## **Appendix 1**

### **Motion - A Partnership between Local Government and National Government to tackle Climate Change**

#### **Background**

In 2018, at COP24, the UK Government signed up to having 'domestic institutional arrangements, public participation and engagement with local communities' so localities can play their part in delivering the UKs 'Nationally Determined Contributions' in the Paris Climate Agreement.

In July 2019 Adur District Council declared a Climate Emergency

In July 2021 the Sustainable AW 2021-23 plan was presented which states that: *To address the Climate Emergency, greater collaboration on climate action is proposed through enhanced engagement with community, business and public sector partners; developing joint ownership of a refined SustainableAW plan; and creating clearer methods of joint working.*

In May 2021 Alok Sharma MP, President of COP26 said Collaboration would be a key objective of the climate summit

*"Governments, business and civil society (sometimes called 'non-state actors' and including local government) need to work together to transform the ways we power our homes and businesses, grow our food, develop infrastructure and move ourselves and goods around"*

Despite these agreements and statements there is still no formal relationship allowing a joint partnership working between Local and National Government on climate action.

#### **This Council notes that**

- there has been a substantial shift in public opinion on the Climate Emergency and Biodiversity crisis during the last 3 years since COP24
- public opinion is strongly in favour of bold and decisive action at local, national and international level on the Climate Emergency
- this country is hosting COP26, the last chance to introduce the necessary substantial measures to halt global warming below 1.5 degrees C.

#### **This Council resolves to**

- in this year of COP26 add our voice to calls by the Local Government Association and the Association of Directors of Environment, Economy, Planning and Transport & others for a joint local & national government Task Force to plan action to reach 'net zero' emissions. Such a partnership can set appropriate regulations, benchmarks and targets and create the much needed long-term funding mechanisms to enable local communities and economies to decarbonise whilst remaining resilient and sustainable.

- write to Alok Sharma MP, President for COP26 , the Prime Minister and the Leadership Board of the LGA informing them of our support for a joint Local/National Government Climate Change Partnership Taskforce and asking for one to be established as soon as possible.
