### **JSS-C(A)/7/23-24 Strategic Approach: Children and Young People**

The purpose of the report before Members was to outline how Adur District Council would deliver an inclusive and ambitious strategic approach to work with and for children and young people.

The purpose of the outlined strategic approach was to set out how Adur Council, as a would develop a responsive, proactive and constructive space whereby children and young people were actively engaged and involved as citizens and were visible in all aspects of the Council's core business, which can be evidenced through co-design and co-production.

The paper recognised that much of the direct responsibilities for children and young people sat with other organisations, therefore the principles set out in the report were focused on where the Council could influence or support others to deliver, where collaboration maximised potential and development opportunities. The Council was committed to evolving and innovating to increase our effectiveness and reach, leveraging in funds that embed our ambitions and being steadfast in our own continual improvement, and being able to evidence outcomes and impacts.

To embed plans for children and young people in Adur, strong participatory foundations would be built through a co-designed partnership roadmap. This would move the Council beyond initiative-led activities, to develop sustainable forms of participation that were visible in organisational ethos, culture, infrastructure and in decision making processes.

Members noted the importance of the report given that 20% of the population were classified as young people and the Authority provided important services for this section of society.

## **Decision**

The Adur Sub Committee of the Joint Strategic Committee resolved

1. That a framework be adopted for our work with and for children and young people of Adur, as set out in section 4.
2. That officers continue to develop a live roadmap and that this is reviewed with the Cabinet Member for Communities and Wellbeing.
3. That it be noted that the Council will work with key members of our community to further develop our Worthing specific framework so that we have a definable evidence base to our work for and with children and young people and can measure both outcomes and impacts.

## **JSS-C(A)/8/23-24 Western Harbour Arm Flood Defence Project**

The report before the Sub-Committee set out a practical solution to ensure that vital flood defences were provided in a vulnerable location at the Western Harbour Arm in Shoreham to enable work to proceed on-site. To achieve this, authorisation would be required by Members to extinguish Restricted Byway 3157 ("RB3157") at Stowes Hard in Shoreham.

The extinguishment of the RB3157 would reduce and prevent the integrity of the floodwall from being compromised, minimising its vulnerability and risk to flooding and ongoing costs for management and maintenance requirements.

Members were given background to the RB3157 and it was explained why it was necessary to extinguish it for the benefit of improving flood protection in Shoreham. Members were also given alternative options to ensure suitable public access could be maintained

Members discussed the report and expressed concern at the loss of the Byway and public hard without seeking an alternative. It was agreed that
