<b>Case Officer:</b>	<b>James Appleton</b>	

The Head of Planning and Development delivered the presentation explaining some updates to the report since agenda publication as follows - .

- The Environmental Health Officer had agreed with the noise assessment report that a condition should be added ensuring that noise should not exceed background noise levels and it should also cover spikes in noise.
- A development contribution of £200,000 could help to mitigate the impact of additional traffic and help to supply traffic calming measures, an informal pedestrian crossing along Dominion Road and the delivery of the cycle/footpath link through to Sompting.

Members had questions for the Officer regarding -

- Parking
- The siting of the informal pedestrian crossing
- Contamination levels

There were two registered speakers giving representations in support of the application.

Members had questions for the speakers regarding -

- Possible end users of the units
- The drainage scheme
- Sustainability features proposed
- Landscaping

During debate members concurred that they felt some disappointment at the design of the proposed industrial estate and sensed that this may have been a missed opportunity to create a showpiece. However, it was appreciated that viability plays a part in design, that this sort of site sits squarely into the local plan. There also is an immense demand for industrial units in this area.

There was a proposal to accept the Officers recommendation to approve the application with the decision delegated to the Head of Planning and Development to await the satisfactory comments of National Highways and the SDNP and the completion of a planning obligation to secure off site highway improvements and with an additional condition regarding an employment skills training plan and the following conditions: This was seconded with a vote of 3 in favour and 1 abstention.

The Head of planning and development presented the report outlining the background of the application.

There were two registered speakers who gave presentations in support of the application.

Members had questions for the speakers regarding -

- How quickly the applicant felt that having external tables would result in attracting restaurant customers as opposed to bar customers.
- Whether external tables would only be for customers eating
- What measures the applicants had taken to advertise the restaurant side of the business

During debate Members discussed the possibility of granting temporary approval for a period of one year. It was thought that this could give the business time to change customer mindset and see the premises as a restaurant rather than a cocktail bar.

A proposal was made to approve the application with a 12 month condition added. This was seconded and voted in favour of unanimously.

**Decision - APPROVED** - Recommendation Overturned planning permission granted for a 12 month temporary permission.

Site: 6 New Street, Worthing (The Last Melon) Proposal: Application to vary condition 4 of AWDM/0703/18 to allow the outdoor use of the forecourt with 24 covers from 10am to 10pm (last customers seated by 9pm).
