A full update on the impact of the Local Government Finance Settlement.
- Indicative funding for initiatives to support the councils' ambitions.
- Proposals to invest in services, Appendix 3, alongside outlined savings.
- Considerations to be taken by the cabinet as to whether to increase council tax by 2.99% or by a lower amount (section 5.10).

1.6 Appendix 7 shows a breakdown of the budget by portfolio. The draft estimates for 2024/25 have been prepared, as always, in accordance with the requirements of the Service Reporting Code of Practice for Local Authorities (except in relation to pension costs adjustments that do not impact either on the budget requirement or the council tax requirement).

1.7 The Sussex Police and Crime Commissioner (PCC) has been informed that the referendum criteria for this year is an increase of £13.00 per Band D property which would be equivalent to an increase of 5.42%. The proposed 2024/25 budget is due to be considered by the Sussex Police and Crime Panel (PCP) on 26th January 2024. If the proposals are vetoed by the PCP, revised proposals will be considered by the PCP on the 19th February 2024 at which point the PCC will be in a position to confirm their precept for setting the council tax for 2024/25 in time for Full Council on the 20th February 2024.

1.8 The draft Local Government Finance Settlement allows councils to increase core council tax by up to 2.99%. Those councils with responsibility for Adult Social Care can increase council tax by up to a further 2%. Therefore a council tax increase of 4.99% for councils with social care responsibilities is allowed for 2024/25.

1.9 The precept for West Sussex County Council has not yet been finalised and will not be confirmed until 16th February 2024. The formal detailed resolution setting the overall council tax for next year will be presented directly to the Full Council meeting on 20th February 2024.

1.10 The following appendices have been attached to this report:

Appendix 1 5 year forecast for Worthing Borough Council

Appendix 2 Proposals for savings

Appendix 3 Proposals for investment in services

Appendix 4 Organisation Design Programme

Appendix 5 Estimated Reserves

Appendix 6 Council tax base for 2024/25

Appendix 7 Portfolio budget breakdown

2. Recommendations

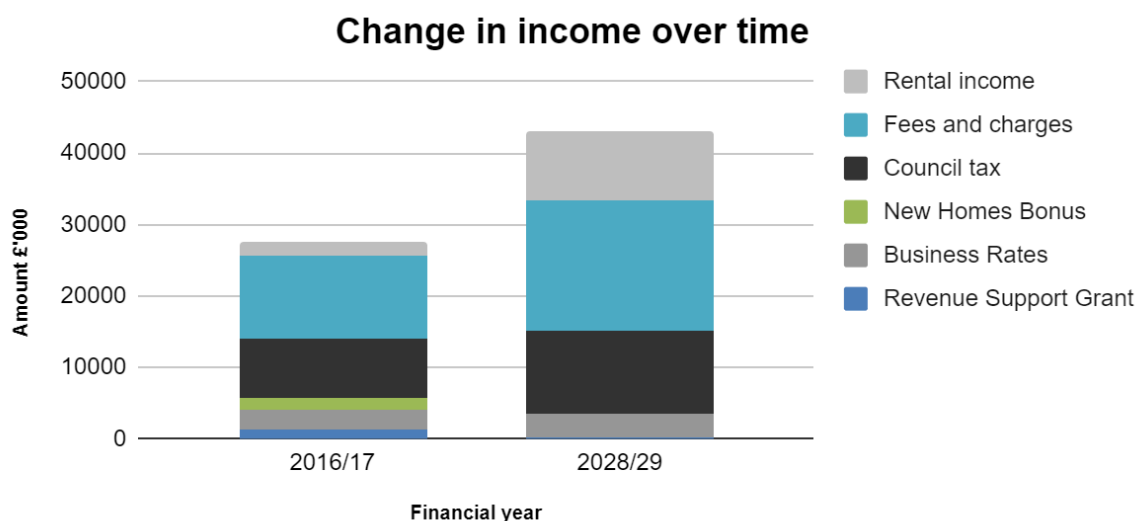

2.1 The cabinet is recommended to:

- (a) Consider and approve, if agreed, the proposals for savings outlined in Appendix 2.
- (b) Consider and approve, if agreed, the proposals to invest in services outlined in Appendix 3.
- (c) Recommend to Full Council to approve the use of capital receipts to support the delivery of the Organisation Design Programme and the budget as set out at appendix 4;
- (d) Recommend to Full Council the draft budgets for 2024/25 at Appendix 7 (broken down by cabinet member portfolio) and the transfer to reserves leading to a net budget requirement of £15,224,580, which includes provision for the proposals in Appendix 2 and 3, subject to any agreed amendments.
- (e) Consider which Band D council tax to recommend to Full Council to meet Worthing Borough Council's requirements in 2024/25 as set out in section 4.3.
- (f) Approve the council tax base of 39,330.7 for 2024/25 as set out in paragraph 11.3.

3. Introduction

- 3.1 The national picture for local government is challenging. According to research carried out by the LGA, almost one in five councils are at risk of issuing a Section 114 notice this year or next.

- 3.2 Worthing Borough Council has also faced challenges. The council has seen increased pressures of £1.5m in 2023/24. This has required the implementation of in-year spending controls which have been outlined in the Quarter 2 Revenue Monitoring Report 2023/24.
- 3.3 Despite this, the council continues to make considerable progress towards its vision of Worthing as fair, green and local. This paper outlines how it will continue to prioritise in three main areas for 2024/25:
- A clean, green, and fair borough
 - Development of social housing for Worthing
 - A focus on town centre & seafront regeneration
- 3.4 This report outlines the final set of proposals for the setting of the 2024/25 revenue budget. They have been developed to address the considerable financial pressures that Worthing Borough Council is experiencing, while continuing to deliver essential services for its residents, and in a way which reflects the key priorities of the council.
- 3.5 An essential element of how Worthing Borough Council will face these challenges is by continuing to develop its ambition to be a council for the community, developing its work to make decisions with communities, and changing how it works to properly embrace the community action which is a defining characteristic of the vibrant place that Worthing is.
- 3.6 The councils continue to focus on several strategic programmes which look at income and expenditure which are responsible for taking forward key initiatives aimed at delivering not only a balanced budget for the future but a more sustainable organisation which has financial and delivery resilience based on the resources available. These have been refreshed in light of the current challenges and also the ongoing programme of organisational design following on from the corporate adoption of Our Plan.
- 3.7 The successful delivery of our strategy has fundamentally changed how the council is funded while pursuing transformational approaches to how it delivers services and works with its partners. As a result of reduced central government funding, the council has moved increasingly towards funding from the local community via council tax, and will become increasingly reliant on income from commercial activities over time. Between 2016/17 and 2028/29 income from locally controlled sources (including council tax) is expected to increase from £21.9m to £39.5m, whilst at the same time income controlled by central government (including a share of business rates) will reduce from £5.8m to £3.6m.

- 3.8 A report to the Joint Strategic Committee on 7th December 2023 updated members as to the latest budgetary information prior to the provisional settlement announcement and the forecast was presented as follows:

	2024/25	2025/26	2026/27	2027/28	2028/29
	£'000	£'000	£'000	£'000	£'000
Budget shortfall	2,816	4,497	5,990	7,410	8,563
Savings identified to date	-1,117	-1,625	-2,015	-2,071	-2,126
Organisation Redesign	-1,512	-1,542	-1,573	-1,604	-1,636
Revised budget shortfall / Surplus (-)	187	1,330	2,402	3,735	4,801

- 3.9 The 2024/25 savings proposals identified within the report amounted to £2.6m and are outlined in Appendix 2. The organisational redesign programme is outlined in Appendix 4 and will be further reported at the March JSC meeting, subject to budgets being approved by both councils.
- 3.10 Since the meeting in December, the Worthing Borough Council budget has been finalised and the last adjustments have been included, subject to the final considerations about the level of council tax and any proposals to reinvest back into services. The current financial position for 2024/25 can be summarised as:

Changes in Budgetary Shortfall/Savings since report to Joint Strategic Committee on 11th July 2023

Original 2024/25 budget shortfall	£000
Other changes:	2,754
Final impact of 2023/24 pay award	-160
Financing costs of capital programme	-75
Investment income	-51
Increase in budget for Housing Needs	2150
Committed growth - Increase in audit fee costs	40
Addition of reduced WTAM contract costs	-23
Council tax - impact of taxbase	51
Review of additional business rates	239
Collection Fund surplus/deficit	-69
Removal of contingency budget for committed growth item	-40
Revised Budget Shortfall Reported in December	2,816
Impact of settlement	
Change to business rates	-11
One-off funding:	
New Homes Bonus	-15
Changes to existing grant streams	-24
Funding Guarantee Grant confirmation	-346
Adjustment for final items identified	
Final assessment of council tax income for 2024/25 based on a 2.99% increase	-102
Review of interest rate and profiling of the capital programme	90
Removal of contingency for committed growth	-80
Removal of budget for new investment in service proposals	-250
Reduction in inflation budget	-43
Increase to Housing Needs budget	100
	2,135
Potential savings identified to date (Appendix 2)	-2,285
Budget surplus based on a 2.99% council tax increase available to fund new initiatives (before any further action is agreed)	-150

4. Income and reserves position for 2024/25

Income for the council is split across four main areas:

- Local Government Finance Settlement
- Business rate retention
- Council tax
- Income from commercial activities

This section of the report outlines each of these income areas

4.1 2024/25 Local Government Finance Settlement

- 4.1.1 The Government published the provisional Local Government Finance Settlement for 2024/25 on 18th December 2023 via a written statement. Consultation on the provisional settlement closed on the 15th January 2024. This is a one-year settlement.
- 4.1.2 The settlement confirmed the referendum principles set out above. The council will be able to increase council tax by up to 3% or £5.00, whichever is the higher.
- 4.1.3 Worthing Borough Council received an increase in central government funding. However in real terms the settlement still leaves a financial gap to close as it was less than the inflationary and other pressures which the council is experiencing. The government provisional settlement in December 2023 announced an increase in core spending power for local authorities of 6%, this being based on the assumption that councils would increase council tax to the maximum 2.99% as outlined below.
- 4.1.4 The impact of settlement can be summarised as follows:

- ***Revenue support grant***

The council will receive a Revenue Support Grant in 2024/25 of £116,325, this is due to the inclusion of Council Tax Support Administration Grant amalgamated as part of Revenue Support Grant which was introduced for the first time in 2023/24. Since 2016/17 the council has seen Revenue Support Grant fall by £1.2m and had received no grant since 2018/19 until 2023/24.

- ***Business grant income and baseline funding***

The small business rates multiplier will be frozen for 2024/25 at 49.9p. The standard business rates multiplier will rise by Consumer Price Index (CPI) to 54.6p.

The government will compensate local authorities for the loss of income for this decision up to the level of the September 2023 CPI. This will be part-paid via an uplift to Baseline Funding Level (BFL), with the remainder paid via section 31 grant. Taken together, the increase in the BFL and the multiplier under-indexation grant for 2024/25 provide an increase of 6.7%. BFL for 2024/25 will be £2,909,778.

- ***Funding Guarantee grant (£196m nationally)***

This grant, introduced in 2023/24, was created to ensure every authority has an increase in core spending power (the total funding received from council tax, business rates, and government grant) of at

least 3%. This grant will be funded from the previous Lower Tier Services Grant and the reduced cost of New Homes Bonus.

The overall cost of the 3% Funding Guarantee will be £196m in 2024-25. Worthing Borough Council will receive £602,110. It has not been confirmed whether this funding will remain in place in 2025/26.

- ***Services Grant (£77m nationally)***

The Services Grant was created in 2022/23 to fund core services and was distributed using the 2013/14 Settlement Funding Assessment methodology. This has been subsequently reduced to reflect the estimated benefit from the changes to National Insurance. Worthing Borough Council will receive £17,135 a reduction on the £104,590 allocated in 2023/24.

- ***New Homes Bonus (£291m nationally)***

New Homes Bonus (NHB) will continue for another year but the government very clearly intends to phase out the current scheme although the timing of this is unclear. For 2024/25, there is no change in the operation of the scheme: the scheme works in the same way and applies the same threshold (0.4%). The threshold means that NHB payments will only be made on an increase in the council tax base that exceeds 0.4%.

NHB allocations of £291m will be made nationally. This is a one off allocation in 2024/25 and the council will receive an additional grant of only £14,840.

4.1.5 The key question of how the net budget requirement translates into the council tax charge can now be determined as the proposed details of the Local Government Finance Settlement have been received. Any final changes arising from settlement will be dealt with through the reserves. However, if there is a significant reduction in government resources, in-year action will be needed to reduce the final impact on the reserves.

4.1.6 **Changes to local government funding in 2024/25 and beyond:**

This is not a fixed two-year settlement and so there is uncertainty around 2025/26. We do not yet know the future of NHB. This lack of certainty is at best unhelpful with respect to developing our budgets.

The Funding Review and the changes to the Business Rate Retention Scheme have now been delayed until 2025/26 at the earliest, effectively delayed until after the next election.

The lack of even short term certainty around funding makes long-term planning very difficult and contributes to the challenges of the council's finances.

4.2 Business Rate Retention Scheme

4.2.1 The business rate retention scheme has now been in place for several years. There are two key features which members are reminded of:

- 1) There is a 'safety net' in place for any council whose actual business rates income falls short of the target income for business rates. The safety net arrangements will be 7.5% of Baseline Funding which is equivalent to a maximum fall in income below the baseline funding level of £218,233.
- 2) A 'levy' is in place for any council whose business rates exceed the target set. The levy will mean that the council can keep 50p of every additional £1 generated over its share of the business rate target.

For each additional £100,000 raised the council will keep the following amounts:

	Share of additional income	Additional Levy paid to treasury	Kept locally
	£'000	£'000	£'000
HM Treasury	50		
County Council	10	5	5
Borough Council	40	20	20
	100	25	25

4.2.2 The forecast for 2024/25 is currently being finalised. The 2023/24 NNDR return which underpins this forecast is due to be submitted by the 31st January 2024 and any substantial changes resulting from the final assessment of the business rate income will be managed through the business rate smoothing reserve which has been set up for this purpose.

4.2.3 The Collection Fund will have another deficit at the end of the current year, partially due to the additional reliefs granted in the year and the impact of some substantial in-year revaluations for major retailers which have been backdated to 2017.

4.2.4 Overall a deficit of £2.9m will need to be recouped in 2024/25 which can be broken down as follows:

	Total to be recovered in 2024/25
	£'000
Worthing Borough Council	1,174.9
West Sussex County Council	293.7
Government (HMT)	1,468.7
Total recovered	2,937.3

The council will receive compensation in 2023/24 for the additional reliefs granted.

4.2.5 Looking further ahead, the generation of additional business rates is one of the solutions to the council's ongoing financial pressures. Members will be aware that there are several schemes progressing which will create employment space. Examples include Union Place and Decoy Farm.

4.2.6 Finally, it should be appreciated that there are still a number of risks associated with the business rate forecast:

- It is difficult to establish the number of appeals which are likely to come forward. There is no time limit on when an appeal might be lodged.
- Major redevelopments will temporarily reduce business rate income whilst the site is being redeveloped.
- Conversion of office blocks and retail space into accommodation will result in a permanent loss of income however, this will be mitigated to some extent by the additional council tax generated once the conversion is completed.

4.2.7 Consequently there could be significant swings in the amount of business rate income in any one year. However, any shortfall in income will be

recovered in the following financial year. The council will provide for any known backdated business rates appeals at the 2023/24 year end.

4.3 Council Tax Increases

4.3.1 The decision over the level of increase to the council tax influences not only the current budget but future budgets as well. Over the past 10 years, the council tax has been increased by 20%, an average of 1.9% per year (in 2013/14 the Band D tax was £216.00, in 2023/24 it was £259.92). Over the equivalent period, inflation (CPI) has been 28.0%.

4.3.2 The budget forecast currently assumes that council tax will increase by 2.99% in 2024/25. The most recent inflation index was 5.3% (CPI in November 2023) and so the forecast rate is below current inflation rates.

4.3.3 A 3% uplift would only be a modest increase in the council share of the bill for 2024/25. The table below details how the council tax will change as a result of a 1%, 1.5%, 2.0% and 2.99% increase.

	2023/24	Annual increase for 2024/25			
		1%	1.5%	2.0%	2.99%
	£	£	£	£	£
Council tax Band D	259.92	262.53	263.79	265.14	267.66
Annual increase		2.61	3.87	5.22	7.74
Weekly increase		0.05	0.07	0.10	0.15
Council tax Band C	231.04	233.36	234.48	235.68	237.92
Average annual increase		2.32	3.44	4.64	6.88
Average weekly increase		0.04	0.07	0.09	0.13
Total additional council tax raised compared to 2022/23		93,840	143,400	196,490	295,610
Additional council tax raised over a 1% increase			49,460	102,650	201,770

4.3.4 Members should also be aware that the Sussex Police and Crime Commissioner has the flexibility to increase the Band D tax by £13.00 (5.42%) for their share of the overall bill. Whilst the level of increase to be set by the county council is unknown at this stage, given the financial pressures that the county council is under, there are indications that the

increase will be close to the maximum permitted (4.99%). Consequently, the total overall increase in the council tax bill for a Band D property based on the council opting to set the tax at the maximum allowed could be close to 4.8%:

	2023/24	2024/25 (Indicative only)	%
	£	£	
Worthing Borough Council	259.92	267.66	2.99%
West Sussex County Council	1,633.32	1,714.91	4.99%
Sussex Police and Crime Commissioner	239.91	252.91	5.42%
	2,133.15	2,235.48	4.77%

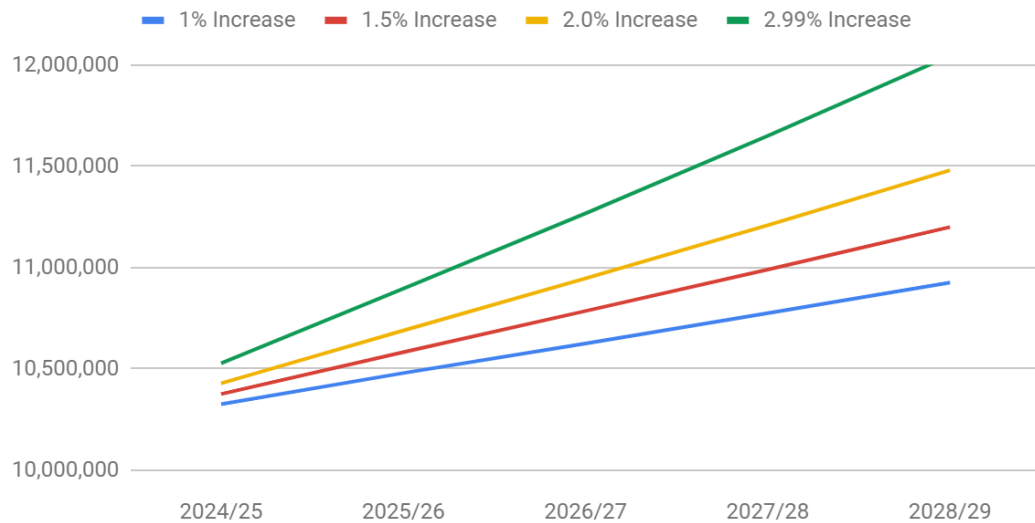

4.3.5 The decision to raise council tax influences not just the 2024/25 budget but future years and should be considered alongside the projected budget shortfalls for the next 5 years, as there are long-term consequences to setting a council tax increase lower than the maximum permitted. This is particularly significant at the moment given the scale of the financial challenge faced by the council. Potentially the next few years are financially challenging with significant savings required in each financial year.

4.3.6 The impact of changing the council tax by 1%, 1.5%, 2.0% and 2.99% annually would be as follows:

Total income	2023/24	2024/25	2025/26	2026/27	2027/28
	£	£	£	£	£
1% annual increase	10,325,490	10,478,890	10,624,370	10,774,430	10,925,540
1.5% annual increase	10,375,050	10,582,040	10,785,080	10,989,560	11,199,120
2.0% annual increase	10,428,140	10,688,750	10,945,780	11,208,280	11,479,910
2.99% annual increase	10,527,260	10,895,060	11,267,190	11,649,290	12,045,090

Over the longer term, a higher increase will give the council significant additional income:

Worthing Borough Council - Long term impact of Council Tax increases

4.3.7 Members are asked to consider which level of council tax increase that they support. An increase of 2.99% would enable the council to set a balanced budget and fund all of the proposals for investment in services recommended for approval in Appendix 3. However, if a lower rate is set, then additional savings will have to be identified to fund the financial consequences as it would be inappropriate to use the reserves to balance the budget.

4.3.8 At this late stage in the budget process, it would be difficult to make any decisions that result in service reductions as these should be the subject of consultation. However the option remains to defer projects or the proposed investments into services to generate an in-year saving and fund the desired level of council tax increase.

4.3.9 Summary of Budget Position

Depending on the choices made regarding the council tax increase and the new growth items, the overall budget position will be (based on a 2.99% increase):

	£'000	£'000
Net budget requirement 2024/25		15,075
Less:		
Baseline Funding	-2,910	
Share of additional Business Rate income	-968	

Council tax (2.99% increase)	-10,527	
Other grants	-751	
Collection Fund Surplus	-69	-15,225
Budget surplus based on 2.99% council tax increase		-150
Maximum impact of accepting the growth items (Appendix 3)		150
Budget balanced at a 2.99% council tax increase		-

4.4 Proposals to maximise commercial income

4.4.1 Worthing Borough Council continues to drive significant benefits from fees and charges and in fact could not produce a balanced budget without this element of income. In considering the changes in these areas officers consider three main factors:

- Inflationary pressures on the cost to deliver
- Market benchmarks
- Affordability for residents and businesses

The proposed amendments to fees and charges are set out in Appendix 2.

4.4.2 Fees and charges are set by directors, assistant directors and heads of service in consultation and agreement with relevant cabinet members where deemed necessary. These charges can be amended or changed throughout the year but most follow an annual cycle, whether calendar year or financial year. It should be noted that car parking pricing must follow a statutory process.

4.4.3 In 2024/25 the council will review commercial services to ensure that charges for products and services meet criteria of profitability and public value. As with previous years, this review will be conducted over the summer and an updated strategy will be brought to the sub committee in the autumn in advance of the budget-setting process.

4.4.4 For the majority of the income lines it should be noted that the councils invest capital funding to maintain or replace equipment or infrastructure associated with these income lines, therefore this estimated additional income contributes to ongoing maintenance or replacement. For example, the councils periodically invest in waste vehicles to ensure the commercial and green waste services can be delivered.

- 4.4.5 The portfolio of commercial lines flows across a number of departments and portfolio holders, whilst it should be noted that some commercial activity is weighted to each council depending on the activity and level of activity. For example, for Worthing there is a higher volume of car parking, concessions and beach huts, whilst street markets are solely delivered in Adur.
- 4.4.6 The estimated budget impact has been modelled on a minimum inflationary increase of 3% increase, whilst some are projected to increase to match the current inflation level of 6.3% or beyond. The commercial services highlighted in the table within Appendix 2 signal those services that are estimated to rise above the minimum 3%. A number of these income lines have been reviewed and assessed to ensure the correct governance process is in place and any change in the pricing can be made ahead of the next billing cycle, whether calendar or financial year.
- 4.4.7 There are two areas where significant reset is required with respect to commercial income for the council:
- Parking
 - Bereavement
- 4.4.8 Parking income in Worthing has not recovered to the pre-pandemic levels, largely as a result of changes in working patterns, with more people working flexibly (including our own staff and Environment Agency employees as examples). The shift to cashless parking has also resulted in an increase in transaction charges which need to be reflected in the budget. In light of these issues the parking budget will be reset for 2024/25.
- 4.4.9 The council will retain free car parking in areas outside the town centre.
- 4.4.10 The bereavement service, particularly the crematorium, generates a significant net income for the council. However over the last few years the service has not met its income targets due to a number of factors including targets being set too high, a delay to the opening of the memorial garden and in recent months a lower death rate. The service also operates in a competitive commercial environment, with new crematoria opening locally and an increase in 'direct cremations'. Direct cremations are cremations without any service, with the ashes returned to

the bereaved at a later stage. It means families and funeral directors can take the deceased to any crematorium, not being bound by geography. In light of these challenges the bereavement service will be subject to an external review to inform the medium and long-term business plan for the service.

4.4.11 Alongside fees and charges, the other significant area of income is the strategic property investment funds (SPIF) for each council. Worthing Borough Council's SPIF is expected to generate £6.7m in 2023/24 exclusive of VAT and borrowing costs. This is up £2.0m on 2022/23. This is due to active management of the assets including rent reviews, securing zero voids, and through positive additions to the portfolio such as the acquisition of Southern House in November 2022. No properties were acquired in 2023/24.

4.4.12 Looking to 2024/25 and beyond, the portfolio will continue to be reviewed against its strategic objectives to ensure that it is the best use of borrowing, continues to generate revenue, and to ensure that they meet any expected government requirements such as the 2027 requirement that commercial properties hold an EPC of C or above (and a minimum of B from 2030) or they cannot be relet at lease end. Currently 11 of the 16 units in the Worthing portfolio are not compliant - an upgrade and/or disposals programme is being considered to address this. Also, in order to keep voids to a minimum, leases that are due for renewal will continue to be proactively managed.

5. Reserves position

5.1 Sections 26 and 27 of The Local Government Act 2003 require the council's Chief Financial Officer to comment on the adequacy of the council's reserves. The reserves have therefore been reviewed in accordance with best practice.

5.2 To enable a view to be taken on the adequacy of reserves, members need to be aware that, broadly speaking, there are two categories of revenue reserves relevant to the council. The General Fund Working Balance primarily is available to cushion the impact of uncertain cash flows and act as a contingency to meet unforeseen costs arising during a budget year (e.g. unexpected increases in the demand for services or losses in income). Earmarked Reserves are sums held for specific defined purposes (details are provided in Appendix 5) and to meet known or predicted liabilities. Both

categories of reserves can be used on a planned prudent basis to underpin the annual budget.

- 5.3 The council had protected and built the reserves over a number of years. The reserve levels in the past five years are shown below:

History of reserves	Year ended 31st March				
	2019	2020	2021	2022	2023
	£'000	£'000	£'000	£'000	£'000
General Earmarked Reserves (a)	2,307	2,085	2,795	2,773	1,993
Tax Smoothing Reserves	905	437	7,688	3,306	2,756
Grants and Contributions	742	806	1,437	1,067	754
Total earmarked reserves	3,954	3,328	11,920	7,146	5,503
General Fund Working Balance (b)	869	1,543	1,543	1,347	1,347
Total reserves	4,823	4,871	13,463	8,493	6,850
Available reserves for general purposes (a+b)	3,176	3,628	4,338	4,120	3,340

* In 2020/21, and to some extent in 2021/22, the government funded significant additional business rate reliefs to support business during the Covid pandemic. Due to timing differences within the business rate system, the council actually funded the impact of these additional reliefs in the following years which was financed by the grant provided by the Government and which had been placed into reserves for this purpose.

However the past three years have been very difficult, firstly due to the impact of the pandemic on the council's finances and more recently the significant impact that the current high level of inflation is having on the council's financial position.

- 5.4 The council's established policy is to maintain the General Fund Working Balance at between 6 – 10% of net revenue expenditure. The current balance as at 31st March 2023 is £1,347,350. The balance is 9.50% of net 2023/24 revenue expenditure and is in the upper part of the range of 6% -10% set by the council. However as a result of the current financial challenges that the council is experiencing, it is expected that the council will have to significantly reduce its reserves in 2023/24 by around £1.6m with the result that current projections indicate the working balance reserve will reduce to approximately £242,000 by the year end.

- 5.5 The council has a provision within the budget to contribute £200,000 to the working balance over the few years as strategy to rebuild reserves. In addition it has a contingency budget for inflation costs of £150,000 which can be used ,if not utilised, to contribute to reserves on an annual basis. Any underspend can also be used to contribute towards the reserves.

The year-end level on the General Fund Working Balance for the foreseeable future, therefore, is estimated as follows:

		£'000	%
31.03.2023	Balance carried forward – per Final Accounts	1,347	9.5
31.03.2024	Use of reserves expected to fund the potential 2023/24 overspend.	242	1.7
31.03.2025	Planned contribution expected	442	3.1
31.03.2026	Planned contribution expected	642	4.5
31.03.2027	Planned contribution expected	842	5.9

- 5.6 The working balance is currently projected to be too low at the year end. Whilst there are obviously plans to rebuild this reserve, these should be accelerated where possible by:

1. Continuing to mitigate the overspend in 2023/24 as far as possible to protect the current level of reserves
2. Creating underspend in the 2024/25 budget by accelerating the delivery of savings to balance the budget
3. Creating a specific 'contribution to reserves' budget from the 2024/25 budget to further repair the council's financial health at a faster pace. An amount of £200,000 per year has been allowed for from 2024/25 onwards.

It is extremely important that the council maintains its residual reserves at the planned amount for the foreseeable future.

- 5.7 The council has two other measures in place to further manage risk and bolster the reserves:

- i) As part of the initiative to invest in commercial property, an element of the additional rent raised every year is being set aside into a specific reserve to manage void periods on these properties and to set aside resources to fund future investment needs. The current annual provision is £550,000 and this will gradually be increased by £100,000 over the next 5 years to a level of £1,050,000 per year by 2028/29.

- ii) Following the LGA peer review which was conducted in 2018, there was a change in approach to the management of general inflation (excluding inflation on items such as salaries, rates, utilities, and contractual commitments). This is no longer allocated out this year but held centrally in the Corporate Management budget. This budget will be allocated out where the inflationary pressure can be demonstrated. Any unutilised budget at the year end will be transferred to the reserves and the budget offered up as a budget saving for the forthcoming year. This also provides a contingency budget for in-year pressures.

5.8 In the medium term, once the challenges of the next couple of years have been addressed, the council should review the position and take proactive steps to further bolster the overall reserves.

5.9 The estimated balance of general fund earmarked reserves as at 31st March, 2024 is £1.1m excluding the Collection Fund Smoothing Reserve, any Section 106 sums held for future environmental improvements, grants, and any specific capital resources. Overall, the level of reserves held by the councils is expected to change over the forthcoming years as follows:

	Balance as at 31st March				
	2023 Actual	2024 Est.	2025 Est.	2026 Est.	2027 Est.
General Earmarked Reserves	1,993	848	1498	2248	3098
Collection Fund Smoothing Reserves	2,756	0	0	0	0
Grants and Contributions	754	754	754	754	754
Total Earmarked Reserves	5,503	1602	2252	3002	3852
General Fund Working Balance	1,347	242	442	642	842
Total Reserves	6,850	1844	2694	3644	4694

A detailed schedule of the earmarked reserves is attached at Appendix 5. The significant risks to the overall budget and the council's reserves are detailed below.

5.10 Given the low level of reserves, it is now even more critical that these reserves be used only as a funding resource of last resort until such time as the reserve level has recovered to some extent. The council has over the past year

minimised new calls on such resources, utilising the ability to use capital receipts to fund initiatives to generate budget savings where possible.

5.11 However the size and nature of the risks to the overall budget leaves the council with little room for using these reserves for new on-going spending initiatives. The council should maintain its current policy of spending its scarce earmarked reserves on:

- supporting one-off rather than recurring revenue expenditure
- dealing with short-term pressures in the revenue budget
- managing risk to the council's budget

6. Delivering the council's priorities

6.1 In 2024/25, Worthing Borough Council will continue to work towards becoming the greenest, fairest Coastal town in the UK. The golden threads of addressing the climate emergency and improving the wellbeing of communities marry up with the continuing feedback received from residents throughout the year, including big listen events and consultations, with a focus on:

- Keeping the borough clean, green and fair and ensuring that our streets, town centre and high streets continue to be cared for and are welcoming to everyone in our community.
- Developing a mixed model of housing to address all resident needs which reflects an ambition for much greater access to social housing
- Further development of an ambitious programme of seafront and town centre regeneration.

6.2 In order to deliver these priorities Appendix 3 outlines specific investments needed, beyond organisational capacity and prioritisation, in order to achieve these goals. These investments include:

- Clean: Our waste and cleansing review and the development of our neighbourhood model.
- Green: Our ongoing commitment to projects such as Sussex Bay and the Worthing Heat Network as well as the development of a Nature Plan to drive urban greening and renaturing across the town.
- Fair: Ongoing support for the Cost of Living crisis and an redesign in our approach to community capacity and resilience to better enable us to work alongside our communities.

6.3 The councils will publish a new housing strategy in 2024/25 which will outline the council's approach to delivering housing and will include commitments to:

- An enhanced proactive approach to homelessness that is informed by an equalities impact assessment to ensure no one is left behind.
- Development of a mixed model of housing which ensures that all our citizens have access to secure high quality homes.
- A commitment to addressing the climate emergency as part of how we develop new homes in Worthing.

6.4 The commitment to seafront and town centre regeneration is underpinned by the capital programme and improved use of CIL monies but additional revenue investment has been highlighted to:

- The development of Montague Gardens
- The progress on the Grafton site and the development of plans for the lido
- The delivery of the new Worthing Integrated Care Centre
- Continued focus on Union Place and Teville Gate
- The development of active travel plans which represents a commitment to developing new infrastructure as embedding wellbeing in our regeneration approach.

6.5 The organisational redesign work will provide additional capacity for participative activity, underpinning how Worthing Borough Council is developing as a council for the community. This is also reflected in the neighbourhood model redesign outlined in Appendix 4. In developing participatory capacity and capability the council will focus:

- Developing a programme of youth engagement;
- Ensuring inclusion and diversity is designed into all aspects of our work; and
- Building a network of community hubs - codesigned with communities alongside the development of the neighbourhood model of delivery.

6.6 Financial resilience and organisational development are also key priorities for each council in the shared service arrangement:

6.6.1 The need to deliver a balanced budget is a central obligation of local government which has become increasingly difficult to achieve. As can be seen in appendix 4 and will be discussed in more detail in the subsequent JSC

report, the councils are in the process of an ambitious organisational redesign with the goal of making the organisation more resilient, participative and adaptive as outlined in Our Plan.

6.6.2 The council will prioritise the recovery of its reserve position as outlined in the previous section. The council will also continue to maintain tight spending controls throughout the 2024/25 as have been outlined in recent monitoring reports in order to ensure close tracking of the 2024/25 budget going forward.

6.7 Funding the costs of delivering the budget savings

The savings identified represent service and staff changes which will require some investment up front, details of which can be found in Appendix 4. To deliver the expected level of savings the councils will be required to fund a number of strands of work as follows:

- Delivery support to the organisational change programme which is delivering a new more resilient operating model;
- External advice for service areas where specialised knowledge is required;
- Any departure costs arising from the proposals;
- Specialist people and change support and advice over the two year programme

6.7.1 The Organisational Design programme is planned to deliver savings of £4m over 2 years for Adur and Worthing, the cost of the work required to support the delivery is expected to be £1.56m. This is set out in more detail in Appendix 4.

6.7.2 Given the level of reserves, it is planned to use the capital receipts flexibility regime which allows councils to release capital receipts to fund initiatives to generate a saving. The estimated use of receipts for Worthing of the cost of change is £936,000. As at 31st December 2023, the council held £1.846m uncommitted and available capital receipts.

6.7.3 There is a restriction on the funding of departure costs, only statutory redundancy and pension costs can be funded from capital receipts.

7. Significant risks

7.1 Members will be aware that there are several risks to the council's overall budget. These can be summarised as follows:-

- (i) **Inflation** - A provision for 4.5% inflation has been built into pay budgets; general non-pay budgets have been increased by 3%. Whilst the Bank of England inflation forecasts expect that inflation will continue to fall in 2024 and return to 2% in 2025, there is a risk that inflation will run at a higher rate than allowed for within the budget. Each 1% increase in inflation is equivalent to the following amount:

	1% increase
	£'000
Pay	176
Non-pay	137

- (ii) **Withdrawal of funding by partners** - All budgets within the public sector are under scrutiny which may lead to partners reassessing priorities and withdrawing funding for partnership schemes. Consequently, the council may lose funding for key priorities and be left with unfunded expenditure together with the dilemma about whether to replace the funding from internal resources. This is a particular issue for such services wellbeing and sustainability which receive considerable funding from external sources.
- (iii) **Income** - The council receives income from a number of services which will be affected by demand particularly at the moment due to the continuing impact of the pandemic and the cost of living crisis. These include land charges, crematorium income, trade and green waste services, development control and now business rates. Whilst known further reductions in income have been built into the proposed budgets for 2024/25: the pace of recovery may be slower than anticipated; income may fall further than expected; or new targets for commercial income may not be met.

The council is investing in new commercial property, as leases expire there is an increased risk of loss of income from voids. To mitigate this risk the council provides for an annual provision for void rents which will be £450,000 in 2023/24. This will be increased annually in line with the level of investment in the property portfolio and the associated risk, the current assumption allows for a £100,000 increase on the provision per year.

- (iv) **Demand for housing services** - Demand has been increasing for housing services at a significantly higher rate than in previous years. Whilst this may be a temporary pressure, the council has increased investment in this service to manage these costs. There remains a risk that demand for the service will continue to escalate.
- (v) **Pace of change** - The organisational change programme outlined in Appendix 2 is ambitious and delivering this at pace will require considerable officer time as well as active engagement from the teams directly affected in order to be successful.
- (vi) **General election and political uncertainty** - In many ways the next year will be no less uncertain than recent experience - compounding the uncertainty of a lack of long term funding agreements. There is additional turbulence created by the anticipated general election as well as organisational focus needed to deliver an election which does need to be managed.
- (vii) **Lack of clarity with respect to the Environment Act** - As was highlighted in the December JSC budget update, the implementation of the Environment Act 2021 is as present a significant unknown with a likely shortfall in government funding to support the required changes.

8. Consultation

- 8.1 The council undertook a public consultation exercise this year, the outcome of which was reported to JSC in December 2023. The council received 969 responses. The survey targeted a representative set of responses from residents, council staff, businesses, and other organisations, using various engagement mechanisms such as the website, email, press releases and social media channels.
- 8.2 To ensure consistency, both Adur and Worthing included three key questions they engaged residents on last year to understand:
 - How comfortable people would be with potential spending reductions on a set of areas of focus
 - What areas people would like to prioritise for investment
 - Options on council tax
- 8.3 The consultation included the option for people to share other comments they would like on key themes that are important to them to inform the budget engagement. In addition, Worthing Borough Council included a question on

what areas it should prioritise in working differently with the residents and communities of Worthing.

- 8.4 Respondents expressed discomfort with spending reductions in key areas, notably in addressing the cost of living crisis, supporting those most in need, health and wellbeing services, homelessness prevention, street cleaning, parks, seafront maintenance and supporting high streets/small businesses.
- 8.5 Residents prioritised investment in areas such as addressing the cost of living crisis, supporting those most in need, housing, and youth-focused initiatives. However, there were varying opinions on sustainable travel infrastructure, public realm investment, and support for local businesses.
- 8.6 The potential for residents improving their communities is identified in areas like maintaining parks, addressing the cost of living crisis, supporting people most in need, health and wellbeing, and high streets/small businesses. The findings suggest residents are enthusiastic in participating in decision-making and collaborative efforts with the council.
- 8.7 Council tax preferences included a majority supporting a 3% increase for enhanced investment in services, while some preferred a 2% increase to maintain services without additional spending. There were also preferences for a 1% increase with spending reductions or freezing council tax with further spending reductions.
- 8.8 Themes emerging from free-text comments covered a range of topics, including financial responsibility, infrastructure, development and planning, housing affordability, community engagement, environmental concerns, transportation and parking, economic support for businesses, cultural services and wellbeing, education and youth services, public safety, political accountability, and health services. Residents expressed diverse opinions and called for transparency, accountability, and improvements in various aspects of local governance and services.
- 8.9 Officers and members have been consulted on the development of the budget.
- 8.10 The insights gathered from the engagement exercise will inform the development of the budget for 2024/25, with individual considerations for Worthing Borough Council.

9. Update to prudential indicators

- 9.1 The council's budget fully reflects the cost of financing the capital programme. Members have previously approved sufficient growth to accommodate the proposed capital programme. The council has a fully funded capital programme and the associated revenue costs are built into the budget for 2024/25 and future years.
- 9.2 Under the Prudential Code of Practice and the capital finance system introduced in April 2004, the capital programme is based on the council's assessment of affordability. This includes any new borrowing which the council wishes to undertake.
- 9.3 The Code of Practice was revised in 2023/24. The freedom for local authorities to set the scope and size of their capital plans remains unrestricted, but the prudential system processes have been strengthened to set out greater consideration of prudence, with sustainability and risk reporting improved through the governance procedures. There is also stronger guidance on commerciality which effectively prohibits solely commercial investment and requires the council to regularly review current commercial investments. However this change was pressaged by the new rules surrounding borrowing from the PWLB and the council has long since adapted its property investment criteria.
- 9.4 The Prudential Code of Practice requires the council to set a series of indicators to show that the capital programme has due regard to affordability, sustainability and prudence. These are included with the annual Treasury Management Strategy Statement which is due to be considered by JSC on the 8th February 2024 and which will be included in the council budget pack for approval.

10. Comments by the chief financial officer

- 10.1 Section 25 of the Local Government Act 2003 requires an authority's Chief Financial Officer to make a report to the authority when it is considering its budget and council tax. The report must deal with the robustness of the estimates and the adequacy of the reserves allowed for in the budget proposals, so members will have authoritative advice available to them when they make their decisions. The section requires members to have regard to the report in making their decisions.
- 10.2 As members are aware, local authorities decide every year how much they are going to raise from council tax. They base their decision on a budget that sets

out estimates of what they plan to spend on each of their services. Because they decide on the council tax in advance of the financial year in question, and are unable to increase it during the year, they have to consider risks and uncertainties that might force them to spend more on their services than they planned. Allowance is made for these risks by:

- making prudent allowance in the estimates for each of the services, and in addition;
- ensuring that there are adequate reserves to draw on if the service estimates turn out to be insufficient which has been considered in detail on section 7 of the report.

10.3 Overall view on the robustness of the estimates:

Subject to the important reservations below, a reasonable degree of assurance can be given about the robustness of the estimates and the adequacy of reserves. The exceptions relate to:

- (1) The provision of estimates for items outside of the direct control of the council:
 - Income from fees and charges in volatile markets particularly at the moment given the cost of living crisis and the continuing impact of the pandemic, e.g. car parks and development control fees.
 - External competition and declining markets, particularly during a recession. E.g. Local land charges and building control fees.
 - Changes to business rate income due to revaluations, redevelopments and increases in mandatory rate relief.
- (2) Cost pressures not identified at the time of setting the budget. This would include items such as excess inflation.
- (3) Initiatives and risks not specifically budgeted for.

It will therefore be important for members to maintain a robust budget monitoring regime during 2024/25.

10.4 The Chief Financial Officer's overall view of the robustness of the estimates is, therefore, as follows:

The processes followed are sound and well established and identical to those that produced robust estimates in the past. The council has also demonstrated that it has a sound system of financial management in place.

11. Council Tax Setting

11.1 The council is obliged to raise the balance of its resources, after allowing for any government grant and business rates, to finance the General Fund Revenue Budget from its local council taxpayers. The council tax for Worthing Borough Council will be added to the precepts from West Sussex County Council and the Sussex Police and Crime Commissioner to form a combined council tax to levy on the taxpayers of Worthing. This will be formally approved by Full Council on 20th February 2024 via a report on the council tax determination.

11.2 Once the cabinet has reached a decision on the total budget requirement it wishes to recommend to the Full Council for the 2024/25 budget, the resulting council tax for the borough can be set. This takes into account the Total Aggregate External Finance (Government grants and Business Rates contributions) and any contribution to or from the local Collection Fund.

11.3 Worthing Borough Council

(a) The following table shows the net sum to be raised from local council taxpayers in 2024/25 prior to the consideration of the budget proposals. This is based on 2.99% council tax increase which is the maximum increase permitted without triggering the requirement for a referendum:

	£	£
Net 2024/25 Budget *		15,074,580
Less: Aggregate External Finance		
Baseline Funding	-,2,909,780	
Additional Retained Business Rate income	-967,870	
Funding Guarantee Grant	-602,110	
New Homes Bonus	-14,840	
Revenue Support Grant	-116,320	
Services Grant	-17,130	
Contribution to the Collection Fund surplus	-69,270	
		-4,697,320
Minimum amount to be raised from council tax		10,377,260

Net additional impact of proposals identified in Appendix 3 if all approved	150,000
Amount to be raised from council tax based on 2.99% council tax	10,527,260

- * 2024/25 budget requirement after any savings proposals (Appendix 2) and contributions to or from reserves required to balance the budget.

Within section 5 of the report, members are given the options for the council tax and approving the service investment proposals.

(b) Council Tax Base

The council's tax base for 2024/25 is 39,330.7 Band D equivalent properties. There is a decrease to the current year base of 39,364.6 which is due to the impact of the Council Tax Support Scheme. The full calculation of the tax base is shown in Appendix 6.

(c) Worthing Borough Council Band D council tax

In Section 4.3, the options for the council tax increase are discussed in detail. An average council tax increase of 2.99% will ensure that the council has a balanced budget, and will lever in sufficient additional resources to provide for a contribution to depleted reserves and fund the service investment proposals recommended for approval at Appendix 3 and deliver a balanced budget.

11.4 West Sussex County Council and Sussex Police and Crime Commissioner

- (a) The county council's requirements are expected to be confirmed on 16th February, 2024. The proposed Sussex Police and Crime Commissioner's 2023/24 budget is due to be considered by the Sussex Police and Crime Panel (PCP) on 26th January 2024.

	2023/24 £	2024/25 £
West Sussex County Council	1,633.41	t.b.c
Sussex Police and Crime Commissioner	239.91	t.b.c
TOTAL	1,873.32	t.b.c.

11.5 The final figures for all authorities will be incorporated into the formal council tax setting resolution to be presented to the Full Council at its meeting on 20th February 2024.

12.0 Legal implications

12.1 The Local Government Act 2003 places an obligation on the Chief Finance Officer to set prudential indicators and report to the council on the robustness of the estimates and the adequacy of reserves which are addressed within the body of this report.

12.2 The Local Government Act 2003 requires that the council sets a balanced budget. The purpose of this report is to demonstrate how Worthing Borough Council intends to meet this legal requirement for 2023/24.

12.3 The Local Authority Finance Act 1992 provides the power for Full Council to authorise the proposals for council tax.

12.4 Section 3(1) of the Local Government Act 1999 (LGA 1999) contains a general duty on a best value authority to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

13. Conclusion

13.1 This has once again been a difficult year financially with considerable macro-economic headwinds as well as local pressures such as housing need. This has driven considerable impacts in our communities as well as on our finances.

13.2 Despite this the council is in a position to set a balanced budget and has been able to ensure the continued delivery of important strategic projects as well as continue to meet its commitments with respect to the climate emergency. These are the projects which when delivered will help to drive the overall success of Worthing.

13.3 It is important to note however that the low level of reserves means that there is little contingency available and so tight budget control will be needed to ensure that this budget is delivered on.

13.4 Finally, the risks to this budget are outlined in this paper but will need to be closely monitored and managed. It's important to note that not all of those

risks are within the control of the council and so matters such as the funding for the implementation of the Environment Act 2021 continue to be of material concern to the council and will also be monitored carefully.

SUSTAINABILITY AND RISK ASSESSMENT

1. ECONOMIC

Through its strategies and operations, the council has an important role to play in the economic development of Worthing. The development of major regeneration projects, public realm and active transport initiatives support the development of a thriving economy, and the council's strategy to direct procurement and contracts towards local companies are key levers.

2. SOCIAL

2.1 Social Value

The council's housing strategy is key to supporting local residents and communities, as are the range of initiatives to help tackle the cost of living crisis. The council's use of data is helping target those most in need, offering support through our OneStop and Proactive services and signposting people to further help.

2.2 Equality Issues

These proposals have been developed with regard to the Equality Act 2010. No proposals contained within the proposals would require a detailed Equalities Impact Assessment with the exception of the organisational design work where impact assessments will be completed as part of the process.

2.3 Community Safety Issues (Section 17)

We are considering how these proposals impact safety in our communities and are ensuring that where possible these reductions do not have an adverse effect. Where possible we are working to create better alignment and organisational change to strengthen this work and ensure there is much better organisational ownership for our work around community safety.

2.4 Human Rights Issues

Matter considered and no issues identified

3. ENVIRONMENTAL

The council's budget is supporting the delivery of a range of carbon emissions reduction and biodiversity initiatives that is helping it meet its net zero 2030 commitments while also

providing leadership for others across the area, such as Worthing Hospital through the Worthing Heat Network scheme.

4. **GOVERNANCE**

Matter considered and no issues identified

WORTHING BOROUGH COUNCIL Revenue Budget Summary Statement 2024/25- 2028/29						
	2023/24 Base	2024/25	2025/26	2026/27	2027/28	2028/29

Review of clinical waste budget		18	18	18	18	18
Increase in Housing Needs budgets		250	250	250	250	250

¹ Every three years the pension fund administrators commission a review by the external actuaries to carry out a valuation of the pension fund. The main purpose is to monitor the assets of the fund against the liabilities of the pension benefits payable. The outcome of this triennial review determines the employer contribution rates the next 3 years. The review done in 2022 set out the contribution rates from 2023/24 to 2025/26 and these had been reduced since the previous valuation.

WORTHING BOROUGH COUNCIL

Organisational design programme

1. Purpose of programme

1.1 The programme has two core objectives:

1.1.1 To implement a new organisational design based on the principles and framework outlined in Our Plan which was adopted in Autumn 2022. The goal of this is to create a sustainable organisation which is adaptive, resilient and participative.

1.1.2 To provide a mechanism for delivering outlined savings targets in a way which protects frontline service delivery to the greatest extent possible and retaining our ability to deliver the ambitions of the two councils.

1.2 The implementation plan and initial projects will be reported to the March 2024 Joint Strategic Committee meeting. Progress of the programme will be reported to that committee on a quarterly basis from March 2024.

1.3 The programme will therefore incorporate the in-year spending controls into its governance and approach in order to ensure that organisational design and spending reductions are closely aligned.

2. Scope of programme

2.1 Service redesigns look across all revenue budgets for a service, including agency and contractor spend alongside staffing, contract spend and incidentals such as print and postage. By putting more budget lines into the scope of a single exercise, the process has maximised the opportunities to reduce the total cost of delivery without continuing to remove delivery capacity which is an outcome of the 'salami slicing' approach. The programme workstreams are outlined in this section.

2.2. Governance and performance systems

Governance and performance are core functions of a well run organisation. A priority is to redesign and support the subsequent organisational design work. A new internal governance system will be implemented as an early deliverable for the programme and will be reported to the Joint Audit and Governance Committee.

2.3 Digital and design

Digital transformation is essential to the successful delivery of these redesigns. The budget proposals include the extension of the digital rapid improvement team to deliver this work.

2.4 Contracts and procurement

In order to underpin the 6% savings target (£340K) on external contracts there will be strong corporate accountability, as well as additional training and personal development for managers to improve their organisational grip of this key area. Given the corporate track record of £200K annual savings (approx) for procurement, these additional measures support this higher target.

2.5 Commercial income development

The new organisational design will consolidate the council's commercial capability and also develop the organisation's ability to secure external funding. This capability will then develop a new commercial income strategy in advance of the 2025/26 budget as well as to manage in-year targets for income generation.

3. Programme design and implementation approach

- 3.1 The programme will address all areas of the organisation by creating a pipeline of redesign projects (areas of focus) which will then be programmed into delivery based on factors such as savings profile, support needed and annual delivery rhythms for the services involved.
- 3.2 Given the continued need for vacancy control, the programme will maximise use of vacancies in order to minimise impact on staff. It should be noted that given the current vacancy levels in the organisation due to this year's budget control measures, much of the capacity impact of removing staff is already being felt. Service redesign is now needed to balance out workloads and ensure that staff are focused on the right priority areas. While redundancies cannot be avoided, this approach will minimise them.
- 3.3 By embedding the current in-year controls into the programme governance, the programme team will be able to make real time adjustments to the delivery plans of the organisation and maximise opportunities for redesign.
- 3.4 The programme will be managed by the new People and Change function, supported by a multidisciplinary team which will include representatives from finance and legal. It will also incorporate the Rapid Improvement team.
- 3.5 The lessons learned from the organisational design programme will be acted on in real time to inform improvement on the wider building blocks to make the organisation adaptable, participative and resilient.
- 3.6 The organisational design programme will have costs associated with transformation. The

overall estimated cost for Adur & Worthing Councils is set out in the table below, and includes exit costs where needed which can include redundancy and pension costs, programme delivery support and external advice to support redesign.

Item	Description	Estimated cost
Staff change	Where redundancy can't be avoided some contingency is needed to fund associated exit costs	£800k
Delivery support	3 delivery managers plus additional delivery officer to support the programme over 2 years	£440k
External advice	For areas with considerable technical knowledge needed (such as waste, bereavement and others) external support will be needed to shape and test thinking	£200k
Support for managing change	1 People Specialist role to support the organisational change process over 2 years	£120k

- 3.7 Due to the reserve position, it is planned to use the capital receipts flexibility regime which allows the councils to release capital receipts to fund initiatives to generate a future saving. There is a restriction on the funding of departure costs. Only statutory redundancy and pension costs can be funded from capital receipts.

Year	Overall annual savings generated £	Annual saving Adur £	Use of capital receipts Adur £	Annual saving Worthing £	Use of capital receipts Worthing £	Nature of expenditure
2024/2025	2,226,700	890,800	336,100	1,335,900	504,120	HR and delivery support (to manage and support the delivery of the reorganisation design work over the 2 year programme). Associated Statutory departure costs. Expert/specialist advice on service design.
2025/2026	1,797,700	719,100	287,900	1,078,600	431,880	
Total	4,024,400	1,609,900	624,000	2,414,500	936,000	

The total capital receipts available and uncommitted as at 31st December 2023:

Adur £3.980m
Worthing £1.847m

Draw down from the cost of change fund will be monitored via the quarterly reports to JSC and the normal scheme of delegation will apply with respect to decision making.

4. Initial areas of focus

Each area of focus has been developing proposals based on its overall operating model - allowing savings to be made with respect to management, removing duplication with respect to support roles and addressing capacity issues by implementing digital solutions. Grant funding has also been reviewed to ensure that the councils are maximising the impact of external monies while addressing the risks of posts being underwritten by uncertain income.

Further areas of focus will be developed over the course of 2024/25 and reports will come to the JSC as they are programmed.

4.1 Neighbourhood model

4.1.1 Summary: The neighbourhood model is the most ambitious of the areas of focus. Its objective is to change how the councils work in the neighbourhoods in a way that better uses the strengths of the frontline staff, residents and partners to deliver the services citizens see and use every day.

4.1.2 The model will be implemented in phases in order to ensure that ideas can be developed and tested with communities and stakeholders and a careful transition delivered:

- The first phase of implementation will be the redesign of key frontline services in order to ensure that they work to a common physical footprint based on neighbourhoods and have shared planning and prioritisation to make sure teams are most effective on the ground.
- The next phase will look at ensuring that capabilities such as participation are embedded in the model - developing the councils' ability to work more effectively with stakeholders and its communities.
- Finally the volunteering and participation 'offer' will be developed, working alongside communities in order to support their ambitions.

4.1.3 The following areas of organisation have been identified so far for review as part of the neighbourhood model, however this model may draw in other aspects during the long-term

development and delivery of working with and throughout the neighbourhoods:

- Parks & Foreshore
- Sustainability (Nature, Circular Economy & Sustainable Transport)
- Cleansing
- Community Assets and Grants

4.2 Housing redesign

4.2.1 Summary: The housing redesign will prioritise prevention and early intervention of homelessness. It will enhance collaboration across community services and the wider council to collectively address housing challenges and opportunities.

4.2.2 This redesign has been in discussion for some time and will embed the proactive principles that have been developed by the proactive project team. This redesign will focus on addressing the costs and human impacts of the increased housing need across both councils and maximise the use of grant funding in this area. The team will also need to continue to manage and deliver the Adur Homes improvement plan.

4.2.3 The following areas of organisation have been identified for review for the housing redesign:

- Housing needs
- Adur Homes
- Health and Wellbeing teams (see below)
- Private sector housing

4.3 Resident services

4.3.1 Summary: The resident services redesign will develop a front door for residents to access the right help when they need it in a quick and easy way. This will enable residents to solve the majority of their issues online to free up staff to proactively prioritise residents most in need.

4.3.2 This work builds on the work of the rapid improvement team in 2023/24 which provides a solid foundation for further digitisation work.

4.3.3 This change will affect the following teams and services:

- Revenue (council tax and NNDR (national non-domestic rates))
- Benefits
- Customer Services
- Customer Insight
- Business Support

4.4 Community Capacity and Resilience

4.4.1 With participative being a key principle of Our Plan, communities, prevention and wellbeing will be at the centre of what the councils do. Following the departure of the head of service for community capacity and resilience, the organisation is working through proposals to integrate and align the core functions of the team.

4.4.2 The savings for this area of focus will be filled through deletion of the head of service post (which is vacant as of end of January 2024) to better align to the service offer above.

- Participation: Combine engagement resources and lead it from the new People and Change function. This will strengthen a coordinated approach to participation across the organisation that makes the best use of community capacity and is integrated into the strategic priorities.
- Prevention and wellbeing: Embedding wellbeing in the housing team to develop a joined-up offer. This will provide leadership for residents around prevention, and create the opportunity to redesign the health and wellbeing offer to better develop approaches that support early intervention.
- Community safety and safeguarding: Put the safety of residents and safeguarding right at the centre of the organisation in the People and Change function. This includes delivering statutory responsibilities and duties, and the reviewing of community safety partnership activities as part of this design work in 2024/25.
- Business development: Key functions and activities, such as community assets, grants, commissioning, contracts, responsive activity and levered in funding. These are to be better aligned with the councils' place-based and corporate work and will be aligned to the anticipated commercial function.

4.4.3 This change enables these functions to operate more effectively with foundational delivery areas such as housing and increases the level of CLT focus on them - mitigating the capacity impact of removing the head of service post.

4.4.4 This change will affect the following teams and services

- Safeguarding
- Safer Communities
- Business Development
- OneStop
- Wellbeing

- Going Local
- Grants and Commissioning
- Participation

4.5 Building the pipeline

4.5 Building the pipeline

An ongoing pipeline of service redesigns are being planned in order to continue to work towards a resilient staffing model that reflects the organisational design needed to deliver Our Plan. This pipeline has savings targets assigned which are subject to change as the proposals are developed. These further areas of focus have plans in development which will be reported on at JSC as outlined above.

4.5.1 Bereavement

Bereavement services address emotional, social, ethical and environmental needs, by facilitating meaningful farewells. It is important to recognise that bereavement services also play a vital role in the financial health of the councils. As an income generator, this service allows the councils to reinvest in the community, and support various other initiatives that uplift and empower residents. These services will be reviewed through a refresh of the service design and commercial offer.

4.5.2 Core Services

At the very heart of the organisation lies Core Services (finance, legal, procurement, HR and digital) who help ensure the seamless functioning of council operations. In a world where adaptability is the key to resilience, reviewing Core Services will help better support frontline services who directly impact the lives of communities. It will ensure teams have the tools, resources, and support needed to deliver. This review is a commitment to continuous improvement. It will reshape Core Services, ensuring they not only meet today's demands but also build a solid foundation for a resilient and thriving future.

4.5.3 Place and Economy

The Place and Economy department helps fuel inclusive economic growth and fosters skills and innovation. The organisation wants to align these services more effectively with its core values of adaptability, participation, and resilience as well as also reviewing the service offer in light of the neighbourhood model as it develops.

4.5.4 Regenerative Development

The regeneration team has been a catalyst for shaping places across Adur and Worthing. It has provided the driving force needed to breathe life into the physical infrastructure and spaces in local areas. To anticipate future challenges, it is essential to take a step back and reflect on regenerative development efforts as part of the commitment to continually being adaptive, participative and resilient.

4.5.5 Waste redesign

- 4.5.5.1 Redesign work in the waste service is anticipated once the impact of the Environment Act 2021 is understood, and preparatory work in the form of a review is already underway to support this.
- 4.5.5.2 The Environment Act 2021 will have a major impact on the organisation's waste service. This legislative milestone will undoubtedly reshape the landscape of waste management, calling for an evolution in the organisation's approach. While the full impact of the 2021 Act is yet to be unveiled, the organisation is not sitting idle. It is already preparing for the challenges and opportunities it presents, in the form of a comprehensive review. This seeks to bolster resilience and adaptability, ensuring that the waste service remains at the forefront of sustainable waste management.
- 4.5.5.3 The councils are committed to a meticulous and thorough examination of all opportunities for savings, cost-effectiveness, and sustainability. The aim is to ensure that every decision made in this area is grounded in a deep understanding of the evolving waste management ecosystem.
- 4.5.5.4 Further discovery work will be undertaken over the coming months to identify what additional opportunities can be added to this pipeline of organisational redesign work.

5. Conclusion

- 5.1 This is an ambitious programme of change which delivers both savings and improvements for the councils.
- 5.2 The pace at which this needs to be delivered is also ambitious and a detailed risk mitigation plan will be developed as part of programme governance alongside detailed monitoring of progress. A key risk is the anticipated Environment Act 2021 implementation which has the potential to derail ourselves and many other councils if the funding approach is not addressed.
- 5.3 In delivering this programme the objective is an organisation which, based on current projects and understanding of government funding, is sustainable and will be able to lift its head up from annual saving rounds in order to focus on wider ambitions. There is much to do but very good reasons to do it.

SCHEDULE OF EARMARKED RESERVES								
		Balance as at 01.04.23	Planned Contributions	Planned Withdrawals	Forecast Balance as at 01.04.24	Planned Contributions	Planned Withdrawals	Forecast Balance as at 31.03.25
		£'000	£'000	£'000	£'000	£'000	£'000	£'000
1	CAPACITY ISSUES RESERVE Purpose: The Capacity Issues Reserve was set up in 2005/06 to give the council scope to deal with a range of cost pressures expected to arise from 2006/07 onwards.	882		-473	409	-	-	409
2	INSURANCE RESERVE Purpose: The Insurance Reserve was established in 1993/94 to develop risk management, fund self-insurance and to achieve longer-term revenue savings.	230			230			230
3	PROPERTY INVESTMENT RISK RESERVE Purpose: To offset future void rental periods in investment properties and to provide for future maintenance of the commercial property portfolio.	450			450	650	-	1100
4	LEISURE LOTTERY & OTHER PARTNERSHIP Purpose: The Leisure, Lottery & Other Partnerships Reserve was established in 1995/96 to assist in financing capital schemes attracting substantial support from the National Lottery distributor bodies & other funding agencies & organisations. This reserve is currently earmarked for support to the Museum Redevelopment bid & the Football Foundation bid.	29			29	-	0	29

SCHEDULE OF EARMARKED RESERVES

WORTHING BOROUGH
COUNCIL

Worthing Cabinet
6th February 2024

Key Decision [Yes/No]

Ward(s) Affected: All

Investing in our Places - Capital Programme 2024/25 to 2026/27

Report by the Director for Digital, Sustainability and Resources

Executive Summary

1. Purpose

1.1 This report recommends the investment programmes for Worthing Borough Council which supports both the strategic ambition of the Council and the vital regular investment toward the upkeep and improvement of our public assets.

1.2 Members are now asked to approve the new schemes for 2024/25. This report recommends:

- the schemes for inclusion in the overall Capital Investment Programmes for 2024/25; and
- an indicative list of schemes for 2025/26 which will be confirmed next year.

1.3 The report also informs the Cabinet of the resources available for future capital investment, and updates Members about the financing of the proposed programmes.

1.4 The following appendices have been attached to this report:

- | | | |
|-------|-------------------|--|
| (i) | Appendix 1 | 2023/24 Budgets reprofiled to 2024/25 for scheme delivery in 2024/25; |
| (ii) | Appendix 2 | New schemes to be included in 2024/25 Capital Investment Programme including the share of the Joint Strategic Committee programme; |
| (iii) | Appendix 3 | Full Worthing Borough Council capital investment programme for 2023/24 - 2026/27 |

- (iv) **Appendix 4** Partnership capital investment programme for 2024/25 - 2026/27

2. Recommendations

2.1 The Cabinet is recommended to:

- (a) Consider the General Fund Capital Investment Programmes for 2024/25 and confirm the schemes to be included as detailed in Appendix 2 and 3.
- (b) Recommend the full programme detailed at Appendix 3 for approval by Council on the 20th February 2024.

3. Context

- 3.1 The development of the capital programme is guided by the Capital Strategy which outlines the level of resources available and sets the framework for the approval and delivery of the programme. The Adur and Worthing Capital Strategy 2024 - 27 was updated and agreed by the Joint Strategic Committee (JSC) on 11th July 2023. The financial impact of the proposed Capital Investment Programme was set out in the outline 5 year forecast included in the “Developing a revenue budget for 2024/25 in difficult economic conditions” report which was agreed by the Joint Strategic Committee on 11th July 2023.
- 3.2 The Capital and Budget Strategies set out the following:
- (a) A maximum level of funding available per year to fund new General Fund schemes was to be limited to £1.5m in 2024/25 and potentially beyond. The amounts recommended for the General Fund reflect concerns about affordability at a difficult financial time when interest rates are significantly higher than in previous years.
 - (b) The Budget Strategy highlighted concerns about affordability in the medium term. Members of the Council were made aware that the number, age and condition of Council’s assets continue to be a cause for concern. The funding of the programmes is to consist of prudential borrowing, capital grants, revenue/reserve funding and capital receipts.

- (c) Additional capital expenditure will only be agreed where additional funding from capital grants, contributions, earmarked receipts, approved additional prudential borrowing or use of reserves has been secured.

3.3 The Capital Strategy agreed in July 2023 confirmed the approach to setting the capital investment programme. The strategy confirmed the following resource allocations for 2023/24:

- £700,000 set aside for partnership schemes principally to fund the planned vehicle and equipment replacements.
- £185,500 set aside for the delivery of the digital strategy.
- The Strategic Property Investment Fund to remain capped at an overall investment amount of £150m of which £5.9m remains. This can only be used to fund projects which support: the wellbeing; affordable housing development; and economic regeneration of the area.

3.4 As the July 2023 Capital Strategy explained, the top slicing of the capital programmes in each year to ensure funding for key strategic issues such as ICT and the other partnership programmes will mean that, of the overall resources available in 2024/25, only the £614,500 of resources would remain for other schemes.

4. Supporting the delivery of the Council's priorities

4.1 In 2024/25, Worthing Council will continue to work towards becoming the greenest, fairest coastal town in the UK. The golden threads of addressing the climate emergency and improving the wellbeing of communities marry up with the continuing feedback received from residents throughout the year, including big listen events and consultations, with a focus on:

- Keeping the borough clean, green and fair and ensuring that our streets, town centre and high streets continue to be cared for and are welcoming to everyone in our community.
- Developing a mixed model of housing to address all resident needs which reflects an ambition for much greater access to social housing.
- Further development of an ambitious programme of seafront and town centre regeneration.

4.2 In order to deliver these priorities, Appendices 1-4 reflect the Council's commitment to pursuing Capital Programme priorities that are fair, green and local. As part of this approach, the programme is also designed to ensure that

buildings and spaces are safe to use and that we make appropriate investments in our assets for the longer term.

- 4.3 It is important to remember that the Capital Programme runs ‘across’ financial years and projects are often phased to ensure that they can be funded and their implementation resourced over a longer time period. Accordingly, a number of projects referred to below have already begun or are scheduled to commence as a result of funding identified in the 2023/24 Capital Programme. Other projects listed (including the Heat Network and Colonnade House) are important elements of the Programme but do not require direct funding from the Capital Programme as they attract funding from other sources.

4.4 **Decarbonisation and the Worthing Heat Network**

- 4.4.1 The installation of energy efficient technologies across the Council’s buildings and its wider estate will make a vital contribution to the Council’s carbon reduction targets as well as delivering financial savings. The intention is that this work, which has begun with the larger buildings that form part of the corporate estate, will extend to include community buildings and assets across Worthing.

- 4.4.2 The Council is in the process of supporting the delivery of the Worthing Heat Network (a £9m+ project). This network will provide low carbon heating to public buildings in the area with the potential to expand and deliver within the area. The heat network will connect numerous council buildings such as the Town Hall, Portland House and the Connaught Theatre. With further external funding, it is also aiming to include Splashpoint, the Pavilion Theatre and the Museum.

4.5 **Digital strategy investments and cyber-security**

- 4.5.1 The Council plans to make a series of investments to enhance the Council's digital environment and deliver improvement in service delivery. The indicative programme of investments is set out in the table below:

	2023/24 Approved	2024/25 Proposed	2025/26 Indicative	2026/27 Indicative
	£'000	£'000	£'000	£'000
Digital Cyber Security programme	41	101	60	60
Planning and building control document management system	42	80		
Cemeteries and Crematorium software		112		
Identity and Access Management	157	32		

Ultrafast Broadband Unallocated Digital Strategy Provision	53	1,325	50	50
	293	1,649	110	110

4.5.2 It is imperative that our communities are not placed at risk through an absence of up to date cyber-security. Our hardware and digital infrastructure will continue to be modernised to ensure resilience, reduce risks to business continuity and help mitigate against cyber security risks. The hardware budget also covers investment in our future data centre, which will have a significantly reduced footprint, and replacement equipment including laptops, PCs, and monitors used by staff.

4.6 Temporary and Emergency Accommodation (EA/TA)

4.6.1 Providing temporary and emergency accommodation to meet local people's needs remains a major priority for the Council. Each new scheme is the subject of a business case to help ensure that best consideration is achieved and the most appropriate accommodation is delivered. Capital expenditure to deliver this accommodation is likely to exceed £4m, financed largely through prudential borrowing.

4.7 Seafront and Promenade

4.7.1 Replacement timber structures, piles and decking are planned for Worthing Pier. Over the course of the year, consideration will also be given to the potential for a sponsorship scheme to support the Pier decking and help to ensure it remains safe and in the best possible condition.

4.7.2 A new automated sprinkler system will be installed for each of the buildings on the pier. This work is being delivered in phases (the infrastructure for an automated provision is already built into the Southern Pavilion following the recent upgrade and is ready to receive a water supply). In addition, a similar arrangement is proposed for the Central Pavilion and Pavilion Theatre & Denton Lounge, replacing the existing manual system in the latter as funds allow. A booster pump and housing will be installed, together with the necessary supply pipework and it is anticipated this work will be carried out in 2024/25.

4.7.3 A priority for 2024/25 is to use the basis of work that has been undertaken to understand the condition of Worthing Lido to inform the development of design options for consideration and consultation.

- 4.7.4 A number of lighting columns on the Promenade need to be replaced during 2024/25 and the fronts of the Beach House Park chalets will also be updated.

4.8 **Cycle lane from George V Avenue to Sea Lane**

- 4.8.1 New infrastructure to support safe cycling is high priority for the Council and this route has been identified as a high priority - it represents a vital 'missing link' in the National Cycle Network (Route 2) and has been reaffirmed as the key priority in the Local Cycling & Walking Infrastructure Plan as well as in the draft Infrastructure Investment Plan (IIP) 2023-2026 supported by the Community Infrastructure Levy (CIL). Funding from CIL Strategic Pot will be used to deliver the necessary design and feasibility work for the wider scheme cycle scheme and a delivery plan for full implementation will be worked up during the year.

4.9 **Worthing's public realm**

- 4.9.1 A major improvement to Montague Place will transform the public realm in the town centre to provide a garden environment and a focus for community events, sustainable travel and a much improved connection to the promenade and the beach. 'Montague Gardens' will be funded using the CIL Strategic Pot.

- 4.9.2 CIL funds will also be used to support a programme of renewal in local shopping areas with a particular focus in 2024/25 on Tarring Road and Ham Road, including the installation of EV charging points. Subject to approval of the draft Infrastructure Investment Plan (IIP) 2023-2026

4.10 **Parks, open spaces and play**

- 4.10.1 Parks and open spaces make a vital contribution to local quality of life. The stewardship and management of these spaces represents an important opportunity to partner with local communities and to make progress toward our decarbonisation targets.

- 4.10.2 The 2024/25 programme includes the upgrade and refurbishment of equipment and surfacing at Gull Island (East Beach), Waterwise and Victoria Park play areas. The programme also includes provision for a general parks improvement programme, together with a play area improvement programme and to help the Council plan for the renewal of equipment and investment in new facilities.

	2023/24 Approved	2024/25 Proposed	2025/26 Indicative	2026/27 Indicative
Worthing	£'000	£'000	£'000	£'000

Play area improvements	253	113	50	50
General parks improvements	209	50	0	0
Brooklands	477	0	0	0
	939	163	50	50

4.10.3 The Council has already committed to investing into a full refurbishment of Homefield Park, and preparatory work has been undertaken with a full programme planned for 2024 using those monies identified in the 2023/24 capital programme which also supported provision of the new playground at Palatine Park and new facilities at Northbrook Recreation Ground.

4.10.4 Over £42,000 of section 106 funds have been received from development and are available to be spent on 'provision or improvement of a play area at Field Place'. The Council is also in dialogue with Southern Water about a potential contribution towards our parks and open spaces

4.11 **Chesswood Rainwater capture facility/ verge planting**

4.11.1 Specific provision has been made to activate the existing Chesswood rainwater capture facilities after a number of years out of use to assist allotment holders in particular: and a small fund is established to support the greening and planting of verges where the Council has responsibility for their care.

4.12 **Splashpoint**

4.12.1 The Council intends to replace the Ground Source Heat Pump at Splashpoint in partnership with the original contractors Morgan Sindall, utilising some of the original contingency funds retained for this project. The new ground source heat pumps will provide low carbon heat generation for the centre and users and unlike the original heat pumps, will provide sufficient output to heat the Pool.

4.12.2 The Capital Programme also makes provision for the upgrade of Splashpoint's fire dampers. Dampers or shutters are commonly used in heating and ventilation, and air ducts to prevent and isolate the spread of fire inside the ductwork through fire-resistance rated walls and floors.

4.13 **Cultural venues**

4.13.1 There are several initiatives currently underway to improve a number of Worthing's important cultural venues. Works are planned to upgrade the Connaught Theatre's roof. The windows at the Connaught and the Pavilion

Theatre are to be replaced. These improvements total £295k and were identified as part of the 2023/24 Capital Programme.

4.14 Colonnade House

4.14.1 Colonnade House makes a vital contribution to the local creative economy, providing important space for artists, makers, designers and innovators to collaborate and connect. A bid to the Arts Council (£464k) proposes a series of improvements designed to improve energy efficiency, including a new roof, upgraded heating and insulation and new windows.

4.15 Multi-Storey Car Park repairs

4.15.1 Structural repairs are required at the High Street and Grafton car parks. The Grafton works are for repairs needed to ensure that the car park is safe to use whilst it remains open. The repairs to the High Street car park will ensure that the car park remains operational and is in a good standard of repair prior to the installation of the district heat network facilities and further work to upgrade the facilities.

4.16 Worthing Crematorium

4.16.1 Improvements to the Memorial Garden and the Muntham Estate Walls (£250,000) will take place at the crematorium grounds to enhance the setting. The development of the memorial garden will provide additional plots whilst being sustainable and encouraging biodiversity.

4.17 Commerce Way

4.17.1 Refurbishment and renewal (£177k) is required at the Commerce Way to ensure a safe operational and working environment for our staff and to promote the efficient delivery of council services. Recent improvements have included upgraded shower and washroom facilities and further improvements to these facilities will be made in 2024/25. Flooring and roofing are further priorities and both are in need of repair.

4.18 Worthing Leisure Centre

Replacement foundations for the lighting columns (£84,400) on the all-weather pitches will be installed in the coming year to ensure access to the facilities continues throughout the year. Renewals to the pitches are expected to take place in future years, to maintain the quality of the facilities.

5. Resourcing the programme

- 5.1 There are two influences on the overall size of the capital programmes, namely:
- a) the level of available capital resources to fund the programmes;
 - b) the extent to which the revenue consequences of the programmes in terms of the cost of borrowing, lost investment income and any associated running costs can be accommodated within the revenue budget.
- 5.2 The financial position for Worthing Borough Council remains challenging over the next five years and the age and condition of our existing assets often needs to be reflected in our investment decisions. Where a strong business case can be made, invest-to-save schemes and capital investments which support our local communities will be funded through prudential borrowing.
- 5.3 The proposed programme assumes a phased use of the available prudential borrowing, capital receipts, and reserves. These are discussed in more detail below:
- 5.4 **Usable Capital Receipts derived from the sale of assets**
- 5.4.1 Usable capital receipts are generated through the sale of Council owned assets. The Council actively looks for opportunities to increase the available receipts. This forms part of our budget strategy as the generation of additional receipts will enable the Council to reduce the cost of financing the capital programme.
- 5.4.2 Whilst, the revenue implication of using any capital receipts is by no means as much as those incurred by borrowing, this is by no means a 'free' source of funding. The annual revenue costs of using £1m of capital receipts are as follows:-

	Year 1 £	Year 2 £
Interest at 4.5% (current average return on investments)	22,500	45,000

- 5.4.3 However, the use of these resources avoids the need to use more expensive forms of financing such as borrowing.

5.4.4 In the past capital receipts have been a major source of funding for the Council's capital programmes. Members will be aware that the Council now has only limited access to capital receipts as:

- a) The Council does not own many large tracts of land that can be easily disposed of when capital receipts are needed. Indeed, any such tracts of land may give the Council the opportunity to either directly or indirectly improve the supply of affordable housing. However the Council is actively reviewing its asset base with a view of disposing of surplus assets to support the delivery of the capital programme and reduce the overall cost of borrowing;
- b) There are very few other options for future disposals of operational assets, owned by either council, without service provision implications;
- c) Any benefits that might accrue from the sale of non-operational assets, such as the commercial properties, will be largely negated by the loss of significant rental and lease income. Consequently, the disposal of such assets can only be undertaken when there is a clear business case to justify such an action;

5.4.5 In addition, due to the pressure on the reserves, some of the receipts generated in the period 2016 - 2023 have been set aside to fund the costs associated with delivering the savings necessary to balance the revenue budget.

5.4.6 In light of the budget strategy and the limitations on generating additional capital receipts, the estimated balance of capital receipts to fund the 2024/25 and 2025/26 Capital Investment Programmes will be:

		Balance at 1 st April £'000	* Receipts Generated £'000	Planned Use £'000	Balance at 31 st March £'000
2024/25	General	35	20	(32)	23
	Ring-fenced				
	- General Fund	2,891	200	(35)	3,056
	Total	2,926	220	(67)	3,079
2025/26	General	23	20	(32)	9
	Ring-fenced				

	- General Fund	3,056	200	(89)	3,167
	Total	3,079	220	(121)	3,176

5.4.6 The lack of capital receipts as a source of funding is a problem for the Council. It is inevitable that the Council will need to borrow to sustain the capital programme with inevitable higher revenue consequences as a result until additional receipts are forthcoming.

5.5 Prudential Borrowing

5.5.1 The Prudential Code generally gives an unlimited ability to borrow, provided it is 'affordable, sustainable and prudent'. In practical terms the amount of the borrowing is inhibited by the impact of the associated revenue consequences on the revenue budget and, by extension, on council tax.

5.5.2 The annual revenue costs of each additional £1m of Prudential Code borrowing are estimated to be as follows:-

	Year 1 £	Year 2 £
Principal repayment based on the annuity method *	0	53,770
Interest at say 4.5%	22,500	45,000
Total costs	22,500	98,770

**The Council has a policy of repaying any debt over the life of the asset acquired. On average the assets funded will have a life of 15 years which is equivalent to a 8.9% revenue provision each year.*

MRP = Minimum Revenue Provision – the amount of loan that has to be repaid each year, notionally this is the amount set aside to repay debts which have accumulated to finance schemes.

5.6 Revenue Contributions and Reserves

5.6.1 The Council sets aside revenue resources through revenue contributions to capital, both to support capital improvement to the Crematorium and initiatives to bring empty properties back into use.

5.7 Capital Grants and other external funding

5.7.1 The following capital grants and other contributions are expected and have been taken into account within the overall resources for the 2024/25 capital programmes:

	£
Arts Council	464,000
Disabled Facilities Grant (Better Care Fund)	800,000
Community Infrastructure Levy	50,000
Department for Business, Energy and Industrial Strategy - Heat Network	983,000
Homes England	600,000
Public Sector Decarbonisation Schemes Fund	3,851,670

5.7.2 Disabled Facilities grants are mandatory and each Council has to approve all eligible grants. All approvals are for 12 months and works can be undertaken at any time in this period. Any unspent grant can be carried forward to future years to fund outstanding grant commitments at 31st March.

6. Draft Programmes

6.1 General Fund programme

6.1.1 The 2024/25 and 2025/26 draft General Fund programmes are attached at Appendix 2 and 3 which also includes the proposed changes to the 2023/24 programme. The indicative programmes have been prepared on the basis of the agreed guidelines and the estimated resources. Each scheme has been scored using the priority scoring system devised under the Capital Strategy, producing a balanced programme in accordance with the overall available funding. At this stage, the schemes recommended for inclusion 2025/26 are indicative only and will be reassessed next year.

6.1.2 Workshop sessions with portfolio holders have helped to inform the development of a capital programme that reflects the Council's priorities. Additional information is provided below on the proposed invest to save schemes and other issues which members should be aware of when considering the overall programme.

6.2 Invest to save schemes

6.2.1 The Council will consider 'invest to save' capital proposals which produce revenue savings that exceed the cost of borrowing by at least 10% over the life of the investment. The following schemes are included in the capital programme. Funding will be released on presentation of a business case to the Executive Member.

(i) Empty Properties

This scheme has been funded from New Homes Bonus. However, the future of the New Homes Bonus is uncertain and it may cease to be paid to the Council and is due to be fundamentally reformed. Consequently, this scheme will be funded in future from the repayment of empty property grants and loans. The effectiveness of the scheme is reviewed annually.

The Council will continue to build on the working relationship with the nominated private sector letting agent that we are currently in partnership with to manage our guaranteed rent scheme. There has been a growing number of empty home owners interested in the schemes and new approaches continue to be sought to promote the funding to Empty Property owners. Increasing the supply of private sector rental properties available at Local Housing Allowance levels remains a key objective.

Close working with our Legal Team to develop and finalise the Enforced Sales Procedure is nearing fruition which will allow us to proceed with the sale of three long term empty properties, we anticipate using this procedure on further properties in the future.

The Council will continue to focus on achieving the objectives set out in the Empty Property Strategy and working with partners in the charitable sector as well as individual empty property owners to increase the supply of affordable housing as these properties are let at social rents.

The success of this initiative will be monitored.

(ii) Strategic Property Investment Fund

The Council has committed to investing in commercial property and other income generating assets which support the Council's economic regeneration ambitions, carbon reduction initiatives or supports improvements to the supply of housing. The intention is to provide long

term assets that both support the delivery of the Council's corporate strategy and produce a long term sustainable income for the Council which will fund the borrowing consequences of the investment and support the future aspirations of the Council. The investment in such property is governed by the Commercial Property Investment Strategy which was approved by the Joint Strategic Committee on the 30th March 2021.

To enable this objective to be met, as part of the Capital Strategy, the Council has set aside funding for a Strategic Property Investment Fund. Each investment should generate income which exceeds the potential borrowing costs associated with the purchase or development of the new property.

Whilst under the constitution, the Assistant Director of Regenerative Development has the delegated authority to purchase property provided that a budget exists; given the nature of these investments, each individual development proposal is the subject of a business case which is approved by the relevant Leader and Executive Member of Resources.

(iii) Temporary accommodation

The cost of temporary and emergency accommodation has been escalating. In response to this, the Council has created a budget to purchase temporary accommodation for residents who the Council has a duty to house temporarily. Each proposal is assessed for financial and operational viability before a business case is approved by the Executive Member.

(iv) Energy Efficiency / Carbon Reduction Schemes

Both Councils currently have provision within the capital programme for energy efficiency / carbon reduction schemes which produce savings to offset any potential borrowing costs.

	2023/24	2024/25	2025/26
	£'000	£'000	£'000
Carbon reduction - invest to save scheme	570,000	239,020	400,000

A report, elsewhere on the agenda, details the expected programme of work.

6.3 Overall

The following assumptions have been used in preparing the draft programmes:

- (a) Maximise use of external funding where possible.
- (b) Continuation of Specific Grant Aided Funding for Mandatory Disabled Facilities Grants.
- (c) The proposed Capital Programme and Reserve Lists include a number of the larger planned maintenance schemes. Only schemes which meet the criteria for capital funding are included.

6.4 The following tables are a summary of total resources used to fund the new schemes included in the draft programmes for 2024/25, 2025/26 and 2026/27.

Programme Year	Revenue Contributions and Reserves £	S106 and Community Infrastructure Levy £	Capital Grants and Contributions £	Usable Capital Receipts £	Borrowing £	TOTAL £
2024/25						
General Fund	197	50	6,816	67	21,933	29,063
2025/26						
General Fund	175	150	906	121	6,613	7,965
2026/27						
General Fund	175	150	906	32	8,113	9,377
TOTAL	547	350	8,628	220	36,659	46,405

6.5 Members will note that the total planned spending for 2024/25, 2025/26 and 2026/27 is £46,405,000. The table above indicates how this proposed programme will be financed.

7. Revenue Implications

7.1 The revenue implications (excluding the revenue impact of financing the Capital Investment Programme) of all the capital projects in the draft

programmes are shown in the last column of appendices 2 and 3. An assessment of the revenue implications of the planned programme has already been built into the Medium Term Financial Plan. This has already been recognised as a genuine expenditure within the overall revenue budget. There is, of course, no obligation to spend merely because resources are available. In considering the merits of any capital investment proposal, the opportunity cost of using the resources, the revenue cost associated with any borrowing and the interest earnings foregone by utilising capital receipts and reserves, require full consideration.

- 7.2 The full year revenue impact of financing the capital programme is shown below:-

Programme Year	Revenue Impact	Cumulative	Full-Year Impact in
	General Fund £	General Fund £	
2024/25	989,100	989,100	2025/26
2025/26	286,116	1,275,216	2026/27
2026/27	299,451	1,574,667	2027/28

The above figures do not include any other direct revenue implications, which could be either positive or negative, depending on the particular schemes. The draft programmes show the other ongoing annual running costs of servicing and maintaining the proposed schemes and savings generated from the capital investment which will be included within the revenue budget.

8. Prudential Indicators

- 8.1 The statutory framework for the Prudential System is set out in Chapter 1 of the Local Government Act 2003 and in the Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 as amended. The framework incorporates four statutory codes. These are:

- The Prudential Code prepared by CIPFA
- The Treasury Management Code prepared by CIPFA

- The Statutory Guidance on Local Authority Investments prepared by MHCLG
- The Statutory Guidance on Minimum Revenue Provision prepared by DCLG

8.2 Part of the core process for the Prudential Code is for Members to set Prudential Indicators as detailed in the Prudential Code against which the performance of the Capital Investment Programme and Treasury Management can be measured and monitored throughout the year. These indicators will be calculated once the programme has been fixed and reported to the Executive and Council as part of the annual Revenue Budget report.

9. Engagement and Communication

- 9.1 The development of the programme is the subject of extensive internal consultation with Officers.
- 9.2 Members were consulted on the capital bids to be included in the draft programmes. Their comments are included in this report. The final recommendations for the capital programmes will be made to Worthing Borough Council on the 20th February 2024.
- 9.3 Individual programmes of work, for example the design of playgrounds, will be the subject of consultation with local communities where appropriate to ensure that they meet local needs.

10. Conclusion

- 10.1 The overall financial position of the Council dictates that there be only limited revenue resources allocated to fund the cost of financing the capital programme. Therefore, the overall increase to the core programme for 2024/25 remains relatively modest at £1.5m.
- 10.2 Consequently, the Council has insufficient capital resources available to meet all of the identified demands for capital investment for 2024/25, 2025/26, and 2026/27. Nevertheless, there has been a concerted effort to identify and prioritise those projects where delivery reflects the Council's stated priorities. Where schemes are unable to be delayed due to pressing maintenance requirements, these have been recommended for inclusion. However, some schemes must remain on the respective Reserve List.

- 10.3 An implication of the necessary restriction in capital investment will be the need for strict cost management when addressing the maintenance needs of the Council's assets. As addressed in 10.2 maintenance schemes deemed critical have been recommended. In 2024/25 and future years the Council will need to continue to critically analyse its needs both in terms of assets required to support service delivery, and its ability to meet the cost of maintenance needs across its estates.
- 10.4 The continuing constraints on the availability of capital resources in the medium to long term and the direct impact on the revenue budget leaves little room for manoeuvre. Work needs to commence now to ensure sufficient resources are available to the Council to provide adequate funds for financing the respective Capital Investment Programmes from 2025/26 onwards. In any event, the revenue consequences of spending scarce resources must always be borne in mind in judging the merits of any capital investment proposal.

11. Financial Implications

- 11.1 The detailed financial implications associated with the development of the budgets are detailed throughout the report.

12. Legal Implications

- 12.1 Part 1 of the Local Government Act, 2003 sets out the framework for capital finance and expenditure.
- 12.2 The Local Government (Capital Finance and Accounting) (England) Regulations 2003 provide more detailed requirements.
- 12.3 Section 111 of the Local Government Act, 1972 allows the Council to do anything which is intended to facilitate or is conducive to or ancillary to any of its functions.
- 12.4 The Local Government Act 2003, Sections 16(2)(b) and 20: Treatment of costs as capital expenditure allows the Council to use any capital receipts generated in 2022/23 - 2024/25 to fund revenue expenditure which will generate an on-going saving via a direction from the Secretary of State which was issued on 2nd August 2022 subject to a limitation on the type of departure costs which can be funded. Departure costs are restricted to statutory payments only, any enhancement must be funded from within the Council's revenue resources.

- 12.5 There are a range of legislative safeguards in place that help to prevent local authorities overcommitting themselves financially. These include a duty to report on robustness of estimates and adequacy of reserves (under section 25 of the Local Government Act 2003 when the authority is considering its budget requirements).

SUSTAINABILITY AND RISK ASSESSMENT

1. ECONOMIC

Matter considered and no issues identified

2. SOCIAL

2.1 Social Value

Matter considered and no issues identified

2.2 Equality Issues

Individual schemes within the three proposed capital programmes have been subjected to equalities impact assessment. Schemes which have a positive impact on equalities include:

- Affordable housing schemes – Schemes are targeted at the most vulnerable;
- Disability Discrimination Act - Works to improve accessibility of Council buildings;
- Disabled Facilities Grants – Improvements and adaptations to private housing to meet specific needs;
- Home Repair Assistance Grants – Grants to enable those in need to stay in their homes;
- Resurfacing of hard surfaces – Provides an improved surface for wheelchair users and other people with reduced mobility;
- Parks – Replacement of play area and outdoor fitness equipment which is designed to be more accessible and inclusive;
- ICT Hardware Replacement Programme – Provision of special keyboards and screens where required;
- Empty Property Grants – Increase the supply of affordable housing in the locality.
- Public Conveniences – Upgraded and new facilities include DDA improvements and facilities.

There will be no negative equalities and diversity outcomes arising from the proposed programmes.

SUSTAINABILITY AND RISK ASSESSMENT

2. SOCIAL

2.3 Community Safety Issues (Section 17)

WORTHING BOROUGH
COUNCIL

WORTHING BOROUGH COUNCIL - CAPITAL BUDGETS REPROFILED TO FUTURE YEARS

Scheme	Reprofiled Budgets	Reason
1. Schemes in Progress where the completion has been delayed beyond March 2024		
Opening Doors - Gratwicke Road	48,000	Total budget of £60,000 reprofiled from the Affordable Housing Registered Social Landlord project. Project spread over 5 year at £12,000 per annum. Budget reprofiled in line with anticipated expenditure
Beach House Park Chalets - Replacement of chalet fronts	125,000	Planning to progress this year. Works to go on site in the summer. Budget reprofiled in line with anticipated expenditure
Commerce Way - Replacement floor coverings	50,000	Some reactive work has been carried out in 2023. Technical services are focused on delivering higher priority projects and anticipate this project will begin in 2024/25
Commerce Way - Replacement roof covering	75,000	Project out to tender in February. Works to be on site in April. Budget reprofiled in line with anticipated expenditure.
Commerce Way - Upgrade of male showeres	17,500	Project out to tender in January. Works will roll into the new financial year.
Condition Surveys - Corporate Buildings	140,000	The appointed contractor has decided to leave the project. A new process is needed to deliver the surveys, either internally or externally.
Connaught Theatre - Replacement Slate Roof	150,000	Works currently scheduled to start after the winter. Budget reprofiled in line with anticipated expenditure.
Connaught Theatre - Replacement Windows	75,000	Works currently scheduled to start after the winter. Budget reprofiled in line with anticipated expenditure.

WORTHING BOROUGH
COUNCIL

WORTHING BOROUGH COUNCIL - CAPITAL BUDGETS REPROFILED TO FUTURE YEARS

Scheme	Reprofiled Budgets	Reason
Corporate Hardware and Infrastructure	31,800	Fewer equipment replacements have been requested this year. Budget reprofiled in line with replacement equipment schedule.
Cemeteries and Crematorium Software	112,130	Budget profiled in line with anticipated expenditure.
Cyber Security	22,520	Mobile phone security software will go live from April 2024.
Cycle Lane - George V to Sea Lane	700,000	CIL funds have been allocated to support feasibility on the revenue budgets. Once feasibility is complete, this capital budget is the current estimate to be required. Budget profiled in line with potential funding agreement.
Digital Strategy - General Provision	31,800	Identity and Access Management System being reviewed. It is expected this will include other systems to produce a Single Sign On solution. Implementation now expected in 2024/25.
Durrington Cemetery Chapel Improvements	91,570	Technical services are focused on delivering higher priority projects. Improvement works are expected to begin in 2024/25
Equalities Act - Access Audits	40,000	Future audits are expected to take place in 2024/25
Extension of Ultrafast Fibre Network	1,325,000	Scheme in partnership with Adur District Council. Payment to Cityfibre for dark fibre connections to our council sites will only be made once 90% of the sites has been delivered, a point we have not yet reached. This funding is in place ready for when the payment can be released. Budget profiled in line with expected expenditure.

WORTHING BOROUGH
COUNCIL

WORTHING BOROUGH COUNCIL - CAPITAL BUDGETS REPROFILED TO FUTURE YEARS

Scheme	Reprofiled Budgets	Reason
